Meanings Of Violence A Cross Cultural Perspective

David Levinson

Meanings Of Violence A Cross Cultural Perspective:

Meanings of Violence Jon Abbink, Göran Aijmer, 2020-08-20 There are good reasons to look at violence from new perspectives In its endless manifestations violence is part and parcel of human existence and is very probably a constituting element of human society And yet violent action warfare penalties insults feuding assault murder rape suicide sports remains in all its complexity one of the least understood fields of human social life The book's contributors identify the symbolic and ritualized aspects of violence and suggest ways of reading violence as it occurs in the world whether as violent duelling and age group violence in Southern Ethiopia bullfighting in Iberia cattle rustling in Kenya guerrilla and militia wars in Colombia or public executions in China These case studies suggest that violence is not a simple universal urge but is contingent and context dependent shaped by social relations of power force and dominance To be the victim of violence is a humiliating and frightening experience But the many ambiguities that occur in the use of violence must be considered to understand why peace seems only to exist as a contrast to the violation of peace *The Blackwell Companion to Religion and Violence*

Andrew R. Murphy, 2011-05-16 The timely Blackwell Companion to Religion and Violence brings together an international interdisciplinary group of scholars who provide a coherent state of the art overview of the complex relationships between religion and violence This companion tackles one of the most important topics in the field of Religion in the twenty first century pulling together a unique collection of cutting edge work A focused collection of high quality scholarship provides readers with a state of the art account of the latest work in this field The contributors are broad ranging international and interdisciplinary and include historians political scientists religious studies scholars sociologists anthropologists theologians scholars of women's and gender studies and communication *Violence and Belonging*

Are J. Knudsen, 2009 Honor and violence are major themes in the anthropology of the Middle East yet apart from political violence most studies approach violence from the perspective of honour By contrast this important study examines the meanings of lethal conflict in a little studied tribal society in Pakistan's unruly North West Frontier Province NWFP and offers a new perspective on its causes Based on an in depth study of local conflicts the book challenges stereotyped images of a region and people miscast as extremist and militant Being grounded in local ethnography enables the book to shed light on the complexities of violence not only at the structural or systemic level but also as experienced by the men involved in lethal conflict In this way the book provides a subjective and experiential approach to violence that is applicable beyond the field locality and relevant for advancing the study of violence in the Middle East and South Asia The book is the first ethnographic study of this region since renowned anthropologist Fredrik Barth's pioneering study in 1954 *The Oxford Handbook of the History of Terrorism*

Carola Dietze, Claudia Verhoeven, 2022 The Oxford Handbook of the History of Terrorism presents a re evaluation of the major narratives in the history of terrorism exploring the emergence and the use of terrorism in world history from antiquity up to the twenty first century The volume presents terrorism as a historically specific form of political violence that

was generated by modern Western culture and then transported around the globe where it interacted with and was transformed in accordance with local conditions It offers cogent arguments and well documented case studies that support a reading of terrorism as a modern phenomenon as well as sustained analyses of the challenges involved in the application of the theories and practices of modernity and terrorism to non Western parts of the world both for historical actors and academic commentators

The Cambridge Companion to the Problem of Evil Chad Meister, Paul K. Moser, 2017-06-09 This Companion offers a state of the art contribution by providing critical analyses of and creative insights on the problem of evil

Family Violence in Cross-Cultural Perspective David Levinson, 1989 How prevalent is family violence outside the United States Can policies and programs designed to prevent family violence in one culture be adapted to other cultures Does a relationship exist between general violence and family violence in a given society These are but a few of the questions addressed in this compelling well written volume The author uses ethnographic data culled from 90 different societies to develop a global picture of the incidence causes and correlates of family violence Through the use of both quantitative analysis and ethnographic description Levinson tests the explanation power of various current theories against worldwide family violence data For anyone working in the area of family violence this volume is a must I found the work to be exceptional I surely will want to adopt it for my graduate course in the Sociology of Deviance Bob Regoli University of Colorado at Boulder The book would be extremely useful I know of no comparative work of this type now available The author writes well and is an accomplished scholar Mary Riege Laner Arizona State University This book can provide much illumination on world wide family violence The accounts given by ethnographers add life to the statistics given Anyone interested in broadening his or her knowledge of family violence would do well with this book

