## **Mystery Moral Authority Russell Blackford:**

The Mystery of Moral Authority Russell Blackford, 2016-04-29 The Mystery of Moral Authority argues for a sceptical and pragmatic view of morality as an all too human institution Searching intellectually rigorous and always fair to rival views it represents the state of the art in a tradition of moral philosophy that includes Thomas Hobbes David Hume and J L Mackie

*The Tyranny of Opinion* Russell Blackford, 2018-10-18 We live in an age of ideology propaganda and tribalism Political conformity is enforced from many sides the insidious social control that John Stuart Mill called the tyranny of the prevailing opinion and feeling Liberal or left minded people are often more afraid of each other than of their conservative or right wing opponents Social media and call out culture makes it easier to name shame ostracize and harass non conformists and destroys careers and lives How can we oppose this regaining freedom and our sense of ourselves as individuals The Tyranny of Opinion identifies the problem defines its character and proposes strategies of resistance Russell Blackford calls for an end to ideological purity policing and for recommitment to the foundational liberal values of individual liberty and spontaneity free inquiry diverse opinion and honest debate

*Science Unlimited?* Maarten Boudry, Massimo Pigliucci, 2018-01-12 All too often in contemporary discourse we hear about science overstepping its proper limits about its brazenness arrogance and intellectual imperialism The problem critics say is scientism the privileging of science over all other ways of knowing Science they warn cannot do or explain everything no matter what some enthusiasts believe In *Science Unlimited* noted philosophers of science Maarten Boudry and Massimo Pigliucci gather a diverse group of scientists science communicators and philosophers of science to explore the limits of science and this alleged threat of scientism In this wide ranging collection contributors ask whether the term scientism in fact or in belief captures an interesting and important intellectual stance and whether it is something that should alarm us Is scientism a well developed position about the superiority of science over all other modes of human inquiry Or is it more a form of excessive confidence an uncritical attitude of glowing admiration What if any are its dangers Are fears that science will marginalize the humanities and eradicate the human subject that it will explain away emotion free will consciousness and the mystery of existence justified Does science need to be reined in before it drives out all other disciplines and ways of knowing Both rigorous and balanced *Science Unlimited* interrogates our use of a term that is now all but ubiquitous in a wide variety of contexts and debates Bringing together scientists and philosophers both friends and foes of scientism it is a conversation long overdue

philosophical investigations of logic world mind and moral responsibility continue to shape the empirical and theoretical sciences Considers the role of contemporary philosophy in political issues such as women s rights the discrimination of minorities and public health

**Science Fiction and the Moral Imagination** Russell Blackford,2017-09-05 In this highly original book Russell Blackford discusses the intersection of science fiction and humanity s moral imagination With the rise of science and technology in the 19th century and our continually improving understanding of the cosmos writers and thinkers soon began to imagine futures greatly different from the present Science fiction was born out of the realization that future technoscientific advances could dramatically change the world Along with the developments described in modern science fiction space societies conscious machines and upgraded human bodies to name but a few come a new set of ethical challenges and new forms of ethics Blackford identifies these issues and their reflection in science fiction His fascinating book will appeal to anyone with an interest in philosophy or science fiction or in how they interact This is a seasoned balanced analysis of a major issue in our thinking about the future seen through the lens of science fiction a central art of our time Everyone from humanists to technologists should study these ideas and examples Blackford s book is wise and savvy and a delight to read as well Greg Benford author of Timescape

*Developing a United Nations Emergency Peace Service* H. Peter Langille,2016-07-14 This book makes the case for a standing UN Emergency Peace Service With this one development effectively a UN first responder for complex emergencies the organization would finally have a rapid reliable capacity to help fulfill its tougher assigned tasks To date the UNEPS initiative has encountered an unreceptive political fiscal and security environment Yet overlapping crises are now inevitable as are profound shifts This book presents an insightful review of the worrisome security challenges ahead and analysis of two recent high level UN reports It addresses the primary roles core principles and requirements of a UNEPS as well as the arguments for and against such a dedicated UN service Further it reveals that the primary impediments and lessons learned also help demonstrate what may work and equally important what won t With modest support the book shows the next steps are feasible although it s important to recall that ideas even good ideas don t work unless we do

**Explaining the Genetic Footprints of Catholic and Protestant Colonizers** S. Barter,2016-04-30 This book points out a novel pattern in colonial intimacy that Catholic colonizers tended to leave behind significant mixed communities while Protestant colonizers were more likely to police relations with local women The varied genetic footprints of Catholic and Protestant colonizers while subject to some exceptions holds across world regions and over time Having demonstrated that this pattern exists this book then seeks to explain it looking to religious institutions political capacity and ideas of nation and race

**Alien Audiences** M. Barker,K. Egan,S. Ralph,T. Phillips,2016-04-29 Released in 1979 Ridley Scott s Alien has come to be regarded as a classic film and has been widely written about But how have audiences engaged with it This book presents the sometimes very surprising results of a major audience research project exploring how people remember and continue to engage with the film

