**My Home Renovation** John Girschick,2007-11 God in Quest of Man is a compilation of articles written Dada J P Vaswani for you and me Though spiritual in content these articles communicate with us in a simple and direct way They help to revive our faith in the one Being They inspire the hope that whatever is happening os happening for the best They help us to understand life better My Home Renovation John Girschick,2007-10 The whole idea for this book was born out of frustration from my own horror stories with contractors as well as everybody else s that I have learned about Plenty of people have told me about a bad incident they have experienced with a contractor which could have been avoided if the customer had been more informed Trashing home improvement contractors is not the intention of this book In the construction business you have some good contractors as well as bad The main goal of this book is to educate homeowners on some of the finer points of hiring a home improvement contractor Ask the average homeowner what he or she knows about blueprints building codes or home improvement contracts and I am sure you will not get a lot of answers This would be similar to someone asking me an electrician about investment banking or bond trading If you re not in the business then how would you know Whether I am buying a car or planning to travel I always do my research prior to making a decision There is no such thing as getting too much information Home renovation guides are very popular and ubiquitous What distinguishes my book from all the others is the amount of detailed information I provide on the do s and don t s as well as the strategies to use and the pitfalls to avoid when hiring a home improvement contractor The readers of my book will become educated about the tools needed to successfully hire a contractor while attempting to minimize the aggravation and disappointment that frequently accompanies a great number of home renovations When a homeowner decides to renovate his or her home he or she can always find plenty of books on home renovations Most of these books detail a lot of information on the ideas and designs with very few details on hiring and working with a contractor Another popular source for hiring a contractor is through recommendations Once again you hire the contractor and it is up to you to make sure that the contractor is doing everything that they are supposed to do Working in the construction business as an electrician in New York for more than two decades I have been involved in many facets of the business of industrial commercial and residential construction and renovation ranging from private homes to office buildings airports hotels and hospitals My vast knowledge and experience in the construction industry and as a homeowner gives me this enormous opportunity to exhibit the tools necessary for homeowners to successfully hire a general contractor to renovate their home **My Home Renovation** John J.
