**School Publication** Los Angeles City School District, 1961 *The International Commission on Mathematical Instruction, 1908-2008: People, Events, and Challenges in Mathematics Education* Fulvia

Furinghetti, Livia Giacardi, 2023-01-30 The book presents the history of ICMI through a prosopographical approach. In other words, it pays a lot of attention to the actors of the International movement. The portraits of the members of the ICMI Central Committees 1908-1936 and ICMI Executive Committees 1952-2008 and other eminent figures in ICMI history who have passed away in the first 100 years of its life are the guiding thread of the volume. Each portrait includes Biographical information. An outline of the various contributions made by the individual in question to the study of problems pertaining to mathematics teaching education. Primary bibliography. Secondary with particular attention to the publications concerning the teaching of mathematics. Images, photos, book frontispieces, relevant manuscripts. The authors of the portraits, 30 altogether, are researchers in the history of mathematics, mathematics and mathematics education. The focus on the officer's role within ICMI and on his/her contributions to mathematics education make the portraits different from usual biographies. In particular, since most officers were active mathematicians, the portraits shed light on aspects of their lesser-known activity. Connecting chapters place the action of these figures in the historical context and in the different phases of ICMI history. *The British National Bibliography* Arthur James Wells, 1969 Scientific, Medical, and Technical Books Published in the United States of America Reginald Robert Hawkins, 1950 *Scientific, Medical, and Technical Books Published in the United States of America, 1930-1944* Reginald Robert Hawkins, 1950 **Dictionary Catalog of the Research Libraries of the New York Public Library, 1911-1971** New York Public Library.