Family Violence Bulletin Levinson has made extensive use of the collection of cultural materials from the Human Relations Area files to examine the question of how common family violence is in different societies and what factors tend to make such violence more or less common in those societies He has reached a number of very important conclusions which provide a solid basis for further research Useful in developing an understanding of the way in which family violence occurs and may be helpful in programs to prevent the occurrence of such violence

New Jersey Family Lawyer Provides thought provoking material about family violence which will be of interest to many audiences This comparative study should help fill a critical gap

Journal of Marriage and the Family The author gives examples of societies where family violence is virtually unknown to disprove the view that it is somehow natural and inevitable Because of this wider perspective on a common problem this book is worthwhile reading for anyone dealing professionally with couples of families where violence is likely to occur

Sexual and Marital Therapy An important addition to the anthropological study of deviance important to students interested in deviant behavior family and gender issues and the social construction of violence

NEXUS The Canadian Journal of Anthropology Those interested in examining family violence from a broader cross cultural perspective that will suggest hypotheses for

understanding and preventing family violence at the societal level in our own culture will find Family Violence in Cross Cultural Perspective to be most interesting reading Review and Expositor Inc

The ^AOxford Handbook of the History of Terrorism Carola Dietze, Claudia Verhoeven, 2021-11-15 The Oxford Handbook of the History of Terrorism presents a re-evaluation of the major narratives in the history of terrorism exploring the emergence and the use of terrorism in world history from antiquity up to the twenty first century The volume presents terrorism as a historically specific form of political violence that was generated by modern Western culture and then transported around the globe where it interacted with and was transformed in accordance with local conditions It offers cogent arguments and well documented case studies that support a reading of terrorism as a modern phenomenon as well as sustained analyses of the challenges involved in the application of the theories and practices of modernity and terrorism to non Western parts of the world both for historical actors and academic commentators

Violent Rituals of the Hebrew Bible Saul M. Olyan, 2019 Although seldom studied by biblical scholars as a discrete phenomenon ritual violence is mentioned frequently in biblical texts Violent Rituals of the Hebrew Bible is the first book to investigate violent rites the ritual settings in which they occur their various literary contexts and the identity and aims of their agents in order to speak in an informed way about the contours and social aspects of ritual violence as it is represented in the Hebrew Bible

Justice-based ethics Chris Jones, 2018-12-01 The book reflects academically on important and relevant ethical fields from a multidimensional South African context The book challenges conventional borders from different ethical theological philosophical economic and cultural perspectives with insight and expertise and seeks to add academic ethical value locally and globally with its different points of departure deeply embedded in justice From a mainly qualitative methodological perspective this scholarly book demonstrates that ethics requires analytical thinking and critical people who in an existentially and emancipatory way can help make the world a more just decent and humane place in which to live The authors who represent different academic and cultural backgrounds present in their respective chapters their research systematically intersectionally and constructivistically based on profound theoretical analysis and reasoning This epistemology results in an act of knowing that actively gives meaning and order to the reality to which it is responding By doing this they point out that people are in an ongoing process of becoming more human allowing ourselves and our fellow human beings to flourish and to reach fuller potential through justice based ethical reflection and action

Social Movements and Violence Joseph Thomas, 2001

Occupying Syria Under the French Mandate Daniel Neep, 2012-09-10

- 1 Rethinking colonial violence
- 2 The architecture of the colonial state
- 3 Political rationalities of violence
- 4 Time science and space
- 5 Rebel movements and the great revolt

Violent Internal Conflicts in Asia Pacific Asvi Warman Adam, Dewi Fortuna Anwar, 2005 The last decade has seen an upsurge in violent internal conflicts in southern Thailand southern Philippines Sri Lanka and a number of regions in Indonesia and the Pacific Like terrorism and nuclear proliferation violent internal conflicts are increasingly being

