Mystic Cults in Magna Graecia Giovanni Casadio, Patricia A. Johnston, 2009-09-01 In Vergil's Aeneid the poet implies that those who have been initiated into mystery cults enjoy a blessed situation both in life and after death This collection of essays brings new insight to the study of mystic cults in the ancient world particularly those that flourished in Magna Graecia essentially the area of present day Southern Italy and Sicily Implementing a variety of methodologies the contributors to Mystic Cults in Magna Graecia examine an array of features associated with such mystery religions that were concerned with individual salvation through initiation and hidden knowledge rather than civic cults directed toward Olympian deities usually associated with Greek religion Contributors present contemporary theories of ancient religion field reports from recent archaeological work and other frameworks for exploring mystic cults in general and individual deities specifically with observations about cultural interactions throughout Topics include Dionysos and Orpheus the Goddess Cults Isis in Italy and Roman Mithras explored by an international array of scholars including Giulia Sfameni Gasparro Aspects of the Cult of Demeter in Magna Graecia and Alberto Bernabè Imago Inferorum Orphica The resulting volume illuminates this often misunderstood range of religious phenomena [A Companion to the Archaeology of Religion in the Ancient World](#) Rubina Raja, Jörg Rüpke, 2020-01-09 A Companion to the Archaeology of Religion in the Ancient World presents a comprehensive overview of a wide range of topics relating to the practices expressions and interactions of religion in antiquity primarily in the Greco Roman world Features readings that focus on religious experience and expression in the ancient world rather than solely on religious belief Places a strong emphasis on domestic and individual religious practice Represents the first time that the concept of lived religion is applied to the ancient history of religion and archaeology of religion Includes cutting edge data taken from top contemporary researchers and theorists in the field Examines a large variety of themes and religious traditions across a wide geographical area and chronological span Written to appeal equally to archaeologists and historians of religion **The Mind of Mithraists** Luther H. Martin, 2014-11-20 The Roman cult of Mithras was the most widely dispersed and densely distributed cult throughout the expanse of the Roman Empire from the end of the first until the fourth century AD rivaling the early growth and development of Christianity during the same period As its membership was largely drawn from the ranks of the military its spread but not its popularity is attributable largely to military deployments and redeployments Although mithraists left behind no written archival evidence there is an abundance of iconographic finds The only characteristic common to all Mithraic temples were the fundamental architecture of their design and the cult image of Mithras slaying a bull How were these two features so faithfully transmitted through the Empire by a non centralized non hierarchical religious movement The Minds of Mithraists Historical and Cognitive Studies in the Roman Cult of Mithras addresses these questions as well as the relationship of Mithraism to Christianity explanations of the significance of the tauroctony and of the rituals enacted in the mithraea and explanations for the spread of Mithraism and for its resistance in a

few places The unifying theme throughout is an investigation of the mind of those engaged in the cult practices of this widespread ancient religion These investigations represent traditional historical methods as well as more recent studies employing the insights of the cognitive sciences demonstrating that cognitive historiography is a valuable methodological tool **Studies in Hellenistic Religions** Luther H. Martin, 2018-02-26 This selection of essays by Luther Martin brings together studies from throughout his career both early as well as more recent in the various areas of Graeco Roman religions including mystery cults Judaism Christianity and Gnosticism It is hoped that these studies which represent spatial communal and cognitive approaches to the study of ancient religions might be of interest to those concerned with the structures and dynamics of religions past in general as well as to scholars who might with more recent historical research confirm evaluate extend or refute the hypotheses offered here for that is the way scholars work and by which scholarship proceeds

in terms of ritual messages baptism in the Pauline communities is a ritual analogous to mystery initiation and second Paul is an innovative interpreter of ritual who recalibrates the messages of preexisting rituals for his theological and ethical program seeking to radically extend the implications of initiation to the embodied life of every Christ believer Students and scholars of New Testament early Christianity classics and ritual studies will benefit from engaging this volume *Women's Ritual Competence in the Greco-Roman Mediterranean* Matthew Dillon, Esther Eidinow, Lisa Maurizio, 2016-10-14 Contributions in this volume demonstrate how across the ancient Mediterranean and over hundreds of years women's rituals intersected with the political economic cultural or religious spheres of their communities in a way that has only recently started to gain sustained academic attention The volume aims to tease out a number of different approaches and contexts and to expand existing studies of women in the ancient world as well as scholarship on religious and social history The contributors face a famously difficult task ancient authors rarely recorded aspects of women's lives including their songs prophecies and prayers Many of the objects women made and used in ritual were perishable and have not survived certain kinds of ritual objects lowly undecorated pots for example tend not even to be recorded in archaeological reports However the broad range of contributions in this volume demonstrates the multiplicity of materials that can be used as evidence including inscriptions textiles ceramics figurative art and written sources and the range of methodologies that can be used from analysis of texts images and material evidence to cognitive and comparative approaches **All Things Ancient Greece** James W. Eder, 2022-10-11 As an invaluable resource for students and general audiences investigating Ancient Greek culture and history this encyclopedia provides a thorough examination of the Mediterranean world and its influence on modern society All Things Ancient Greece examines the history and cultural life of Ancient Greece until the death of Philip II of Macedon in 336 BCE The encyclopedia shows how the various city states developed from the Bronze Age to the end of the Classical Age influencing the Greek world and beyond The cultural achievements of the Greeks detailed in this two volume set include literature politics medicine religion and the arts This work has entries on the various city states regions battles culture and ideas that helped shape the ancient Greek world and its societies Each entry delves into detailed topics with suggested readings Many entries include sidebars containing primary documents from ancient sources that explore ancillary ideas biographies and specific examples from literature and philosophy Readers both students of ancient history and a general audience are encouraged to interact with the material either chronologically thematically or geographically

