Planet Canada John Stackhouse, 2020-10-06 A leading thinker on Canada's place in the world contends that our country's greatest untapped resource may be the three million Canadians who don't live here Entrepreneurs educators humanitarians an entire province's worth of Canadian citizens live outside Canada Some will return others won't But what they all share is the ability and often the desire to export Canadian values to a world sorely in need of them And to act as ambassadors for Canada in industries and societies where diplomatic efforts find little traction Surely a country with people as diverse as Canada's ought to plug itself into every corner of the globe We don't and sometimes not even when our expats are eager to help Failing to put this desire to work contends bestselling author and longtime foreign correspondent John Stackhouse is a grave error for a small country whose voice is getting lost behind developing nations of rapidly increasing influence The soft power we once boasted is getting softer but we have an unparalleled resource if we choose to use it To ensure Canada's place in the world Stackhouse argues in *Planet Canada* we need this exceptional province of expats and their special claim on the twenty first century