**Networks Governance,**

**Partnership Management and Coalitions Federation** Christophe Assens,Aline Courie Lemeur,2016-05-12 This book explores the governance of networks A network s governance mechanisms are based on trust and confidence which go beyond a simple economic logic As the network s boundaries expand to include clusters of businesses and stakeholders and the emergence of coalitions of all kinds the trust will gradually dilute and the network s unifying role will be lost The organization then evolves into the form of a network of networks where the challenge is to bring together coalitions Using examples from the European Union and the Regional Health Federation of Networks this book explores the political and socio economic challenges including the decision making and division of tasks faced by network organizations which move to a federation model of governance

*Political Cyberformance* Christina Papagiannouli,2016-04-30 Written from a practice based perspective this book focuses on the political character of cyberformance the genre of digital performance that uses the Internet as a performance space The Ettheatre Project comprises a series of experimental cyberperformances aiming to reconsider the characteristics of theatre in the Internet age

*The Economics of the Popular Music Industry* C. Byun,2016-04-29 This Palgrave Pivot uses modeling from microeconomic theory and industrial organization to demonstrate how consumers and producers have responded to major changes in the music industry Byun examines the important role of technology in changing its structure particularly as new methods of creating and accessing music prove to be a double edged sword for creators and producers An underlying theme in the project is the question of how the business of music affects creativity and how artists continue to produce creative output in the face of business pressures the erosion of copyright enforcement and rampant online piracy In addition to being a useful resource for economists interested in the music industry this approachable Pivot is also ideal for business and music majors studying the effect of technology on their chosen fields

**The Philosophy of Disease** Benjamin Smart,2016-04-29 Disease is everywhere Everyone experiences disease everyone knows somebody who is or has been diseased and disease related stories hit the headlines on a regular basis Many important issues in the philosophy of disease however have received remarkably little attention from philosophical thinkers This book examines a number of important debates in the philosophy of medicine including what is disease and the roles and viability of concepts of causation in clinical medicine and epidemiology Where much of the existing literature targets conceptual analyses of health and disease this book provides the reader with an insight into these debates and develops plausible alternative accounts The author explores a range of related subjects discussing a host of interesting philosophical questions within clinical medicine pathology and epidemiology In the second part of the book the author examines the concepts of causation employed by clinicians and pathologists how one should classify diseases and whether the epidemiologist s models for inferring the causes of disease are all they re cracked up to be

*Zombie Talk* John Edgar Browning,David Castillo,David Schmid,David A. Reilly,2016-04-30 *Zombie Talk* offers a concise interdisciplinary introduction and deep analytical set of theoretical approaches to help readers understand the phenomenon of zombies in contemporary and modern culture With

essays that combine Humanities and Social Science methodologies the authors examine the zombie through an array of cultural products from different periods and geographical locations films ranging from White Zombie 1932 to the pioneering films of George Romero television shows like AMC's The Walking Dead to literary offerings such as Richard Matheson's I am Legend 1954 and Seth Grahame-Smith's Pride Prejudice and Zombies 2009 among others **Australian Women in**

**Advertising in the Twentieth Century** J. Dickenson, 2016-04-29 When did Australian women first enter the advertising industry The stereotypical advertising executive might be a pony tailed Ferrari driving youngish man but women have worked in Australian advertising agencies from the first years of the modern industry and today they comprise half of the industry's workforce Australian Women in Advertising in the Twentieth Century rescues these women from their obscurity By employing a broader definition of advertising than usual this study reveals the important role women have played in the development of the Australian advertising industry sheds light on women's struggle to reach the higher echelons of the industry and considers why the popular image of the advertising executive is at such variance from the reality The experiences of these remarkable women across a century of Australian advertising provide valuable information on the role of gender in the development of this ubiquitous industry as well as the encroachment of consumer culture A Formula for

Eradicating Racism Timothy McGettigan, Earl Smith, 2016-05-04 In this book Tim McGettigan and Earl Smith make the unprecedented argument that racism is a remediable form of suggestion induced sadism The authors explain in plain terms how societies like the USA construct racism and put forward a practical plan to eradicate racism in the USA and all over the world *Racism and Everyday Life* Andrew Smith, 2016-04-29 What does it mean to talk about everyday racism and why

should we do so Racism and Everyday Life brings together the sociologies of racism and everyday life in a new way in order to reflect on these questions Smith argues that racism and everyday life are not just act and context respectively but rather they are part of the making of each other Using a variety of historical and contemporary examples this book draws on the pioneering insights of W E B Du Bois and other writers in order to explore the interwoven relationship between racism and the everyday **Local Governance and Intermunicipal Cooperation** F. Teles, 2016-04-29 Territory and scale have been

some of the most relevant topics in recent political science but do we know enough about cooperation between local governments How we think about local government has changed significantly and requires us to be equipped with new epistemological gear considering more variables and social functions of local government than before For instance is intermunicipal cooperation a special arrangement The answer is certainly positive not as a consequence of its nature when compared to other alternatives of policy coordination and service delivery but because it captures almost every facet of the complexity of contemporary territorial governance Bringing relevant case studies previous research and available literature together this book will help researchers students and practitioners with these ideas The author provides comprehensive information about intermunicipal cooperation and identifies the main gaps in contemporary research The End of

