Historical Dictionary of Burma (Myanmar) Donald M. Seekins, 2017-03-27 Burma/Myanmar is a Southeast Asian country that is emerging from crisis after more than a half century of hard line military rule and cultural, diplomatic and economic isolation. With the dissolution of its military regime, the State Peace and Development Council, in 2011, a formally civilian but military dominated constitutional government was inaugurated. By 2012, Burma's president, retired General Thein Sein, had established a working relationship with Daw Aung San Suu Kyi, the leader of the country's pro democracy movement since 1988, and after a 2012 by-election, she and members of her opposition party, the National League for Democracy (NLD), entered the new Union Parliament as legislators. However, even with the election victory of Daw Suu Kyi and the NLD in the General Election of November 2015, Burma faces daunting challenges. It is still one of the poorest countries in Southeast Asia, fissured by longstanding ethnic conflicts that have made a nationwide peace agreement elusive, and its people's security and the environment are threatened by foreign economic exploitation. Religious discord is also widely evident as Buddhist militants instigate violence against the country's religious minorities, especially Muslims. Today, Burma's prospects are the most hopeful they have been for over half a century as the country takes steps along the road to a more open society and economy. This edition of the Historical Dictionary of Burma/Myanmar encompasses not only current developments but also Burma's over 1,500 years old recorded history and the most important features of its cultures, ethnicity, religions, society and economy. This is done through a chronology, an introduction and an extensive bibliography. The dictionary section has over 700 cross-referenced entries on important personalities, politics, economy, foreign relations, religion and culture.

The Constitution of Myanmar Melissa Crouch, 2019-09-05 This timely and accessible book is the first to provide a thorough analysis of the 2008 Constitution of Myanmar, Burma, in its historical, political and social context. The book identifies and articulates the principles of the Constitution through an in-depth analysis of legal and political processes and practices, particularly since the 1990s. The core argument of this book is that the 2008 Constitution is crucial to the establishment and maintenance of the military state. The military state promotes the leadership role of the military in

governance based on a set of ideological commitments and a centralised form of organisation based on the concept of the Union The book develops this argument by demonstrating how the process of constitution making and the substance of the 2008 Constitution contribute to its lack of credibility and fuel demands for reform The vision offered by the 2008 Constitution and its associated institutions has been the subject of fierce contestation not least for example due to concerns over the militarisation of the state This book is animated by debates over fundamental ideas such as the nature of democracy the possibility of peace and federalism the relationship between the executive and the legislature relations between the Union government and sub national governments debates over judicial independence and the oversized role of the Tatmadaw armed forces Central to the future of the Constitution and the military state is the role of the Tatmadaw which will be a key determinant in any potential shift from the present highly centralised partly democratic Union to a federal or decentralised democratic system of governance

Governance and Civil Society in Myanmar Helen James, 2005 This book by focusing on education health and environment and the institutions which formulate and deliver policy shows how the international community can make a significant difference to strengthening Myanmar's Burma's civil society

Whither Myanmar's Garment Sector? Nick J. Freeman, 2019-03-14 The EU has threatened to suspend Generalized Scheme of Preferences GSP status for Myanmar under which the country's exports can enter Europe without any tariffs or quotas The official reason cited by the EU is a growing concern over human rights violations and issues around labour rights in Myanmar If this threat were to be carried out the business sector that will be most affected is Myanmar's burgeoning garment sector which employs around 700 000 people most of whom are women The principal worry in Myanmar is that if EU buyers and brands have to start paying tariffs to import Myanmar made garments then they will opt to shift their sourcing to other countries Without GSP Myanmar's garment exports may no longer be price competitive As one of the few manufacturing sectors in Myanmar to employ semi skilled women many of whom migrated from poor rural areas the garment sector has come to play an important socioeconomic role in the country Whether or not the EU decides to withdraw GSP status Myanmar's garment sector faces a number of challenges How Myanmar's policymakers and garment industry leaders respond to global industry trends will be just as important in the long run in determining the sector's commercial sustainability

