MY VISION

Challenges in the Race for Excellence

Mohammed bin Rashid Al Maktoum

My Vision Challenges Race Excellence

Daniel Brook

My Vision Challenges Race Excellence:

My Vision Hh Sheikh Mohammed Bin Rashid Al Maktoum, 2006 How to Read More Martin Udogie, 2014-08-11 It doesn't take days or weeks or months to read a book. It takes hours. READ MORE explains how. Most people readily admit that reading books is beneficial and wish they could read a bit more and in some cases a lot more. But most people also have what seem like perfectly valid excuses for not reading, chief among which are lack of time, work load and responsibility. Yes, they all seem perfectly understandable excuses until you read this book and discover accounts of people going out of their way to indulge in the habit. From Rudy Giuliani who as New York Mayor during 9/11 finally arrived home at past 2 A.M. on the night of that fateful day and still picked up a book to read to Barack Obama who went on a one week vacation in 2010 with over 2,300 pages of reading to George W. Bush whose formula for reading was to enter into a reading contest with his top presidential aide Karl Rove. Then there is the challenge of the 99% majority for whom affordability might also be a ready excuse. Yet Dr. Ben Carson, today a world famous neurosurgeon and bestselling author, traces his turnaround to the reading habit instilled in him in fifth grade by his single mother who wasn't even literate at the time. And there are several other examples. But what of the other 1%, the rich and famous for whom time is priceless? Bill Gates as CEO of Microsoft had a Think Week dedicated to reading. And as Singapore Prime Minister Lee Kuan Yew took out time to recharge his batteries at Harvard. A commitment to a regime of habitual reading takes more than mental conviction. It takes doing. And unlike what most people have come to believe, reading a book doesn't take days or weeks. It takes hours. This book demonstrates how and reveals other simple steps that anyone can follow to develop a life time habit of enjoyable reading and reap its rewards. Airports and Regional Development

Chunyan Yu, James Peoples, 2025-10-02

The presence of a functioning airport is therefore a key component of regional development; however, most of the literature on regional development fails to include this vital growth determinant. This volume contributes to the literature on regional development by examining the economic effect of airports on regional growth.

Transforming Distressed Global

Communities Fritz Wagner, Riad Mahayni, Andreas Piller, 2016-03-09. Many of our global cities are distressed and facing a host of issues: economic collapse in the face of rising expectations; social disintegration and civil unrest; and ecological degradation and the threats associated with climate change, including more frequent and more severe natural disasters. Our long-held assumptions about man and nature and how they interact are defunct. We realize now that we can no longer continue to build without addressing the long-term impacts of our actions and their spillovers. Energy and natural resources are finite. The way we configure economies has come into question. In the developed world, especially in the United States, infrastructure and the notions that underpin it are outdated. Meanwhile, the developing world is experiencing major rapid transformations in lifestyles and economies that are affecting billions of people and requiring a whole new way of planning human settlements. Cities are the key to our future; they represent the most effective vehicle for positive advancements in the human condition and environmental change. This volume argues for the need to redesign and re-plan our cities in holistic ways that reflect our new understanding and relate to their diversity and multi-dimensionality. Presenting a range of case studies from around the world, this volume examines how these distressed cities are dealing with these issues in planning for their future. Alongside these empirical chapters are philosophical essays that consider the future of distressed cities. Bringing together a team of leading scholars, United Nations agencies, non-governmental organizations, private consulting firms, international organizations and foundations, and policy officials, this volume provides a unique and comprehensive overview on how to transform distressed communities into more livable places.

