The Holocaust Sites of Europe Martin Winstone, 2010-06-30 The Holocaust the murder of approximately six million Jews by Nazi Germany and its collaborators in World War Two is the gravest crime in recorded history committed on a human and geographical scale which is almost unimaginable To try to bridge this gap and better understand the true significance of the Holocaust as well as its scale and magnitude millions of people each year now travel to the former camps ghettos and other settings for the atrocities The Holocaust Sites of Europe offers the first comprehensive guide to these sites including much practical information as well as the historical context It will be an indispensable guide for anyone seeking to add another layer to their understanding of the Holocaust by visiting these important sites for themselves Thousands of locations across Europe were associated with the tragedy but with a few well known exceptions most languished in obscurity after the war their names known only to survivors perpetrators and a small number of historians For over four decades the Iron Curtain served as a practical and psychological barrier to travel to the majority of the most significant sites But now millions of people from all over the world are choosing to travel to Holocaust sites whether for educational or familial reasons or simply out of respect for the dead This guide includes a survey of all the major Holocaust sites in Europe from Belgium and Belarus to Serbia and Ukraine It includes not only the notorious concentration and death camps such as Auschwitz and Ravensbr ck but also less well known examples such as Sered in Slovakia together with detailed descriptions of massacre sites ghettos Euthanasia centres and Roma and Sinti sites which witnessed similar crimes Throughout the book there is also extensive reference to the many museums and memorials which commemorate the Holocaust As the experience of the Holocaust recedes from living memory and the number of survivors and perpetrators diminishes with every passing year these locations assume a greater importance as the principal physical reminders of what happened Alongside the testimonies of survivors and the works of historians the experience of for example exploring the vast ruins of Birkenau or being shocked by the small area needed to kill nearly one million people at Treblinka can bring another dimension to one s understanding The Holocaust
