leisure functions as a leisure node it helps expand children's leisure opportunities further by offering a place where children can try out new activities and where parents may share experiences and tips of activities in the local area as well as establish the basis for new activities. This points to the importance of separate spaces as a gathering of collective interests as well as their potential to lower thresholds for attending activities hosted by other actors. Mainstream leisure included. Altogether this indicates that there are important lessons to learn from separate leisure for the arranging of leisure opportunities of children with disabilities. These are also important for mainstream and inclusive contexts. Denna avhandling syftar till att utforska vad riktad fritid det vill säga fritid enbart för barn med funktionsnedsättningar innebär och inte innebär för denna grupp av barn. Ett ytterligare syfte är att undersöka hur forskning kan bedrivas med snarare än om barn med funktionsnedsättningar. För att uppnå detta syfte genomförs en etnografisk studie vid en riktad fritidsverksamhet för 3-11-åriga barn med neuropsykiatriska funktionsnedsättningar, till exempel ADHD, autism. Studien utgår från tre forskningsfrågor: vilka är det i hur man metodologiskt kan utforska barns perspektiv på riktad fritid? i) de identifierar om barns behov och om meningsfull fritid som ligger till grund för och uttrycks genom designen och organiseringen av riktad fritid och iii) barns perspektiv på riktad fritid. Avhandlingens teoretiska ramverk består av tre delar: disabled children's childhood studies, riktad fritid i en kontext av barndom och funktionsnedsättning samt den riktade fritidens platser och rum. Sammanfattningsvis visar avhandlingen hur riktad fritid kan bidra till att sänka trösklar för inkludering och deltagande i fritid. Den blir på så sätt ett viktigt medel för att skapa fritidsmöjligheter utanför hemmet för en grupp av barn som annars möter påtagliga hinder vid deltagande i aktiviteter. I förlängningen kan riktad fritid bidra till att ge barn tillgång till konventionella barndomserfarenheter såsom att delta i organiserade fritidsaktiviteter. När riktad fritid fungerar som det jag kallar för en fritidsnod så bidrar den till att ytterligare utöka barns fritidsmöjligheter. Det gör den genom att vara en plats där barn kan prova på nya aktiviteter där föräldrar kan utbyta erfarenheter och tips om aktiviteter i närområdet och där det finns möjlighet att lägga grunden för nya fritidsaktiviteter och sammanhang. Detta pekar på att riktade verksamheter har en viktig roll som samlingsplatser för kollektiva intressen och potential att sänka trösklar för deltagande i aktiviteter som anordnas av andra aktörer inklusive vanliga aktiviteter. Sammantaget tyder detta på att det finns viktiga lärdomar att dra från den riktade fritiden för skapandet av fritidsmöjligheter för barn med funktionsnedsättningar. Dessa lärdomar är också viktiga för vanliga mainstream och inkluderande inklusive sammanhang.

This comprehensive resource presents activities, games, and ideas to support the development of speech sounds in children aged 3-7 or older if the child has learning difficulties. The book is divided into nine sections including: Single sounds, p, short words, consonant-vowel, eg, pea, pie; Longer words, consonant-vowel, consonant, eg, peach, pin; even longer words, consonant-vowel, consonant-vowel, eg, pepper, poppy, paper; and using phrases and words in sentences. Each section provides the opportunity for the child to hear the speech sound in isolation and in words before they try to say it, ie, receptive and expressive activities. It includes different activities to practise listening and saying the target sound, word, drilling games, ie, the opportunity to hear the speech sound in isolation and in words and to say them in increasingly challenging sequences in a game format, games that can be played with the picture cards of the words the child is working on, and an auditory bombardment section composed of funny rhymes containing the words the child has been working on in the section. This flexible resource is interactive and aims to make speech sound work enjoyable, memorable, and fun. Beyond the Godfather A. Kenneth Ciongoli, Jay Parini, 1997.