Myanmar's Fragmented Democracy: Transition Or Illusion? Felix Thiam Kim Tan, 2022-07-14 The recent military coup in Myanmar perpetrated by the Tatmadaw has set the country back to the days of political uncertainty and military authoritarianism This book examines how far the country has come since its nascent attempt at democratic reforms and democratisation in 2010 Each chapter considers some of the more prominent issues that have plagued Myanmar since political reforms started First there have been debates about the extent to which democratic reforms have been achieved since the Constitution was formalised in 2008 Second what has been the significance of the three elections in 2010 2015 and 2020 Third how has the National League for Democracy transformed in the past decade How far has the Union Solidarity and Development Party changed the political

landscape What roles did the Tatmadaw play in the last decade Fourth questions surrounding how the ethnic crisis not least the Rohingya issue have continued to dominate the country's political landscape in the last decade thereby overshadowing its democratisation process Finally how far have these efforts at democracy demonstrated Myanmar's futile attempts at appeasing the domestic and international audience Myanmar's relations with the global and regional community vis vis the US China and the Association of Southeast Asian Nations have also taken a toll in the last decade There is already a shift in power politics especially with China determining the direction of Myanmar Myanmar has been locked in a perpetual cycle transitioning between military authoritarianism and democratisation These prevailing issues have led to a fragmented democracy and a lost opportunity to demonstrate its foray into a genuine democracy Reflections on Myanmar Reshmi Banerjee,2023-02-17 Myanmar is known for its engaging history rich cultural heritage and diverse ethnic communities Its tumultuous political past has been discussed by academics and policy makers for decades however the land of the Shwedagon cannot only be defined by conflict and contestation Myanmar is complex and multi layered with innumerable issues shaping its identity and manifold interpretations creating its distinctiveness A deeper comprehension of its past glory with thoughtful deliberation on its socio economic challenges helps to understand the country better This book fills this gap by focusing on four broad themes reminiscence restoration re evaluation and resurrection It studies interconnected issues ranging from nostalgia and belonging to Myanmar's contribution to art and heritage through its museums cinema folk traditions from the problems of landlessness resource dispossession and climate change to the experience of marginalized groups The author weaves these themes into a common narrative of discovering Myanmar through a holistic lens The book aims to explore the country through its history culture communities and challenges A unique contribution the book highlights the myriad facets of Myanmar by contemplating on its inherent strengths and visible weaknesses It would be indispensable for scholars and researchers of Southeast Asian studies Asian studies area studies Myanmar studies political studies cultural studies and sociology **The Other Ladies of Myanmar** Jennifer Rigby,2018-07-31 In Myanmar Aung San Suu Kyi is often not called by her name Instead she is just The Lady an honorific nickname that signifies her place in the collective imagination of her country And from global human rights icon to Myanmar's de facto leader she is certainly a towering figure But The Lady's reputation has only tarnished in recent years in the face of the persecution of her country's Rohingya minority In this new book we present some of Myanmar's other ladies women from across the social spectrum who are changing their country and its perceptions of gender from the ground up From the artist who defied the junta to hand out sanitary towels at her exhibition to the Muslim campaigner who has already spent a quarter of her life in prison from the feminist Buddhist nun to the pop star who gets called a whore for performing these are the voices of The Other Ladies of Myanmar Myanmar's Enemy Within Francis Wade,2019-06-15 In 2017 Myanmar's military launched a campaign of violence against the Rohingya minority that UN experts later said amounted to a genocide More than seven hundred thousand civilians fled to Bangladesh

in what became the most concentrated flight of refugees since the Rwanda genocide of 1994 The warning signs of impending catastrophe that had built over years were downplayed by Western backers of the political transition and only when the exodus began did the world finally come to acknowledge a catastrophe that had been long in the making In this updated edition of the book that foreshadowed a genocide Francis Wade explores how the manipulation of identities by an anxious ruling elite laid the foundations for mass violence It asks who gets to define a nation How can democratic rights be weaponised against a minority And why at a time when the majority of citizens in Myanmar had begun to experience freedoms unseen for half a century did much lauded civilian leaders like Aung San Suu Kyi become complicit in the most heinous of crimes

