Revisiting Modernism Maria-Ana Tupan , By shifting the centre of gravity from author to reader Roland Barthes had certainly prepared us for a Copernican turn in aesthetics yet Michael J Pearce s Art in the Age of Emergence still sounds unfamiliar two years after its publication While acknowledging the existence of homologies among the art objects of a cultural phase the Californian academic also launches an explanatory hypothesis I realized that in order to understand art instead of looking for the similarities between the paintings and the sculptures we have to look at the similarities between the people looking at them Art is better explained by looking at how the mind works than by looking at the products of mind XV The substitution of the phenomenology of mind for the phenomenology of the work of art can only have a partial contribution to the understanding of period terms yet not devoid of relevance The numerous studies in modernism published of late for instance are revisionary the changing views being motivated by the new historical context rather than by a new assessment of forms The mind turns out to be working according to the critical theory it has been exposed to or which it has freely embraced Relegated to the status of socio political movement without aesthetic significance since 1939 when Clement Greenberg associated it with kitsch to Renato Poggioli Peter Bürger or Christopher Butler Early Modernism Literature Music and Painting in Europe 1900 1916 1994 the avant garde came to be enshrined as the weightiest artistic phenomenon and the last post of modernism by Richard Sheppard in Modernism Dada Postmodernism 2000 who joined thus a new party of postmodern critics among whom Linda Hutcheon who see the historical avant garde as the generative matrix of the post war literature in the 50s and the 60s stretching the term to include the French nouveau roman or the Tel Quel Quoted by Sheppard on Marx s Communist Manifesto being the first great modernist work of art Marshall Berman All That Is Solid Melts into Air 1982 too welcomes modernism into the sixties and seventies Titles such as Avant Garde and After Rethinking

Although not irrelevant in point of aesthetic achievement Ayendy Bonifacio writing persuasively on Hart Crane's constructivist rhetoric the avant garde is still perceived as a self standing chapter in the cultural history of modernism The exchange of cultural narratives and traditions fostered by historical circumstances but also by Worringer's aesthetics that praised primitive art for its tendencies towards abstraction in flight from a threatening and alien nature that could provide a spiritual cure to a materialistic civilization was defining for the poetics of art at the turn of the last century Modernism was humanity's first coming together "We Met in Paris" Joan E Howard, 2018-05-31 Grace Frick introduced English language readers all over the world to the distinguished French author Marguerite Yourcenar with her award winning translation of Yourcenar's novel *Memoirs of Hadrian* in 1954 European biographies of Yourcenar have often disparaged Frick and her relationship with Yourcenar however This work shows Frick as a person of substance in her own right and paints a portrait of both women that is at once intimate and scrupulously documented It contains a great deal of new information that will disrupt long held beliefs about Yourcenar and may even shock some of her scholars and fans [Dramaturgy and Dramatic Character](#) William Storm, 2016-03-17 William Storm delivers a wide ranging investigation of character in drama from ancient beginnings to the present day *Surreal Beckett* Alan Warren Friedman, 2017-08-15 Surreal Beckett situates Beckett's writings within the context of James Joyce and Surrealism distinguishing ways in which Beckett forged his own unique path sometimes in accord with sometimes at odds with these two powerful predecessors Beckett was so deeply enmeshed in Joyce's circle during his early Paris days 1928 late 1930s that James Knowlson dubbed them his Joyce years But Surrealism and Surrealists rivaled Joyce for Beckett's early and continuing attention if not affection so that Raymond Federman called 1929-45 Beckett's surrealist period Considering both claims this volume delves deeper into each argument by obscuring the boundaries between these differentiating studies These received wisdoms largely maintain that Beckett's Joycean connection and influence developed a negative impact in his early works and that Beckett only found his voice when he broke the connection after Joyce's death Beckett came to accept his own inner darkness as his subject matter writing in French and using a first person narrative voice in his fiction and competing personal voices in his plays Critics have mainly viewed Beckett's Surrealist connections as roughly co terminus with Joycean ones and ultimately of little enduring consequence Surreal Beckett argues that both early influences went much deeper for Beckett as he made his own unique way forward transforming them particularly Surrealist ones into resources that he drew upon his entire career Ultimately Beckett endowed his characters with resources sufficient to transcend limitations their surreal circumstances imposed upon them

Masculine Domination in Henry James's Novels Wibke Schniedermann, 2020-07-20 This book proposes a new interdisciplinary approach to the gendered power relations in James's novels Reading James's narrative form through the lens of relational sociology specifically Pierre Bourdieu's concept of symbolic domination reconciles some of the most fiercely disputed positions in James studies of the past decades The close readings focus on three novels *The Portrait of a Lady* *The*

Wings of the Dove and The Golden Bowl providing a systematic relational analysis into the specifically Jamesian method of narrating the socio psychological embodied responses to masculine power and oppression James persistently narrates his characters as social agents whose perception affects and bodily practices are products of the social structures that they in turn continue to shape and reproduce The chapters trace a development throughout James s career that reflects a growing sensitivity for the concealment and attendant misrecognition of gendered domination **Author** Beowulf

celebrated the figure of the self made man and the idea of establishing selfhood particularly male selfhood in nature However during the crisis of masculinity that swept across America in the middle of the twentieth century a generation of writers started exploring a different kind of a man This was a figure who was concerned not so much with the loss of the West or the desire to recover a wilderness but with how to live in an ordinary domesticated continent Masculinity and Place in American Literature since 1950 explores the role of place in negotiating reinforcing and subverting articulations of hegemonic masculinity in the work of four American writers from the latter part of the 20th century John Cheever John Updike Raymond Carver and Richard Ford The book argues that American fiction by white male writers between the 1950s and the present day is compelled by the troubled and troubling relationship between masculinity and place This relationship is deeply embedded in how ideals of masculinity are predicated upon the experience of the physical world and how the symbolic logic of masculinity is continually subverted by alternative conceptions of dwelling and ecological consciousness The Theatre
