## **My Trials Inside Americas Deportation Factories Inside Americas Deportation Factories:**

**My Trials** Paul Grussendorf, Hyang Suk Oh, 2012-06-18 American Immigration Lawyers Association wrote With a cast of colorful characters and compelling tales *My Trials* What I Learned in Immigration Court is both a scathing indictment of a broken immigration system that sends vulnerable immigrants back to the perilous situations from which they fled and a heartfelt call for a return to the values upon which our nation of immigrants was founded VOICE magazine Gerry Spence noted trial lawyer wrote Thanks for your good work Paul I am not surprised at the horror and inhumanity you have witnessed America is famous for priding itself as a nation of immigrants but the often shabby and sometimes downright abusive treatment that immigrants seeking asylum suffer in our nation's immigration court system is a well kept secret The truth is that our government fails to hire prosecuting attorneys and appoint judges with expertise in the field or even adequately train them in the law and procedure But this failure pales in comparison to the even greater scandal that the immigrants herded into these courts are often treated with disdain disrespect or even outright contempt by sworn officers of the law The often needless lengthy and costly pre trial detention of individuals who usually do not represent any danger to the community is an everyday and shameful fact of life in our immigration system *My Trials* Paul Grussendorf, 2020-10-15 *My Trials* is the only book that goes behind the scenes to expose the often arbitrary and capricious manner in which life and death decisions are made by representatives of the Departments of Justice and Homeland Security in asylum refugee cases

**Judicializing the Administrative State** Hiroshi Okayama, 2019-05-10 A basic feature of the modern US administrative state taken for granted by legal scholars but neglected by political scientists and historians is its strong judiciality Formal or court like adjudication was the primary method of first order agency policy making during the first half of the twentieth century Even today most US administrative agencies hire administrative law judges and other adjudicators conducting hearings using formal procedures autonomously from the agency head No other industrialized democracy has even come close to experiencing the systematic state judicialization that took place in the United States Why did the American administrative state become highly judicialized rather than developing a more efficiency oriented Weberian bureaucracy Legal scholars argue that lawyers as a profession imposed the judicial procedures they were the most familiar with on agencies But this explanation fails to show why the judicialization took place only in the United States at the time it did Okayama demonstrates that the American institutional combination of common law and the presidential system favored policy implementation through formal procedures by autonomous agencies and that it induced the creation and development of independent regulatory commissions explicitly modeled after courts from the late nineteenth century These commissions judicialized the state not only through their proliferation but also through the diffusion of their formal procedures to executive agencies over the next half century which led to a highly fairness oriented administrative state **The American Contractor**, 1919 Keeping America Sane Ian Robert Dowbiggin, 2018-10-18 What would bring a physician to conclude

that sterilization is appropriate treatment for the mentally ill and mentally handicapped Using archival sources Ian Robert Dowbiggin documents the involvement of both American and Canadian psychiatrists in the eugenics movement of the early twentieth century He explains why professional men and women committed to helping those less fortunate than themselves arrived at such morally and intellectually dubious conclusions Psychiatrists at the end of the nineteenth century felt professionally vulnerable Dowbiggin explains because they were under intense pressure from state and provincial governments and from other physicians to reform their specialty Eugenic ideas which dominated public health policy making seemed the best vehicle for catching up with the progress of science Among the prominent psychiatrist eugenicists Dowbiggin considers are G Alder Blumer Charles Kirk Clarke Thomas Salmon Clare Hincks and William Partlow Tracing psychiatric support for eugenics throughout the interwar years Dowbiggin pays special attention to the role of psychiatrists in the fierce debates about immigration policy His examination of psychiatry's unfortunate flirtation with eugenics elucidates how professional groups come to think and act along common lines within specific historical contexts *Caging Borders and Carceral States* Robert T. Chase, 2019-04-09 This volume considers the interconnection of racial oppression in the U S South and West presenting thirteen case studies that explore the ways in which citizens and migrants alike have been caged detained deported and incarcerated and what these practices tell us about state building converging and coercive legal powers and national sovereignty As these studies depict the institutional development and state scaffolding of overlapping carceral regimes they also consider how prisoners and immigrants resisted such oppression and violence by drawing on the transnational politics of human rights and liberation transcending the isolation of incarceration detention deportation and the boundaries of domestic law Contributors Dan Berger Ethan Blue George T D az David Hernandez Kelly Lytle Hernandez Pippa Holloway Volker Janssen Talitha L LeFlouria Heather McCarty Douglas K Miller Vivien Miller Donna Murch and Keramet Ann Reiter **The American Dictionary and Cyclopedia** Robert Hunter, 1900 **All of Us or None** Monisha Das Gupta, 2024-08-21 In *All of Us or None* Monisha Das Gupta tells the story of contemporary antideportation organizing in the United States by migrants and refugees labeled as criminal aliens These activists who live daily with criminalization work against forms of deportation that Das Gupta calls settler carcerality the United States use of deportation to exert territorial control in the face of Indigenous self determination Drawing on fieldwork with antideportation organizing groups in New York Los Angeles Long Beach and Honolulu Das Gupta documents the inventive methods of struggle against settler carcerality Das Gupta shows how the organizers actions and visions depart from the settler colonial nature of the mainstream demands for a pathway to citizenship and civil rights Through direct action storytelling political education and youth and queer leadership these organizations and collectives conceptualize an abolitionist vision of migration justice that rejects the settler state and encompasses all those who are disavowed By highlighting this work Das Gupta demonstrates the transformative promise offered by a dissident migrant led politics working toward dismantling settler structures and logics