Emerging Political Configurations in the Run-up to the 2020 Myanmar Elections Aung Aung, 2019-01-04 While facing international pressures relating to Rakhine State and under tense civil military relations political parties are preparing for the 2020 Myanmar general elections The National League for Democracy NLD the ruling party is taking a more democratic platform focusing on the creation of a democratic federal union while the Union Solidarity and Development Party USDP adopts a more nationalist approach emphasizing the prevention of foreign interference regarding Rakhine State Taking lessons from the 2015 Myanmar general elections and in order to effectively contend with the NLD and the USDP the ethnic political parties are at the same time merging into single parties and new political parties are now also being registered at the Union Election Commission The current situation indicates more uncertainty in politics and economic downturns and many indicators suggest that the NLD is now in a defensive position But be that as it may because of Aung San Suu Kyi's personality cult following and the ingrained hatred for the military dictatorship the NLD is still expected to receive the majority seats in Bamar dominated regions It may be at risk in ethnic dominated states nevertheless

The Significance of Everyday Access to Justice in Myanmar's Transition to Democracy Helene Maria Kyed, Ardeth Maung Thawngghmung, 2019-06-13 Legal pluralism in Myanmar is a reality that is not sufficiently recognized A lack of recognition of and clear mandates for the informal justice providers along with the absence of coordination between these providers and the judiciary present critical challenges to local dispute resolution and informal legal systems This results in a high level of unpredictability and insecurity concerning the justice outcomes and in the underreporting of cases The lack of jurisdictional clarity represents an even greater challenge in areas of mixed control and where numerous armed actors are present Discussion of reform of the justice sector in Myanmar and debates surrounding peace negotiations and the role of the ethnic armed groups in service provision are separated This situation reinforces the divide between ceasefire areas and the rest of the country and raises concern that the improvement of justice systems will leave conflict affected populations behind Recognition of and support for community based dispute resolution are crucial to reducing the escalation of conflict at the local level Justice systems like those of ethnic armed groups can contribute significantly to stability and order at times when the official system has limited territorial reach and is mistrusted by civilians

Routledge Handbook of Contemporary Myanmar Adam Simpson, Nicholas Farrelly, Ian Holliday, 2018-03-05 After decades of mismanagement and direct military rule Myanmar's contested transition to a more democratic government has rapidly shifted the outlook in this significant Southeast Asian nation. Since 2011 the removal of Western sanctions and new foreign investments have resulted in high rates of economic growth and an expanding middle class albeit from a very low base. In a result unthinkable a few years earlier former political prisoner and Nobel laureate Aung San Suu Kyi and her party the National League for Democracy (NLD) formed a national government in early 2016. However despite significant political and economic reforms since the liberalisation process commenced the transition to civilian rule remains constrained by the military's 2008 Constitution which guarantees that it operates unfettered by civilian oversight. As a result although some ethnic conflicts have abated others continue to fester and new conflicts have erupted. With a daunting task ahead the NLD government has made some progress in removing the vestiges of repressive military era laws but many remain untouched and some of the practices of the new government provide unwelcome reminders of its authoritarian history. This timely Handbook describes the political, economic and cultural dimensions of this crucial period of transition in Myanmar. It presents explanations for contradictory trends including those that defy some of the early narratives about the comprehensive transformation of Myanmar. The Handbook also considers the impact of major environmental, strategic and demographic trends which help underscore that Myanmar's development will be an ongoing task. In addition to introductory and concluding chapters by the editors the body of the Handbook is divided into seven core sections: Fundamentals, Spaces, Cultures, Living, Governance, International Challenges. Written by an international team of scholars with a mix of world leading established academics and talented emerging researchers the Handbook provides a rigorous scholarly overview of Myanmar's politics, economics and society. As Myanmar opens to Western businesses and government agencies this is an invaluable reference book that will provide a foundation for further research and offer the first port of call for scholars, students and policy makers working on Myanmar and Asia.