Images of Eternal Beauty in Funerary Verse Inscriptions of the Hellenistic and Greco-Roman Periods Andrzej Wypustek, 2012-11-01 In *The Privileges of Death: Images of Immortality in Verse Inscriptions of the Hellenistic and Greco-Roman Periods* Andrzej Wypustek provides a study of various forms of poetic heroization that became increasingly widespread in Greek funerary epigram in the 1st-3rd centuries AD **The Materiality of Ancient Greek Identities, 9th to 2nd Centuries BCE** Emma Gooch, Jerome Ruddick, 2025-08-07 Material culture is the physical trace of what was used to

construct and define identities in the past and is therefore a key source of evidence for archaeologists and ancient historians investigating ancient identities The focus of this volume is reflective of broader theoretical and methodological shifts in recent cross disciplinary explorations of identity Through the use of case studies each chapter demonstrates the benefits and crucial need to embrace inter and multi disciplinary approaches when investigating life and society in ancient Greece In particular this book covers the ever increasing spectrum of identities across the ancient Greek world ranging from collective groups such as women migrants children and slaves to individual figures Using archaeological iconographic and textual material as the basis of each exploration the contributors seek to understand the intersectional nature of what it meant to be an individual or group within a recognised social identity in ancient Greece More specifically this involves the analysis of various types of material culture such as artefacts from burials excavated settlements figurines statuary painted pottery small finds and monuments The contributors study the material using geo spatial and architectural methods along with more traditional approaches such as epigraphy Among other conclusions the chapters investigate the experiences of identity what the experience of having a particular identity was like as far as we can ascertain in ancient Greece as represented by the archaeological material record

Divine Mania Yulia Ustinova, 2017-10-16 Our greatest blessings come to us by way of mania provided it is given us by divine gift says Socrates in Plato's *Phaedrus* Certain forms of alteration of consciousness considered to be inspired by supernatural forces were actively sought in ancient Greece Divine mania comprises a fascinating array of diverse experiences numerous initiates underwent some kind of alteration of consciousness during mystery rites sacred officials and inquirers attained revelations in major oracular centres possession states were actively sought finally some thinkers such as Pythagoras and Socrates probably practiced manipulation of consciousness These experiences which could be voluntary or involuntary intense or mild were interpreted as an invasive divine power within one's mind or illumination granted by a super human being Greece was unique in its attitude to alteration of consciousness From the perspective of individual and public freedom the prominent position of the divine mania in Greek society reflects its acceptance of the inborn human proclivity to experience alteration of consciousness interpreted in positive terms as god sent These mental states were treated with cautious respect and in contrast to the majority of complex societies ancient and modern were never suppressed or pushed to the cultural and social periphery

To Know All Mysteries C. Andrew Ballard, 2022-08-31 This book examines the way that Paul presents himself as a guide into mysteries a mystagogue in 1 2 Corinthians By describing himself as a type of mystagogue for the community Paul was following a precedent in both Jewish and non Jewish sources for invoking mystagogic language to engage in polemics with a rival In opposition to the precedent however Paul understands the mystagogue to be a bi partite figure comprised of both foolishness

and wisdom simultaneously C Andrew Ballard argues that ancient mystagogues were often described in two disparate ways figures of power and figures of weakness and foolishness Paul synthesizes both aspects of the mystagogue in his self presentation to the Corinthians The figure of the mystagogue as a wise fool was useful to Paul because it was descriptive not only of his own experience as a suffering yet authoritative apostle but also of the experience of his deity the suffering and glorified Christ By presenting himself as both a powerful and foolish mystagogue Paul could argue that he was a more authentic imitator of Christ than his opponents in Corinth who boasted in self exaltation instead of self humility In this way Paul used the character of the mystagogue as a strategic rhetorical tool in his communication with the Corinthians

