SELF CONFIDENCE Margaret Bellis,2020-09-02 The measure of intelligence is the ability to change Albert Einstein You came into the world with unlimited possibilities for personal development Due to the influence of the environment in which you grew up your potential was suppressed and the value of existence was questioned Instead of developing your talents enjoying your individuality and following your dreams you have become a projection of people from your immediate surroundings You think and feel according to the patterns imposed by the people who took part in your education and upbringing unconsciously repeating their beliefs as your own You are what other people shaped you If you feel unsatisfied with life you feel unfulfilled want to make changes in your life achieve a small goal or real success then you need to overcome your mental habits and tune your beliefs into what you want Only in this way will you change your situation Thanks to the exercises contained in this notebook and above all the neuroplasticity of your brain you will bring out your huge potential You will replace your negative habits with habits that will give you the direction to a life you want I heartily recommend this notebook for which I was inspired by lectures by Brian Tracy I believe that like me you will also be able to initiate a process of positive change in life

The Four Moons in the Human Body Dr. Siddhartha Ganguli,2023-10-12 The Bauls Fakirs of Bengal and Bangladesh certainly constitute a breed different from other ethnic religious sects They do not believe in worshipping in any citadel of religion like a temple a mosque or a church They have the conviction that the body itself is the habitat of cosmic energy and also that the entire cosmos is present in a living body They compare the body with a cage and the soul with an unknown bird which has come to stay for some time only Most of the Bauls who are not just singers but serious followers of the Baul path do not believe in replication creating any future progeny They adopt special procedures for sexual union with menstruated female partners to retain the semen without losing it To learn this very special technique which they do not share with any one they have to take the help of learned and experienced Gurus who also teach them weird rituals like Chari Chandra Bhed which involves consumption of semen menstrual blood urine and faeces These folk medicine practices help them to keep diseases away and maintain good health There have been lot of surveys and studies on the Bauls Fakirs primarily of historical religious and sociological nature This book goes a little deep to look at their songs lifestyle philosophy practices from biological psychological management angles to establish that the Baulsphere is based on concepts and practices that have been proven scientific from modern research studies
