**Der Monolog bei Ovid** Ulrike Auhagen, 1999      **Myth as Symbol** Sonia Saporiti, 2014-10-16 The mythological patrimony is an excellent example of the unconscious creative ability that brings reason both to the existence of myth as well as to its symbolic function Reconsidering the connection between literature and psychoanalysis this study starts from the Jungian archetypal theory up to the Freudian unconscious and its ability to produce symbols and provides the tools for a reading of the phenomenon of the literary reworking in the modern age of meaningful themes and mythological figures Therefore revising and rewriting the myth means thinking again about one's cultural memory attempting to re-propose in a new dimension the ever-present questions that have not found an answer and which the figures of the myth symbolise across the time The attention focuses on figures like the elementary spirits of Romantic imagery in particular on that of the Wasserfrau up to the analysis of a twentieth century reinterpretation of the myth of Undine Moreover the Medea myth is reconsidered starting from the contradiction implicit in this figure and in that of every Mother Goddess in order to then explore the most problematic and conflicting aspect of this image of womanhood the infanticide which over time becomes the symbol of the denial of the maternal principle