Becoming Divine M. David Litwa, 2013-10-30 Some have called it the essence of sin others the depth of salvation Regardless of one's evaluation of it however deification throughout Western history has been a part of human aspiration From the ancient pharaohs to modern transhumanists people have envisioned their own divinity These visionaries include not only history's greatest megalomaniacs but also mystics sages apostles prophets magicians bishops philosophers atheists and monks Some aimed for independent deity others realized their eternal union with God Some anticipated godhood in heaven others walked as gods on earth Some accepted divinity by grace others achieved it by their own will to power There is no single form of deification indeed deification is as manifold as the human conception of God but the many types are united by a set of interlocking themes achieving immortality wielding superhuman power being filled with supernatural knowledge or love and through these means transcending normal human or at least earthly nature *Alfred Loisy and the Making of History of Religions* Annelies Lannoy, 2020-08-10 This monograph studies the professionalization of History of religions as an academic discipline in late 19th and early 20th century France and Europe Its common thread is the work of the French Modernist priest and later Professor of History of religions at the Collège de France Alfred Loisy 1857-1940 who participated in many of the most topical debates among French and international historians of religions Unlike his well studied Modernist theology Loisy's writings on comparative religion and his rich interactions with famous scholars like F Cumont M Mauss or J G Frazer remain largely unknown This monograph is the first to paint a comprehensive picture of his career as a historian of religions before and after his excommunication in 1908 Through a contextual analysis of publications by Loisy and contemporaries and a large corpus of private correspondence it illuminates the scientification of the discipline between 1890-1920 and its deep entanglement with religion politics and society Particular attention is also given to the role of national and transnational scholarly networks and the way they controlled the theoretical and institutional frameworks for studying the history of religions *A Handbook to the Reception of Classical Mythology* Vanda Zajko, Helena Hoyle, 2017-03-16 A Handbook to the Reception of Classical Mythology presents a collection of essays that explore a wide variety of aspects of Greek and Roman myths and their critical reception from antiquity to the present day Reveals the importance of mythography to the survival dissemination and popularization of classical myth from the ancient world to the present day

Orphic Tradition and the Birth of the Gods Dwayne A. Meisner, 2018 Meisner offers a new interpretation of four Orphic theogonies Derveni Eudemian Hieronyman and Rhapsodic The fragments of these poems thought to be written by Orpheus contained narratives of the creation of the cosmos and the births of the gods but differed from the mainstream account of Hesiod's Theogony

Ancient Marbles in Naples in the Eighteenth Century Eloisa Dodero, 2019-09-16 In Ancient Marbles in Naples in the Eighteenth Century Eloisa Dodero aims at documenting the history of numerous private collections formed in Naples during the 18th century with particular concern for the Neapolitan marbles and the circumstances of their dispersal Research has thus made it possible to formulate a synthesis of the collecting dynamics of Naples in the 18th century to define the interest of the great European collectors especially British in the antiquities of the city and its territory and to draw up a catalogue which for the first time brings together the nucleus of sculptures reported in the Neapolitan collections or coming from irregular excavations most of which shared the destiny of dispersal in some cases here traced in definitive fashion

Redefining Dionysos Alberto Bernabé, Miguel Herrero de Jáuregui, Ana Isabel Jiménez San Cristóbal, Raquel Martín Hernández, 2013-06-26 This book contributes to the understanding of Dionysos the Greek god of wine dancing theatre and ecstasy by putting together 30 studies of classical scholars They combine the analysis of specific instances of particular dimensions of the god in cult myth literature and iconography with general visions of Dionysos in antiquity and modern times Only from the combination of different perspectives can we grasp the complex personality of Dionysos and the forms of his presence in different cults literary genres and artistic forms from Mycenaean times to late antiquity The ways in which Dionysos was experienced may vary in each author each cult and each genre in which this god is involved Therefore instead of offering a new all encompassing theory that would immediately become partial the book narrows the focus on specific aspects of the god

Redefinition does not mean finding again the essence of the god but obtaining a more nuanced knowledge of the ways he was experienced and conceived in antiquity

Shaman and Sage Michael Horton, 2024-05-28 The first volume of Michael Horton's magisterial intellectual history of spiritual but not religious as a phenomenon in Western culture Discussions of the rapidly increasing number of people identifying as spiritual but not religious tend to focus on the past century But the SBNR phenomenon and the values that underlie it may be older than Christianity itself Michael Horton reveals that the hallmarks of modern spirituality autonomy individualism utopianism and more have their foundations in Greek philosophical religion Horton makes the case that the development of the shaman figure in the Axial Age particularly its iteration among Orphists represented a divine self One must realize the divinity within the self to break free from physicality and become one with a

panentheistic unity Time and time again this tradition of divinity hiding in nature has arisen as an alternative to monotheistic submission to a god who intervenes in creation This first volume traces the development of a utopian view of the human individual a divine soul longing to break free from all limits of body history and the social and natural world When the second and third volumes are complete students and scholars will consult The Divine Self as the authoritative guide to the spiritual but not religious tendency as a recurring theme in Western culture from antiquity to the present