The Wages of Oil Michael Herb, 2014-12-18. The

contrast between Kuwait and the UAE today illustrates the vastly different possible futures facing the smaller states of the Gulf. Dubai's rulers dream of creating a truly global business center, a megalopolis of many millions attracting immigrants in great waves from near and far. Kuwait meanwhile has the most spirited and influential parliament in any of the oil-rich Gulf monarchies. In *The Wages of Oil*, Michael Herb provides a robust framework for thinking about the future of the Gulf monarchies. The Gulf has seen enormous changes in recent years and more are to come. Herb explains the nature of the changes we are likely to see in the future. He starts by asking why Kuwait is far ahead of all other Gulf monarchies in terms of political liberalization but behind all of them in its efforts to diversify its economy away from oil. He compares Kuwait with the United Arab Emirates which lacks Kuwait's parliament but has moved ambitiously to diversify. This data-rich book reflects the importance of both politics and economic development issues for decision makers in the Gulf. Herb develops a political economy of the Gulf that ties together a variety of issues usually treated separately: Kuwait's National Assembly, Dubai's real estate boom, the paucity of citizen labor in the private sector, class divisions among citizens, the caste divide between citizens and noncitizens, and the politics of land.

Western Higher Education in Asia and the Middle East Hassan Bashir, Stephen Keck, Kevin Gray, 2016-12-21

This multidisciplinary volume highlights the transformed nature of the relationship between higher education and society in the 21st century. In particular, it argues that the development of the global university, especially in the non-western world, has transformed the traditional understanding of the relationship between higher education and society. This has important implications for the relations of state as education has not only become an object of national development policy but for many states an important export. The history of the university reflects the decisive social transformations which have given definition and identity to both new nations and modern societies. In the post-war period, universities in the industrialized world underwent a radical shift. The mass expansion of higher education ensured that universities were no longer centers designed to train youth to assume the leadership positions held by previous generations. Instead, universities were to become centers where job skills could be imparted and knowledge produced, refined, and used in the newly emerging Cold War economies and where students could develop the skills necessary for employment in a changing world. Rather than focusing on the refinement of future leaders, the task of the university became linked to the development of economically exploitable technical knowledge. A shift of comparable magnitude is now ongoing in the nature of higher education itself. Globalization has led to the growth of knowledge communities around the world, mirroring the rise of centers for global finance in previous decades. In the Middle East and Asia, the demands of the knowledge-based economy have led to the opening of new indigenous universities and branch campuses and partnerships with established European and North American universities. Education City in Qatar, for instance, has received or been pledged more than 200 billion dollars since its inception. The growth of new indigenous universities has altered the traditional role of the university, further increasing the emphasis on courses which are close to the marketplace. These new partnerships have contributed to the

creation of what is now referred to as the global university **Globalization and the Gulf** John W. Fox, Nada Mourtada-Sabbah, Mohammed Al Mutawa, 2006-09-27 For centuries the Arabian Gulf has been a crossroads where seafaring people and Bedouins alike travelled great distances transacting business Events of the past few years both good and bad have directed the world's attention to the Arabian Peninsula where a rich cultural tradition is rapidly incorporating the latest innovations from around the world This is the process of globalization New economies create enormous potential but it will require great care for the people of the region to steer through a period of profound change Political and economic interests intent on maintaining the flow of petroleum products on one hand and people in the Gulf region who assess their own interests from quite a different perspective on the other exert pressures from conflicting directions Reconciling these interests in a time of rapid globalization poses enormous challenges This timely volume brings together the work of scholars from both the Middle East and the West who have the expertise to evaluate the interaction of new ideas new technologies and new economies Brought together by the American University of Sharjah and the Sociological Association of the UAE the contributors reflect on both the process of globalism and on the traditions of Gulf society and culture offering views on how these trends interact within the global system *The Diabolic Heaven* K. Sleiman, 2012 Generational Breakthrough Maliro Dickson Mwanza, 2018-10-25 IT IS TIME FOR A MAJOR SHIFT For a long time our ears have been bombarded with messages of Breaking Generational Curses and also much more of Keys to Prosperity However this book comes with a new dimension which demands a radical paradigm shift from each one of us The book challenges us to go beyond thinking prosperity to thinking posterity This book will first help you to remove the religious veil break the borders that have hitherto limited you and then inspire you to THINK GLOBAL THINK POSTERITY THINK LEGACY and THINK GENERATIONAL You will no longer settle for an inferior edition of the gospel which has made people to believe more in curses than God's blessings Being a GENERATIONAL BLESSING will become your core calling Among others in this book you will catch THE PORTRAIT OF A GENERATIONAL BREAKTHROUGH THE BREAKTHROUGH SPIRIT THE BREAKTHROUGH MINDSET etc It is time for you to transcend from survival to success and from success to significance and from significance to a Patriarch GENERATIONAL BLESSING This is a manual for you **Bedouin Visual Leadership in the Middle East** Amer Bitar, 2020-10-06 This book focuses on leadership as a visual discourse and explores the construction of this discourse within the context of Bedouin Arabia and the Middle East more broadly In it the author considers business and organisational leadership from an aesthetic perspective and in the context of various geographical and historical settings The book examines the work of a variety of artists and examines how public representations of business and political figures are used as a tool of leadership Using a Foucauldian perspective the book explores the interconnected concepts of power and knowledge examining how visual images are used in the Middle Eastern context for leaders to communicate with their followers and the public The Bedouin business world provides a unique opportunity for the researcher to examine the

