**Handbook of Research on In-Country Determinants and Implications of Foreign Land Acquisitions** Osabuohien, Evans, 2014-12-31 Several studies have investigated the impetus

and implications behind large scale land acquisitions deals at the global level however intranational factors within communities and societies have not received much attention from researchers The Handbook of Research on In Country Determinants and Implications of Foreign Land Acquisitions examines the economic sociological and environmental issues surrounding land transactions and the impact these deals may have on local households and communities Focusing on international issues as well as domestic concerns this publication is a useful reference for policymakers academics researchers and advanced level students in various disciplines

**International Natural Resources Law, Investment and Sustainability** Shawkat Alam,Jahid Hossain Bhuiyan,Jona Razzaque,2017-09-27 International Natural Resources Law Investment and Sustainability provides a clear and concise insight into the relationship between the institutions that govern foreign investment sustainable development and the rules and regulations that administer natural resources In this book several leading experts explore different perspectives in how investment and natural resources come together to achieve sustainable development in developing countries with examples from water oil and gas renewable energy mineral agriculture and carbon trading Despite varying perspectives it is clear that several themes are central in considering the linkages between natural resources investment and sustainability Specifically transparency good governance and citizen empowerment are vital conditions which encourage positive social economic and environmental outcomes for developing countries In addition this book provides new insights into key concepts which underpin international law including sovereign rights and state responsibility principles It is clear from this book that in the attempt to reconcile these concepts and principles from separate legal regimes complex policy questions emerge whereby it is difficult to attain mutually beneficial or succinct outcomes This book explores how countries prioritise their policy objectives to achieve their notion of sustainable natural resource use which is strongly influenced by power imbalances that inform North South cooperation as well as South South cooperation in the international investment regime This book will be of great interest to students academics and researchers of international environmental law international human rights law international investment law and international economic law This book may also be of relevance to environmentalists policy makers NGOs and investors working in the natural resources field

*High-Value Natural Resources and Post-Conflict Peacebuilding* Pivi Lujala,2012-03-29 For most post conflict countries the transition to peace is daunting In countries with high value natural resources including oil gas diamonds other minerals and timber the stakes are unusually high and peacebuilding is especially challenging Resource rich post conflict countries face both unique problems and opportunities They enter peacebuilding with an advantage that distinguishes them from other war torn societies access to natural resources that can yield substantial revenues for alleviating poverty compensating victims creating jobs and rebuilding the country and the economy Evidence shows however that this opportunity is often wasted Resource rich countries do not have a better record in sustaining peace In fact resource related conflicts are more likely to relapse Focusing on the relationship between high value natural resources and

peacebuilding in post conflict settings this book identifies opportunities and strategies for converting resource revenues to a peaceful future Its thirty chapters draw on the experiences of forty one researchers and practitioners as well as the broader literature and cover a range of key issues including resource extraction revenue sharing and allocation and institution building The book provides a concise theoretical and practical framework that policy makers researchers practitioners and students can use to understand and address the complex interplay between the management of high value resources and peace High Value Natural Resources and Post Conflict Peacebuilding is part of a global initiative led by the Environmental Law Institute ELI the United Nations Environment Programme UNEP the University of Tokyo and McGill University to identify and analyze lessons in natural resource management and post conflict peacebuilding The project has generated six edited books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in the series address land water livelihoods assessing and restoring natural resources and governance      **Adaptive**

**Cross-scalar Governance of Natural Resources** Grenville Barnes,Brian Child,2014-04-24 Natural resource governance is critical for linking poverty reduction and sustainable natural resource use This book brings together authors from various disciplines with extensive field experience to promote an integrative understanding of cross scale and adaptive governance in Africa and Latin America The authors make the case for reaching beyond decentralization to promote adaptive governance that serves local priorities but through interactions with local district national and global governance structures The book focuses on the governance of common pool resources such as forests wildlife water carbon and pasture resources in both Africa and Latin America This book will appeal to development practitioners and scholars concerned about the conservation of natural resources and the sustainable development of communities It synthesizes experience with the governance of different natural resources from a broad geographic perspective It also provides theoretical and practical suggestions for taking adaptive natural resource governance forward including participatory methods for measuring and monitoring governance      **Natural Resource Sovereignty and the Right to Development in Africa** Carol Chi Ngang,Serges Djoyou

Kamga,2021-08-25 This book explores the nexus between natural resources ownership and the right to development in Africa The right to sovereignty over natural resources and the right to development are recognised and protected in an extensive framework of international regional and domestic instruments They guarantee people s entitlement to fully and freely utilise their natural resources as a means of subsistence and for economic social and cultural development Yet despite the abundance of natural resources in Africa a majority of the people on the continent remain largely impoverished This book articulates the central argument that to achieve the right to development in Africa requires appropriate governance of the continent s natural resources to which the people of Africa are guaranteed sovereign ownership With case study illustrations from Zimbabwe Ghana Ethiopia and the Democratic Republic of Congo chapters explore the normative measures specific guarantees and community entitlements to natural resources for the realisation of the right to development The book will be

an invaluable guide to scholars and postgraduate students of Natural Resources Development and African studies as well as policymakers and practitioners in these areas