Morality Richard Joyce, Richard Garner, 2018-12-18 According to the moral error theorist all moral judgments are mistaken. The world just doesn't contain the properties and relations necessary for these judgments to be true. But what should we actually do if we decided that we are in this radical and unsettling predicament that morality is just a widespread and heartfelt illusion? One suggestion is to eliminate all talk and thought of morality: abolitionism. Another is to carry on believing it anyway: conservatism. And yet another is to treat morality as a kind of convenient fiction: fictionalism. We tend to think of moral thinking as valuable and useful, e.g. for motivating cooperative behavior, but we can also recognize that it can be harmful, e.g. hindering compromise and even disastrous, e.g. inspiring support for militaristic propaganda. Would we be better off or worse off if we stopped basing decisions on moral considerations? This is a collection of twelve brand new chapters focused on a critical examination of the options available to the moral error theorist. After a general introduction outlining the topic, explaining key terminology and offering suggestions for further reading, the chapters address questions like: Is it true that the more that people are motivated by moral concerns, the more likely it is that society will be elitist, authoritarian and dishonest? Is an appeal to moral values a useful tool for helping resolve conflicts, or does it actually exacerbate conflicts? Would it even be possible to abolish morality from our thinking? If we were to accept a moral error theory, would it be feasible to carry on believing in morality in everyday contexts? Might moral discourse be usefully modeled on familiar metaphorical language where we can convey useful and important truths by uttering falsehoods? Does moral thinking support or undermine a commitment to feminist goals? What role do moral judgments play in addressing important decisions affecting climate change? **The End of Morality: Taking Moral Abolitionism Seriously** is the first book to thoroughly address these and other questions systematically, investigating the harms and benefits of moral thought and considering what the world might be like without morality.

**Paul Ricoeur's Moral Anthropology** Geoffrey Dierckxsen, 2017-12-20 Paul Ricoeur's *Moral Anthropology* is a guide for readers who are interested in Paul Ricoeur's thoughts on morals in general, bringing together the different aspects of what Geoffrey Dierckxsen understands as Ricoeur's moral anthropology. This anthropology addresses the question: what it means to be human, capable of participating in moral life. Dierckxsen argues that Ricoeur shows that this participation implies being a self, living a singular, lived existence with others and being responsible in institutions of justice. Through experiencing life, one comes to learn taking moral decisions and the reasons for moral life. The wager of Ricoeur's hermeneutical approach to moral anthropology is so, Dierckxsen argues, to understand moral life on the basis of the interpretation of lived existence rather than on the basis of cultural or natural patterns only. Like many contemporary moral theories in analytical philosophy, Ricoeur's moral anthropology is thus particularly timely in that it offers a critical argument against contemporary moral relativism and reductionism. By bringing together Ricoeur's moral anthropology and recent moral theories, this book offers a novel perspective on Ricoeur's already well-established moral theory. Dierckxsen moreover offers a critical perspective by arguing that we should revisit certain moral concepts in Ricoeur's moral anthropology and in

contemporary moral theories in analytical philosophy He evaluates certain concepts in Ric ur s work such as the concept of universal moral norms and how it stands against cultural differences in morals He moreover interrogates certain ideas of contemporary analytical philosophy such as the idea of cultural moral relativism and whether we can find a common morality across the cultural differences By placing Ric ur s ideas on moral life within the context of the contemporary scene of moral theory this book contributes well to Studies in the Thought of Paul Ric ur

Zuckerman,2020-09-15 A thoughtful perspective on humans capacity for moral behavior Kirkus Reviews A comprehensive introduction to religious skepticism Publishers Weekly In What It Means to Be Moral Why Religion Is Not Necessary for Living an Ethical Life Phil Zuckerman argues that morality does not come from God Rather it comes from us our brains our evolutionary past our ongoing cultural development our social experiences and our ability to reason reflect and be sensitive to the suffering of others By deconstructing religious arguments for God based morality and guiding readers through the premises and promises of secular morality Zuckerman argues that the major challenges facing the world today from global warming and growing inequality to religious support for unethical political policies to gun violence and terrorism are best approached from a nonreligious ethical framework In short we need to look to our fellow humans and within ourselves for moral progress and ethical action In this brilliant provocative and timely book Phil Zuckerman breaks down the myth that our morality comes from religion compellingly making the case that when it comes to the biggest challenges we face today a secular approach is the only truly moral one Ali A Rizvi author of The Atheist Muslim
