Media And Environment Conflict Politics And The News Paperback:

Media and Environment Libby Lester, 2010-12-13 Drawing on a range of international examples Libby Lester invites readers to develop a nuanced understanding of changing media practices and dynamics by connecting local national and global environmental issues journalistic practices and news sources public relations and protests and the symbolic and strategic circulation of meanings in the public sphere **Communicating in the Anthropocene** C. Vail Fletcher, Alexa M.

Dare, 2021-02-04 The purpose of *Communicating in the Anthropocene* Intimate Relations is to tell a different story about the world Humans especially those raised in Western traditions have long told stories about themselves as individual protagonists who act with varying degrees of free will against a background of mute supporting characters and inert landscapes Humans can be either saviors or destroyers but our actions are explained and judged again and again as emanating from the individual And yet as the coronavirus pandemic has made clear humans are unavoidably interconnected not only with other humans but with nonhuman and more than human others with whom we share space and time Why do so many of us humans avoid deny or resist a view of the world where our lives are made possible maybe even made richer through connection In this volume we suggest a view of communication as intimacy We use this concept as a provocation for thinking about how we humans are in an always already state of being in relation with other humans nonhumans and the land The Media and Communications in Australia Stuart Cunningham, Sue Turnbull, 2020-07-16 Traditional media are

being reshaped by digital technologies The funding model for quality journalism has been undermined by the drift of advertising online demarcations between different forms of media are rapidly fading and audiences have fragmented We can catch up with our favourite TV show on a tablet social media can be more important than mainstream radio in a crisis and organisations large and small have become publishers in their own right on apps Nevertheless mainstream media remain powerful *The Media and Communications in Australia* offers a systematic introduction to this dynamic field Fully updated and revised to take account of recent developments this fourth edition outlines the key media industries and explains how communications technologies are impacting on them It provides a thorough overview of the main approaches taken in studying the media and includes an expanded issues section with new chapters on social media gaming apps the environment media regulation ethics and privacy With contributions from some of Australia's best researchers and teachers in the field *The Media and Communications in Australia* remains the most comprehensive and reliable introduction to media and communications available It is an ideal student text and a reference for teachers of media and anyone interested in this influential industry The Routledge Handbook of Environment and Communication Anders Hansen, Robert Cox, 2015-03-05 This Handbook provides a comprehensive statement and reference point for theory research and practice with regard to environment and communication and it does this from a perspective which is both international and multi disciplinary in scope Offering comprehensive critical reviews of the history and state of the art of research into the key dimensions of

environmental communication the chapters of this handbook together demonstrate the strengths of multi disciplinary and cross disciplinary approaches to understanding the centrality of communication to how the environment is constructed and indeed contested socially politically and culturally Organised in five thematic sections The Routledge Handbook of Environment and Communication includes contributions from internationally recognised leaders in the field The first section looks at the history and development of the discipline from a range of theoretical perspectives Section two considers the sources communicators and media professionals involved in producing environmental communication Section three examines research on news entertainment media and cultural representations of the environment The fourth section looks at the social and political implications of environmental communication with the final section discussing likely future trajectories for the field The first reference Handbook to offer a state of the art comprehensive overview of the emerging field of environmental communication research this authoritative text is a must for scholars of environmental communication across a range of disciplines including environmental studies media and communication studies cultural studies and related disciplines

Media and the Path to Peace Gadi Wolfsfeld, 2004-01-15 This is the first book to examine in detail the roles that the news media can play in an ongoing peace process Gadi Wolfsfeld explains how the press s role in such processes varies over time and political circumstance He examines three major cases the Oslo peace process between Israel and the Palestinians the peace process between Israel and Jordan and the process surrounding the Good Friday Agreement in Northern Ireland Wolfsfeld s central argument is that there is a fundamental contradiction between news values and the nature of a peace process This often leads the media to play a destructive role in attempts to make peace but variations in the political and media environment affect significantly exactly how the media behave Wolfsfeld shows how the media played a mainly destructive role in the Oslo peace process but were more constructive during the Israel Jordan process and in Northern Ireland