**Environmental Protection and Transitions from Conflict to Peace**

Carsten Stahn, Jennifer S. Easterday, Jens Iverson, 2017 This book examines the protection of the environment in post conflict societies with regard both to the maintenance of natural ecosystems and to the function of environmental protection in the peace building process addressing the strengths and weaknesses of different bodies of law

**Biofuels, Land Grabbing and Food Security in Africa**

Prosper B. Matondi, Kjell Havnevik, Atakilt Beyene, 2011-06-09 The issue of biofuels has already been much debated but the focus to date has largely been on Latin America and deforestation this highly original work breaks fresh ground in looking at the African perspective Most African governments see biofuels as having the potential to increase agricultural productivity and export incomes and thus strengthen their national economies improving energy balances and rural employment At the same time climate change may be addressed through reduction of green house gas emissions There are however a number of uncertainties mounting that challenge this scenario Using cutting edge empirical case studies this knowledge gap is addressed in a variety of chapters examining the effects of large scale biofuel production on African agriculture In particular land grabbing and food security issues are scrutinised both of which have become vital topics in regard to the environmental and developmental governance of African countries A revealing book for anyone wishing to understand the startling impact of biofuels and land grabbing on Africa

Livelihoods, Natural Resources, and Post-Conflict Peacebuilding

Helen Young, Lisa Goldman, 2015-04-10 Sustaining and strengthening local livelihoods is one of the most fundamental challenges faced by post conflict countries By degrading the natural resources that are essential to livelihoods and by significantly hindering access to those resources conflict can wreak havoc on the ability of war torn populations to survive and recover This book explores how natural resource management initiatives in more than twenty countries and territories have supported livelihoods and facilitated post conflict peacebuilding Case studies and analyses identify lessons and opportunities for the more effective design of interventions to support the livelihoods that depend on natural resources from land to agriculture forestry fisheries and protected areas The book also explores larger questions about how to structure livelihoods assistance as part of a coherent integrated approach to post conflict redevelopment Livelihoods and Natural Resources in Post Conflict Peacebuilding is part of a global initiative to identify and analyze lessons in post conflict peacebuilding and natural resource management The project has generated six books of case studies and analyses with contributions from practitioners policy makers and researchers Other books in this series address high value resources land water assessing and restoring natural resources and governance

*Governance for Justice and*

*Environmental Sustainability* Merle Sowman, Rachel Wynberg, 2014-02-24 Understanding the governance of complex social ecological systems is vital in a world faced with rapid environmental change conflicts over dwindling natural resources stark disparities between rich and poor and the crises of sustainability Improved understanding is also essential to promote

governance approaches that are underpinned by justice and equity principles and that aim to reduce inequality and benefit the most marginalised sectors of society This book is concerned with enhancing the understanding of governance in relation to social justice and environmental sustainability across a range of natural resource sectors in Sub Saharan Africa By examining governance across various sectors it reveals the main drivers that influence the nature of governance the principles and norms that shape it as well as the factors that constrain or enable achievement of justice and sustainability outcomes The book also illuminates the complex relationships that exist between various governance actors at different scales and the reality and challenge of plural legal systems in much of Sub Saharan Africa The book comprises 16 chapters 12 of them case studies recounting experiences in the forest wildlife fisheries conservation mining and water sectors of diverse countries Madagascar Zimbabwe Botswana Namibia South Africa Zambia Mozambique Sierra Leone and Cameroon Through insights from these studies the book seeks to draw lessons from the praxis of natural resource governance in Sub Saharan Africa and to contribute to debates on how governance can be strengthened and best configured to meet the needs of the poor in a way that is both socially just and ecologically sustainable

### **Global Gold Production Touching Ground**

Boris Verbrugge, Sara Geenen, 2020-05-04 In recent decades gold mining has moved into increasingly remote corners of the globe Aside from the expansion of industrial gold mining many countries have simultaneously witnessed an expansion of labor intensive and predominantly informal artisanal and small scale gold mining Both trends are usually studied in isolation which contributes to a dominant image of a dual gold mining economy Counteracting this dominant view this volume adopts a global perspective and demonstrates that both industrial gold mining and artisanal and small scale gold mining are functionally integrated into a global gold production system It couples an analysis of structural trends in global gold production expansion informalization and technological innovation to twelve country case studies that detail how global gold production becomes embedded in institutional and ecological structures