interplay between culture management and politics The book will be of interest to academics working in the fields of aesthetics leadership management culture and the Middle East more broadly *Planet Canada* John Stackhouse,2020-10-06 A leading thinker on Canada's place in the world contends that our country's greatest untapped resource may be the three million Canadians who don't live here Entrepreneurs educators humanitarians an entire province's worth of Canadian citizens live outside Canada Some will return others won't But what they all share is the ability and often the desire to export Canadian values to a world sorely in need of them And to act as ambassadors for Canada in industries and societies where diplomatic efforts find little traction Surely a country with people as diverse as Canada's ought to plug itself into every corner of the globe We don't and sometimes not even when our expats are eager to help Failing to put this desire to work contends bestselling author and longtime foreign correspondent John Stackhouse is a grave error for a small country whose voice is getting lost behind developing nations of rapidly increasing influence The soft power we once boasted is getting softer but we have an unparalleled resource if we choose to use it To ensure Canada's place in the world Stackhouse argues in *Planet Canada* we need this exceptional province of expats and their special claim on the twenty first century **Branding the Middle East** Steffen Wippel,2023-10-04 This edited volume investigates place product and personal branding in the Middle East and North Africa including some studies from adjacent regions and the wider Islamicate world Going beyond simply presenting logos and slogans it critically analyses processes of strategic communication and image building under general conditions of globalisation neoliberalisation and postmodernisation and in a regional perspective of lasting authoritarian rule and increased endeavours for worlding In particular it looks at the multiple actors involved in branding activities their interests and motives and investigates tools channels and forms of branding A major interest exists in the entanglements of different spatial scales and in the inconsistencies of communication measures Attention is paid to reconfigurations of certain images over time and to the positioning of objects of branding in time and space Historical case studies supplement the focus on contemporary branding efforts While branding in the Western world and many emerging economies has been meticulously analysed this edited volume fills an important gap in the research on MENA countries **The Success Blueprint** Mohamed Isa,Brian Tracy,2017-02-11 A BLUEPRINT for SUCCESS is the architectural rendition of what success should look like It will give you the detail and various views of the concept It is no secret that achieving goals is a personal and individual pursuit Your goals are invariably different to those of your neighbor One important secret in pursuing your goal is in your ability to identify it clearly and distinctly Accomplishing any goal for success requires us to make changes to the identified product service present condition or situation in order to produce what we are trying to achieve While difficult to define success succinctly we have been given many pointers along the way Successful and well known people have always given us food for thought A few examples are Don't let what you cannot do interfere with what you can do John R Wooden A journey of a thousand miles begins with a single step Lao Tzu What the mind can conceive it can achieve Napoleon Hill If opportunity
