professor emeritus of measurement and data analysis at the University of Twente His research interests include test theory adaptive testing optimal test assembly parameter linking test equating and response time modeling as well as decision theory and its applications to problems of educational decision making The Importance of Common Metrics for Advancing Social Science Theory and Research National Research Council, Division of Behavioral and Social Sciences and Education, Committee on Social Science Evidence for Use, Committee on Advancing Social Science Theory: The Importance of Common Metrics, 2011-04-17 In February 2010 the National Research Council convened a workshop to investigate the feasibility of developing well grounded common metrics to advance behavioral and social science research both in terms of advancing the development of theory and increasing the utility of research for policy and practice The Workshop on Advancing Social Science Theory The Importance of Common Metrics had three goals To examine the benefits and costs involved in moving from metric diversity to greater standardization both in terms of advancing the development of theory and increasing the utility of research for policy and practice To consider whether a set of criteria can be developed for understanding when the measurement of a particular construct is ready to be standardized To explore how the research community can foster a move toward standardization when it appears warranted This book is a summary of the two days of presentations and discussions that took place during the workshop **Literacy in the United States** Carl F. Kaestle, Helen Damon-Moore, 1991-01-01 Aims to shed new light on the issue of literacy in America providing a social history that broadens the definition of literacy considering who was reading what under what circumstances and for what purposes The book assesses trends in Americans reading abilities and reading habits *Measuring Up* Daniel Koretz, 2009-09-15 *Measuring Up* demystifies educational testing from MCAS to SAT to WAIS Bringing statistical terms down to earth Koretz takes readers through the most fundamental issues that arise in educational testing and shows how they apply to some of the most controversial issues in education today from high stakes testing to special education **Allocating Federal Funds for State Programs for English Language Learners** National Research Council, Division of Behavioral and Social Sciences and Education, Board on Testing and Assessment, Committee on National Statistics, Panel to Review Alternative Data Sources for the Limited-English Proficiency Allocation Formula Under Title III, Part A, Elementary and Secondary Education Act, 2011-07-20 As the United States continues to be a nation of immigrants and their children the nation's school systems face increased enrollments of students whose primary language is not English With the 2001 reauthorization of the Elementary and Secondary Education Act ESEA in the No Child Left Behind Act NCLB the allocation of federal funds for programs to assist these students to be proficient in English became formula based 80 percent on the basis of the population of children with limited English proficiency¹ and 20 percent on the basis of the population of recently immigrated children and youth Title III of NCLB directs the U S Department of Education to allocate funds on the basis of the more accurate of two allowable data sources the number of students reported to the federal government by each state education agency or

data from the American Community Survey ACS The department determined that the ACS estimates are more accurate and since 2005 those data have been basis for the federal distribution of Title III funds Subsequently analyses of the two data sources have raised concerns about that decision especially because the two allowable data sources would allocate quite different amounts to the states In addition while shortcomings were noted in the data provided by the states the ACS estimates were shown to fluctuate between years causing concern among the states about the unpredictability and unevenness of program funding In this context the U S Department of Education commissioned the National Research Council to address the accuracy of the estimates from the two data sources and the factors that influence the estimates The resulting book also considers means of increasing the accuracy of the data sources or alternative data sources that could be used for allocation purposes

Adult and Lifelong Education Marcella Milana, John Holford, Vida Mohorčič Špolar, 2017-10-02 Adult and Lifelong Education explores why politicians researchers and practitioners involved in educating post school young people and adults have quietly abandoned the term education in favour of learning Bringing together contributions from experienced as well as younger scholars and from Europe North America and Australasia it draws on global national and local perspectives to reveal key features of adult education s policy environment At the book s heart are three main concerns First what is the spatial reach of these developments and what processes of fluidity and fixity emerge Second does increased state and international recognition of civil society s role in adult education and learning help to voice grass roots learning needs for individuals and communities Or does it create new patterns of dependency and domestication Finally given the growing culture of monitoring and the investment of money time and attention which international organizations national governments and research institutes around the world are making in gathering information on people s skills and knowledge and how they use them what is happening when literacy numeracy and problem solving abilities are tested How is this knowledge used and abused in various policy environments and who benefits The book is an outcome of the work of the European Society for the Research on the Education of Adults ESREA Research Network on Policy Studies in Adult Education s inaugural conference held at the University of Nottingham in 2012 This book was originally published as a special issue of Globalisation Societies and Education