### **Climate Displacement in Mexico**

Armelle Gouritin, 2022-11-12 This book presents the updated results of an investigation carried out in 2019 The National Autonomous University of Mexico's UNAM Climate Change Research Program PINCC funded the research coordinated by Armelle Gouritin The research aims to answer the following questions Does the Mexican legal framework and public policies address forced internal climate mobility If not what could be the elements of a legal framework and public policies to address the phenomenon As the phenomenon was approached it was clear that it was extremely complex and consisted of numerous tensions that would lead to other questions throughout the research process Climate forced internal displacement is projected as a huge scale phenomenon in Mexico Against this background the book provides the first critical diagnosis of the current politico legal Mexican framework and finds it to be lagging behind in terms of prevention and attention The book analyses the three level Mexican governance federal state and local levels and identifies serious loopholes according to a rights based approach that particularly focuses on women indigenous peoples and persons and communities with scarce

economic resources The results provide information on up coming legislative and political processes and provide benchmarks that can be applied in other case studies including other national frameworks critical analysis *Traditional Knowledge and Climate Change* Ana Penteado, Shambhu Prasad Chakrabarty, Owais H. Shaikh, 2024-03-16 This edited book uses a methodology that includes multidisciplinary collaboration to approach climate issues from several disciplines involved in climate governance The main aim is to showcase collaborative research designed from the point of view of experiences associated with Indigenous Knowledge from an assumption of the equitable importance of its practices methods of search and cultural background that Indigenous Peoples custodians have maintained through time immemorial In showing their applied ethics and activism to protect their traditional land this book s mission is to advocate the concept of climate justice absent from our mainstream academic and legal discourse Their investigation into some real life examples and local practices organised by Nature as their main element offers inter alia a detailed account of Indigenous Knowledge s duty of care towards local biodiversity that can potentially be adopted in policy formulation on environmental management and governance These selected essays represent an international human rights approach a human understanding of genetic resources that existed for centuries alongside the First Nations and their strategies to mitigate the contemporary climate crisis afflicting all of us The book revolves around Indigenous Knowledge of First Peoples tribal and local communities in the Global South In climate justice Indigenous Peoples advocacy to protect our local biodiversity must be crucial change mitigation *Global Trends in Land Tenure Reform* Caroline S. Archambault, Annelies Zoomers, 2015-02-11 This book explores the gendered dimensions of recent land governance transformations across the globe in the wake of unprecedented pressures on land and natural resources These complex contemporary forces are reconfiguring livelihoods and impacting women s positions their tenure security and well being and that of their families Bringing together fourteen empirical community case studies from around the world the book examines governance transformations of land and land based resources resulting from four major processes of tenure change commercial land based investments the formalization of customary tenure the privatization of communal lands and post conflict resettlement and redistribution reforms Each contribution carefully analyses the gendered dimensions of these transformations exploring both the gender impact of the land tenure reforms and the social and political economy within which these reforms materialize The cases provide important insights for decision makers to better promote and design an effective gender lens into land tenure reforms and natural resource management policies This book will be of great interest to researchers engaging with land and natural resource management issues from a wide variety of disciplines including anthropology sociology development studies and political science as well as policy makers practitioners and activists concerned with environment development and social equity

**Climate Change And The Cargo Cult** Chris Cunningham, 2019-01-31 Climate Change is a major threat to our way of life and requires urgent political action to remedy its many threats but is it a symptom rather than the disease This book

argues that the problem lies deep in our commitment to the quest for ever increasing economic growth At some time in the 1970s the Western World passed a point of economic satiety beyond which further economic growth was of little benefit and indeed was counter productive to living the good life We must therefore seek a better understanding of our environment and of what constitutes genuine wealth Life without the frenetic economic activity and culture of selfish possession that drives the modern economy can indeed be more humane more pleasant and more meaningful than what we have today but to reach it will require a major re evaluation of what is important in business politics and culture

**The United Nations World Water Development Report** UNESCO, UNESCO World Water Assessment Programme, 2024-03-06

**Strategies for Environmental Success in an Uncertain Judicial Climate** Michael Allan Wolf, 2005 Over the last 30 years we have made great progress in curbing the most obvious pollution largely due to effective enforcement of federal and state environmental statutes Now however there is increasing skepticism of the efficiency and even the constitutionality of our bedrock environmental laws from all branches of the federal government including the courts This book is the result of lively debate at the conference Alternative Grounds Defending the Environment in an Unwelcome Judicial Climate held on November 11 2004 and co sponsored by the University of Florida s Levin College of Law and the Environmental Law Institute Topics ranged from U S Supreme Court trends in environmental law jurisprudence to innovative federal and state constitutional and statutory arguments that defend environmental protections to federal provisions most vulnerable to attack on federalism takings and separation of powers grounds This thought provoking and insightful collection of essays provides smart realistic solutions to the profound and complex legal challenges facing defenders of our environmental protections With contributions by Richard J Lazarus Sean H Donahue Paul Boudreaux William W Buzbee Robert L Glicksman Alyson C Flournoy Christopher H Schroeder Douglas T Kendall Susan George J B Ruhl Donald W Stever and Mary Jane Angelo
