environmental protection and sustainability Virtual Thailand Glen Lewis, 2007-05-07 Written by an established expert on Thailand this is one of the first books to fully investigate the Thai media's role during the Thaksin government's first term. Incorporating political economy and media theory the book provides a unique insight into globalization in Southeast Asia analyzing the role of communications and media in regional cultural politics. Examining the period from the mid 1990s Lewis makes a sustained comparison between Thailand and its neighbouring countries in relation to the media business politics and popular culture. Covering issues including business development tourism the Thai movie industry and the war on terror the book argues that globalization as it relates to media can be patterned on Thai experiences **Between the Two Oceans of Indo-Pacific** Chirathivat, Suthipand, Tingsabhat, Charit, De, Prabir, 2022-09-15 The idea of connectivity is an integral part of regionalism in international trade and integration. The focus in this book is particularly on the so-called southern East West Economic Corridor which consists of the connections between the southern part of Myanmar and the western part of the central region of Thailand. *Between the Two Oceans of Indo-Pacific* covers a diverse range of topics in the fields of geography history archaeology international trade tourism migration and infrastructure for transport. This book is an effort to understand these for a better future for ASEAN as well as India. The findings of this book may help strengthen the ASEAN integration process on its way towards 2025 **Labour Migration and Human Trafficking in Southeast Asia** Willem van Schendel, Lenore Lyons, Michele Ford, 2012 Since the signing of the UN Trafficking Protocol anti-trafficking laws policies and other initiatives have been implemented at the local national and regional levels. These activities have received little scholarly attention. This volume aims to begin to fill this gap by documenting the micro processes through which an anti-trafficking framework has been translated implemented and resisted in mainland and island Southeast Asia. The detailed ethnographic accounts in this collection examine the everyday practices of the diverse range of actors involved in trafficking like practices and in anti-trafficking initiatives. In demonstrating how the anti-trafficking framework has become influential and even over-determining in some border sites and yet remains mostly irrelevant in others the chapters in this collection explore the complex connections between labour migration migrant smuggling and human trafficking **Our Wonderful World** Kalya Ryan, Ben Handicott, 2020 *50 Maps of the World* is an essential addition to the bookshelf of any travel lover map maestro or geography genius.