Disability and Media - An African Perspective Tafadzwa Rugoho, 2023-11-27 This book seeks to expand some of the existing often western and Global North facing scholarship in the area of Disability and Media Studies to include African perspectives Featuring predominantly Africa based contributors it studies an array of topics on disability and media in Africa including issues of social media media ethics including marginalised voices in the media and disability representation in the media

Making Sense of Media and Politics Gadi Wolfsfeld, 2011-06-23 Politics is above all a contest and the news media are the central arena for viewing that competition One of the central concerns of political communication has to do with the myriad ways in which politics has an impact on the news media and the equally diverse ways in which the media influences politics Both of these aspects in turn weigh heavily on the effects such political communication has on mass citizens In Making Sense of Media and Politics Gadi Wolfsfeld introduces readers to the most important concepts that serve as a framework for examining the interrelationship of media and politics political power can usually be translated into power over the news media when authorities lose control over the political environment they also lose control over the news there is no

such thing as objective journalism nor can there be the media are dedicated more than anything else to telling a good story the most important effects of the news media on citizens tend to be unintentional and unnoticed By identifying these five key principles of political communication the author examines those who package and send political messages those who transform political messages into news and the effect all this has on citizens The result is a brief engaging guide to help make sense of the wider world of media and politics and an essential companion to more in depths studies of the field

Strategic Communication and its Role in Conflict News Marc Jungblut,2020-01-13 Marc Jungblut extends existing knowledge on the role of strategic communication in conflict news by examining four violent conflicts He relies on an automated content analysis of texts by 52 strategic communicators such as politicians NGOs social movements as well as on the international news coverage in 17 media outlets By analyzing over 80 000 texts in seven languages the book demonstrates that media visibility is almost exclusively granted based on ethnocentrism and elite status The journalistic framing of conflict events however is much more context dependent and shows a higher degree of independence from elite voices and strategic communication in general

Media, Wars and Politics Ekaterina Balabanova,2017-11-30 The interaction between media and foreign policy is a critical dimension of the so called age of new military humanitarianism The media is now more effective in gathering and distributing information all over the world and media coverage of humanitarian wars allows for information and images to reach a wide audience with great immediacy and realism For policy making the 24 7 news cycle means high levels of exposure to fast breaking international stories receiving global attention and producing a powerful do something effect This topical book widens the debate beyond US media and policy making by considering the case of Western and Eastern European media and policy processes It tests the wider application of existing theoretical approaches and provides useful comparisons allowing the reader to draw conclusions on the media policy relationship It is an excellent resource for all those interested in political communication European politics and media studies

Environmental Journalism Henrik Bodker,Irene Neverla,2014-10-29 Environmental journalism is an increasingly significant area for study within the broader field of journalism studies It connects the concerns of politics science business culture and the natural world whilst also exploring the boundaries between the local regional and global A central and typical focus for its concerns are the global summits convened to share scientific knowledge about global warming and to formulate policies to mitigate its consequences in particular locales But reporting environmental change creates difficulties for journalists who are often ill equipped to resolve the uncertainties in the disputed scientific accounts of climate change This research based collection focuses on aspects of environmental journalism in Australia France Norway Sweden the UK and the USA Contributors present case studies of media reporting of the environment and explore considerations of objectivity and advocacy in journalistic coverage of the environment and climate change This book was originally published as a special issue of Journalism Studies

The Syrian Conflict in the News Gabriel Huland,2024-02-22 The Syrian conflict constitutes one of the most covered events in

this century Although the coverage of the Syrian uprising and civil war alternated between periods of saturation and silence it is indisputable that they received an enormous amount of media attention The Syrian Conflict in the News analyses the coverage of the Syrian conflict in the New York Times the Washington Post and the Wall Street Journal focusing on how the three newspapers framed six key events in Syria from March 2011 to April 2018 including the Ghouta chemical attack the Russian intervention in Syria and US led airstrikes Gabriel Huland argues that US foreign policy dominates the frames of the conflict which suggests that mainstream newspapers are excessively indexed to elite narratives In the United States the Syrian crisis prompted an intense debate about the appropriate degree of US involvement in the civil war and how the country should behave in the face of growing Russian and Iranian influence in the Middle East The overreliance on elite narratives resulted in the underrepresentation of local voices and other players who were in a more advantaged position to devise solutions to the conflict By analysing the frames of the Syrian uprising and civil war in three mainstream newspapers and the relationship between media and international conflicts The Syrian Conflict in the News sheds light on crucial aspects of the crisis currently pervading US journalism