seen as a global security issue **White Narratives: The depiction of post-2000 land invasions in Zimbabwe** Irikidzayi Manase,2016-12-29 The post 2000 period in Zimbabwe saw the launch of a fast track land reform programme resulting in a flurry of accounts from white Zimbabweans about how they saw the land the land invasions and their own sense of belonging and identity In *White Narratives* Irikidzayi Manase engages with this fervent output of texts seeking definition of experiences conflicts and ambiguities arising from the land invasions He takes us through his study of texts selected from the memoirs fictional and non fictional accounts of white farmers and other displaced white narrators on the post 2000 Zimbabwe land invasions scrutinising divisions between white and black in terms of both current and historical ideology society and spatial relationships He examines how the revisionist politics of the Zimbabwean government influenced the politics of identities and race categories during the period 2000-2008 and posits some solutions to the contestations for land and belonging *The Oxford Handbook of Jeremiah* Louis Stulman,Edward Silver,2021 This essay provides an overview of the book of Jeremiah its historical background distinctive literary character language of trauma and resilience dominant ideologies and the state of 20th and 21st century Jeremian scholarship It concludes with an explanation of the goals and structure of the Handbook

Conflict-Related Violence against Women Aisling Swaine,2018-02-15 By comparatively assessing three conflict affected jurisdictions Liberia Northern Ireland and Timor Leste *Conflict Related Violence against Women* empirically and theoretically expands current understanding of the form and nature of conflict time harms impacting women The violences that occur in conflict beyond strategic rape are first identified Employing both a disaggregated and an aggregated approach relations between forms of violence within and across each context s pre mid and post conflict phase are then assessed identifying connections and distinctions in violence Swaine highlights a wider spectrum of conflict related violence against women than is currently acknowledged She identifies a range of forces that simultaneously push open and close down spaces for addressing violence against women through post conflict transitional justice The book proposes that in the aftermath of conflict a transformation rather than a transition is required if justice is to play a role in preventing gendered violence before conflict and its appearance during and after conflict *Race Riots & Resistance* Jan Voogd,2008 *Race Riots and Resistance* uncovers a long hidden tragic chapter of American history Focusing on the Red Summer of 1919 in which black communities were targeted by white mobs the book examines the contexts out of which white racial violence arose It shows how the riots transcended any particularity of cause and in doing so calls into question many longstanding beliefs about racial violence The book goes on to portray the riots as a phenomenon documenting the number of incidents describing the events in detail and analyzing the patterns that emerge from looking at the riots collectively Finally and significantly *Race Riots and Resistance* argues that the response to the riots marked an early stage of what came to be known as the Civil Rights Movement *The Darker Angels of Our Nature* Philip Dwyer,Mark Micale,2021-08-12 In *The Better Angels of Our Nature* Harvard psychologist Steven Pinker argued that modern history has witnessed a dramatic decline in human violence of every kind and that in the

present we are experiencing the most peaceful time in human history But what do top historians think about Pinker's reading of the past Does his argument stand up to historical analysis In *The Darker Angels of our Nature* seventeen scholars of international stature evaluate Pinker's arguments and find them lacking Studying the history of violence from Japan and Russia to Native America Medieval England and the Imperial Middle East these scholars debunk the myth of non violent modernity Asserting that the real story of human violence is richer more interesting and incomparably more complex than Pinker's sweeping simplified narrative this book tests and bests fake history with expert knowledge

The Mask of Anarchy Updated Edition Stephen Ellis, 2006-09 Liberia has been one of Africa's most violent trouble spots In 1990 when thousands of teenage fighters including young men wearing women's clothing and bizarre objects of decoration laid siege to the capital the world took notice Since then Liberia has been through devastating civil upheaval What began as a civil conflict has spread to other West African nations Eschewing popular stereotypes and simple explanations Stephen Ellis traces the history of the civil war that has blighted Liberia in recent years and looks at its political ethnic and cultural roots He focuses on the role religion and ritual have played in shaping and intensifying this brutal war In this edition with a new preface by the author Ellis provides a current picture of Liberia and details how much of the same problems still exist

War and Sacrifice Tony Pollard, Iain Banks, 2007 This collection of papers on the archaeology of conflict covers a wide range in both time and space running from Sub Neolithic Finland to early Modern Ireland The papers include a diverse series of approaches to the study of conflict using excavation osteology artefacts and linguistics

The ^AWealth of Wives Barbara A. Hanawalt, 2007-10-11 An overlooked source of liquid capital for the growth of London's late medieval economy this book argues was the wealth that women accumulated through inheritance dowry and dower Wealth recirculated among merchants and tradesmen through the marriage of their daughters and widows Women's roles in trades in wage labor did not contribute as much to London's economy as wealth passed through marriage
