My Struggle The Explosive Views Of Russias Most Controversial Political Figure:

My Struggle Vladimir Zhirinovskii, 1996 Vladimir Zhirinovsky promises to reunify the Soviet Union by 1999 He threatens to redraw the boundaries of Europe and Asia eliminating Austria the Baltic States Bosnia the Czech Republic and Pakistan He also calls for the reclamation of Finland and Alaska And he would be the absolute leader *From German Königsberg to Soviet Kaliningrad* Jamie Freeman, 2020-11-10 This book explores how the Soviet Union after capturing and annexing the German East Prussian city of Königsberg in 1945 and renaming it Kaliningrad worked to transform the city into a model of Soviet modernity It examines how the Soviets expelled all the remaining German people repopulated the city and region with settlers from elsewhere in the Soviet Union destroyed the key remaining German buildings and began building a model Soviet city a physical manifestation of the societal transformation brought about by communism However the book goes on to show that over time many of the model Soviet buildings were uncompleted and that the citizens aware of their Polish and Lithuanian neighbours to both the east and the west and appreciating their place in the wider Baltic region came to view themselves as something different from other Soviet and Russian citizens The book concludes by assessing present developments as the people of Kaliningrad are increasingly rediscovering the city's pre Soviet past and forging a new identity for themselves on their own terms **Rethinking Ethnicity** Eric P. Kaufmann, 2004-08-02 The impact of liberal

globalization and multiculturalism means that nations are under pressure to transform their national identities from an ethnic to a civic mode This has led in many cases to dominant ethnic decline but also to its peripheral revival in the form of far right politics At the same time the growth of mass democracy and the decline of post colonial and Cold War state unity in the developing world has opened the floodgates for assertions of ethnic dominance This book investigates both tendencies and argues forcefully for the importance of dominant ethnicity in the contemporary world *Russian Politics and Law*, 2008

Turkish Review of Eurasian Studies, 2004 Sovremennye interpretatsii russkogo natsionalizma Marlène Laruelle, 2012-03-09 The Russian nationalist idea considered a marginal tendency in the 1990s has during the last years transformed into an official state and widely popular ideology The Russian political spectrum is unified in its promotion of a discourse grounded in undisguised anti Westernism as well as the paranoid view that national unity and authenticity are threatened by various external and internal enemies The space of political representation has become increasingly covered by nationalism to the point that it is today regarded a politically correct attitude in Russia Nationalist and in some cases crypto fascist factions operate in all major political parties of Russia today The government actively contributes to promoting this trend through introducing patriotic education at school revitalizing anti Americanism as a foreign policy doctrine new national holidays and commemorations a growing cult of the military frequent references to Orthodoxy utilizing ultra nationalist groupings in its manipulation of public life through political technology and essentializing ethnic rights of the national subjects of the Federation The media has come to play a crucial role in the dissemination of cryptic and sometimes

manifestly nationalist ideas The submission of most major mass media outlets to the authorities highlights the fourth power's status as a proponent of nationalist discourse in its own right The media has been playing an increasing role in exacerbating xenophobic tensions within Russian society This nationalist climate is not restricted to politics and journalism but is also to be found in numerous sections of cultural and academic life Thus in Russia today apart from various cases of para science and alternative history the notion that certain academic disciplines have the mission to justify Russian specificity is widespread among scholars as are approaches defined as civilizationist that systematize national stereotypes History sociology economics and literature as well as the new disciplines of culturology and geopolitics propagate ethnocentric precepts with consequences yet to be explored Contents Marl ne Laruelle Deliberations on Russian Nationalism as a Subject of Academic Research Galina Zvereva The Discourse of the State Nation in Contemporary Russia Viktor Voronkov and Oksana Karpenko Patriotism as Nationalism of the Post Soviet Man Andreas Umland Three Varieties of Post Soviet Fascism Conceptual and Contextual Problems of Interpreting Contemporary Russian Ultra Nationalism Aleksandr Verkhovskii The Church's Project of Russian Identity Dmitrii Dubrovski Sports and Politics Soccer as a National Idea in Contemporary Russia Viktor Shnirelman The Civilizational Approach as National Idea Aleksandr Nikulin and Irina Totsuk The Metahistorical Matrix of Great Power Rent Seeking Politico Economic Peculiarities of the Academic National Idea Natalia Ivanova Specificities of the Nationalist Discourse in Contemporary Literary Criticism Yulia Liderman The Course towards Patriotism and the Answer of Russian Cinematography after 2000 New Budgets New Genres New War Movies Vera Zvereva TV Celebration Concerts The Rhetoric of State Nationalism **American Book Publishing Record** ,1996-05 **The Publishers Weekly** ,1996