Bravery or Bravado? The Protection of News Providers in Armed Conflict Nina Burri, 2015-05-12 During the last decade the image of war correspondents in the news has shifted dramatically Reports are no longer full of cheerleading stories of embedded journalists Instead stories of war reporters being attacked kidnapped or injured prevail Sadly the former heroic witnesses to war have become victims of their own story In this book Nina Burri provides the first comprehensive analysis on how international law protects professional and citizen journalists photographers cameramen and their support staff during times of war Using examples from recent armed conflicts in Iraq Libya Gaza and Syria Burri explores the means methods and risks of contemporary war coverage and examines the protection of news providers by international humanitarian law international criminal law and human rights law

China, Media, and International Conflicts Shixin

Ivy Zhang,Altman Yuzhu Peng,2023-03-30 This book focuses on China's media diplomacy and its interplay with a range of international conflicts. It assesses the representation and framing of China as well as the perception and reception of China's media communication in relation to various crises and conflicts. Including detailed analyses of many cases, it highlights the complex fluid and dynamic relationship between media and conflict and discusses how this both exemplifies and also affects China's relations with the outside world. In addition, in contrast to most existing studies of mediatized conflict in the digital age, it provides a very valuable non-Western perspective.

The Ethics of Engagement Herman Wasserman,2021 What role should the media play in conflicts that arise during transitions to democracy? What makes the role of the media in Africa different from those in other parts of the world? What ethical responsibilities and obligations do the media have towards societies mired in conflict and characterized by social and economic inequality, ethnic and racial polarization and histories of oppression and violence? The Ethics of Engagement sets out to answer these questions by considering various examples of conflicts in African democracies and proposes an ethics of listening as a normative framework for the media.

Policy & Politics in Nursing and Health Care - E-Book Diana J. Mason,2011-02-08 Featuring analysis of healthcare issues and first person stories, Policy Politics in Nursing and Health Care helps you develop skills in influencing policy in today's changing health care environment. Approximately 150 expert contributors present a wide range of topics in policies and politics, providing a more complete background than can be found in any other policy textbook on the market. Environment, Media and Communication Anders Hansen, 2010-03-02. Communication about the environment in and through a broad array of news, advertising, art, and entertainment media is one of the major sources of public and political understanding of definitions, issues, and problems associated with the environment. *Environment, Media and Communication* examines the social, cultural, and political roles of the media as a public arena for images, representations, definitions, and controversy regarding the environment. The book starts by discussing and outlining a framework for analyzing media and communication roles in the emergence of the environment and environmental problems as issues for public and political concern. It proceeds to examine who and what drives the public agenda on environmental issues, addressing questions about how governments, scientists, experts, pressure groups, and other stakeholders have sought to use traditional as well as newer media for promoting their definitions of the key issues. The media are not merely an open public arena or stage but rather themselves a key gatekeeper and influence in the process of communicating about the environment. The role of news, values, organizational arrangements, and professional practices are thus examined next. Recognizing the importance of wider popular culture narratives to public understanding and communication about the environment and nature, the book proceeds with a discussion of the messages and moral tales communicated about the environment, science, and nature in a range of media, including film and advertising media. It shows how this wider context provides important clues to understanding the successes and failures of selected environmental issues or campaigns. The book finishes with an examination of the key approaches and models used for understanding how the media influence and interact with public opinion and political decision making on environmental issues. Offering a comprehensive introduction to theoretical approaches and models for the study of media and communication roles regarding the environment and drawing on empirical research evidence and examples from Europe, America, Australia, and Asia, the book will be of interest to students in media communication studies.
