Jenkins, 1997-12-04 Educated people have become bereft of sophisticated ways to develop their religious inclinations A major reason for this is that theology has become vague and dull In The Character of God author Thomas E Jenkins maintains that Protestant theology became boring by the late nineteenth century because the depictions of God as a character in theology became boring He shows how in the early nineteenth century American Protestant theologians downplayed biblical depictions of God's emotional complexity and refashioned his character according to their own notions stressing emotional singularity These notions came from many sources but the major influences were the neoclassical and sentimental literary styles of characterization dominant at the time The serene benevolence of neoclassicism and the tender sympathy of sentimentalism may have made God appealing in the mid 1800s but by the end of the century these styles had lost much of their cultural power and increasingly came to seem flat and vaque Despite this both liberal and conservative theologians clung to these characterizations of God throughout the twentieth century Jenkins argues that a way out of this impasse can be found in romanticism the literary style of characterization that supplanted neoclassicism and sentimentalism and dominated American literary culture throughout the twentieth century Romanticism emphasized emotional complexity and resonated with biblical depictions of God A few mayerick religious writers such as Harriet Beecher Stowe W G T Shedd and Horace Bushnell did devise emotionally complex characterizations of God and in some cases drew directly from romanticism But their strange and sometimes shocking depictions of God were largely forgotten in the twentieth century s use theological as a pejorative term implying that an argument is needlessly Jenkins urges a reassessment of their work and a greaterin understanding of the relationship between theology and literature Recovering the lost literary power of American Protestantism he claims will make the character of God more compelling and help modern readers appreciate the peculiar power of the biblical characterization of God **Practical Theology in Progress** Nigel Rooms, Zoë Bennett, 2020-06-29 Practical Theology has emerged as an important discipline in recent decades making a major contribution both in the academy and amongst reflective practitioners on the ground The Journal Practical Theology celebrated its tenth anniversary in 2018 and this book presents ten journal articles chosen from over 180 that were published in that period Reflecting on the progress the discipline has made and indicating some future directions in the field the book is a showcase of examples of good practical theology utilising a wide range of methodologies and written by an interesting cross section of authors from a variety of backgrounds This is a book which answers the question what is practical theology with real live examples that are accessible readable and engaging **Beauty and the Besharam** Lillie Vale, 2022-05-24 If you re a fan of rivals to lovers

Outka, 1977-09-10 This study is the most comprehensive account to date of modern treatments of the love commandment Gene Outka examines the literature on agape from Nygren's Agape and Eros in 1930 Both Roman Catholic and Protestant writings are considered including those of D Arcy Niebuhr Ramsey Tillich and above all Karl Barth The first seven chapters focus on the principal treatments in the theological literature as they relate to major topics in ethical theory. The last chapter explores further the basic normative

content of agape and discusses some of the most characteristic problems. The book is in my judgment the best recent work in religious ethics Outka brings together analytic moral philosophy and theological ethics providing a masterly survey of views and issues arising in the past forty years I can think of few books of interest to scholars in both philosophy and theology but Outka s is one Unlike some scholars who are at home in continental theology Outka is also at home in secular analytic philosophy he brings them together in a mutually illuminating way Donald Evans Outka has mastered this vast literature on love and has brought a critical and clarifying analysis to bear upon it This is a most important book on a most important subject and brings the whole discussion into a new phase John Macquarrie The first thing to be said about Outka's book quite simply is that it is excellent in fact it is probably the very best available book about contemporary Christian ethical theory The Humanities Association Review A Cultural History of Color in the Medieval Age Carole P.
