**Far From the Tree** Andrew Solomon, 2012-11-13  
 Selected as One of the Best Books of the 21st Century by The New York Times, WINNER of the National Book Critics Circle Award, Books for a Better Life Award, The New York Times Book Review's 10 Best Books of the Year. This masterpiece by the National Book Award-winning author of *The Noonday Demon* features stories of parents who not only learn to deal with their exceptional children but also find profound meaning in doing so. A brave, beautiful book that will expand your humanity. People Solomon's startling proposition in *Far from the Tree* is that being exceptional is at the core of the human condition; that difference is what unites us. He writes about families coping with deafness, dwarfism, Down syndrome, autism, schizophrenia, or multiple severe disabilities; with children who are prodigies, who are conceived in rape, who become criminals, who are transgender. While each of these characteristics is potentially isolating, the experience of difference within families is universal, and Solomon documents triumphs of love over prejudice in every chapter. All parenting turns on a crucial question: to what extent should parents accept their children for who they are, and to what extent should they help them become their best selves? Drawing on ten years of research and interviews with more than three hundred families, Solomon mines the eloquence of ordinary people facing extreme challenges. Elegantly reported by a spectacularly original and compassionate thinker, *Far from the Tree* explores how people who love each other must struggle to accept each other, a theme in every family's life.

**It's Silence, Soundly** John McGreal, 2016-04-21  
 It's Silence, Soundly, It's Nothing Seriously, and It's Absence. Presently continue The It Series published by Matador since The Book of It 2010. They constitute another stage in an artistic journey exploring the visual and aural dialectic of mark, word, and image that began over 25 years ago. In their aesthetic form, the books are a decentred trilogy united together in a new concept of The Bibliograph. All three present this new aesthetic object which transcends the narrow limits of the academic bibliography. The alphabetical works also share a tripartite structure and identical length. The Bibliograph itself is characterised by its strategic place within each book, as a whole, as well as by the complex variations in meaning of the dominant motifs: nothingness, absence, and silence, which recur throughout the alphabetical entries that constitute the elements of each text. *It's Nothing Seriously*, for example, addresses the amusing paradox that so much continues to be written today about nothing. The aleatory character of the entries in the texts encourages the modern reader to reflect on each theme and to read them in a new way. The reader is invited, as well, to examine their various intertextual relations across given conventional boundaries in the arts and sciences at several levels of physical, psychological, social reproduction.
