Media En Publiek Theorieen Over Mediaimpact:

Journalistieke cultuur in Nederland Jo Bardoel, 2002 This title is available in the OAPEN Library <http://www.oapen.org>

Entertainment Media and Communication Nicholas David Bowman, 2024-10-21 Although not considered a formal area of study scholarship on the uses content and effects of entertaining media has been central to communication studies and related fields for more than a century The serious study of entertainment seems paradoxical as we presume entertainment to be the lighter side of our daily lives Yet as revealed in this volume entertainment media serve as cultural artifacts that shape our understandings of various peoples and publics in ways that invite deeper immersive and increasingly interactive engagement On this backdrop Entertainment Media and Communication serves as a reference guide for canonical and foundational research into media entertainment and a collection of emerging and updated theories and models core to the study of media entertainment in the 21st century Across more than forty chapters and with a diverse and inclusive list of authors this volume provides a broad yet nuanced view into entertainment media and communication scholarship The contributors explore its foundations define and extend key concepts and theories through myriad lenses discuss unique considerations of digital media and divine future paths for scholarly inquiry

Fundamental Theories of Business Communication Milton Mayfield, Jacqueline Mayfield, Robyn Walker, 2020-12-04 This book examines the major business communication theories delving into their relationships and practical applications Many business communication studies lack a strong theoretical grounding a deficit that creates difficulties for researching business communication phenomena and building upon previous studies The book addresses this issue by cataloging and briefly describing the major business communication theories as well as giving a typology of these theories to better integrate them This book provides value to business communication researchers who can use it to build upon and develop their work experts in practice who can apply it to improve business communications and academics who can use it to enhance their instructional designs It also offers insights into new developments on the business communication theory horizon
