Mystical Languages Of Unsayng Mystical Languages Of Unsayng:

Mystical Languages of Unsayng Michael A. Sells, 1994-05-02 The subject of *Mystical Languages of Unsayng* is an important but neglected mode of mystical discourse apophasis which literally means speaking away Sometimes translated as negative theology apophatic discourse embraces the impossibility of naming something that is ineffable by continually turning back upon its own propositions and names In this close study of apophasis in Greek Christian and Islamic texts Michael Sells offers a sustained critical account of how apophatic language works the conventions logic and paradoxes it employs and the dilemmas encountered in any attempt to analyze it This book includes readings of the most rigorously apophatic texts of Plotinus John the Scot Eriugena Ibn Arabi Marguerite Porete and Meister Eckhart with comparative reference to important apophatic writers in the Jewish tradition such as Abraham Abulafia and Moses de Leon Sells reveals essential common features in the writings of these authors despite their wide ranging differences in era tradition and theology By showing how apophasis works as a mode of discourse rather than as a negative theology this work opens a rich heritage to reevaluation Sells demonstrates that the more radical claims of apophatic writers claims that critics have often dismissed as hyperbolic or condemned as pantheistic or nihilistic are vital to an adequate account of the mystical languages of unsaying This work also has important implications for the relationship of classical apophasis to contemporary languages of the unsayable Sells challenges many widely circulated characterizations of apophasis among deconstructionists as well as a number of common notions about medieval thought and gender relations in medieval mysticism

Christian Mysticism Dr Kevin Magill, Dr Louise Nelstrop, Mr Bradley B Onishi, 2013-06-28 This book introduces students to Christian mysticism and modern critical responses to it Christianity has a rich tradition of mystical theology that first emerged in the writings of the early church fathers and flourished during the Middle Ages Today Christian mysticism is increasingly recognised as an important Christian heritage relevant to today's spiritual seekers The book sets out to provide students and other interested readers with access to the main theoretical approaches to Christian mysticism including those propounded by William James Steven Katz Bernard McGinn Michael Sells Denys Turner and Caroline Walker Bynum It also explores postmodern re-readings of Christian mysticism by authors such as Jacques Derrida Jean Luc Marion and Jean Fran ois Lyotard The book first introduces students to the main themes that underpin Christian mysticism It then reflects on how modern critics have understood each of them demonstrating that stark delineation between the different theoretical approaches eventually collapses under the weight of the complex interaction between experience and knowledge that lies at the heart of Christian mysticism In doing so the book presents a deliberate challenge to a strictly perennialist reading of Christian mysticism Anyone even remotely familiar with Christian mysticism will know that renewed interest in Christian mystical writers has created a huge array of scholarship with which students of mysticism need to familiarise themselves This book outlines the various modern theoretical approaches in a manner easily accessible to a reader with little or no previous knowledge of this area and offers a philosophical theological introduction to Christian mystical writers beyond the patristic period important for the Latin Western Tradition

The Unity of Mystical Traditions Randall Studstill, 2018-08-14 This book argues that mystical doctrines and practices initiate parallel transformative processes in the consciousness of mystics This thesis is supported through a comparative analysis of Tibetan Buddhist Dzogchen rdzogs chen and the medieval German mysticism of Eckhart Suso and Tauler These traditions are interpreted using a system cybernetic model of consciousness This model provides a theoretical framework for assessing the cognitive effects of mystical doctrines and practices and showing how different doctrines and practices may nevertheless initiate common transformative processes This systems approach contributes to current philosophical discourse on mysticism by 1 making possible a precise analysis of the cognitive effects of mystical doctrines and practices and 2 reconciling mystical heterogeneity with the essential unity of mystical traditions

Apophysis and Pseudonymity in Dionysius the Areopagite Charles M. Stang, 2012-02-09 This book examines the writings of an early sixth century Christian mystical theologian who wrote under the name of a convert of the apostle Paul Dionysius the Areopagite and argues that the pseudonym and the corresponding influence of Paul are the crucial lens through which to read this influential corpus

A Companion to Marguerite Porete and The Mirror of Simple Souls Robert Stauffer, Wendy R. Terry, 2017-04-11 Even with growing popularity in the United States there existed no English language scholarly introduction to Marguerite Porete or her sole surviving work *Mirror of Simple Souls* until now The study of Marguerite and her work

touches on so many disciplines from religious and secular histories to theological and literary readings of her book that the scholarship had often been lost in the divides between the disciplines Our contributors are chosen from both sides of the Atlantic and from an array of disciplines in order to bridge this geographical and linguistic divide The interdisciplinary nature of the interest in Marguerite and the Mirror and the implications her book has on medieval scholarship make a collection such as this companion ideal Contributors are Marleen Cr Imke De Gier D vid Falvay Sean Field Genevi ve Hasenohr with Zan Kocher Jonathan Juilfs Zan Kocher Joanne Robinson Elizabeth Scarborough Robert Stauffer Wendy R Terry and Justine Trombley

The Corporeal Imagination Patricia Cox Miller, 2012-02-28 With few exceptions the scholarship on religion in late antiquity has emphasized its tendencies toward transcendence abstraction and spirit at the expense of matter In *The Corporeal Imagination* Patricia Cox Miller argues instead that ancient Christianity took a material turn between the fourth and seventh centuries During this period Miller contends there occurred a major shift in the ways in which the human being was oriented in relation to the divine a shift that reconfigured the relationship between materiality and meaning in a positive direction *The Corporeal Imagination* is a groundbreaking investigation into the theological poetics of material substance in late ancient Christian texts From hagiographies to literary descriptions of sacred paintings to treatises on relics and theurgy Miller examines a wide variety of ancient texts to reveal how Christian writers increasingly described the matter of the world as invested with divine power By appealing to the reader's sensory imagination Christian texts endowed phenomena like relics saints bodies in hagiography and saints presence in icons with a visual and tactile presence The book draws on a variety of contemporary theoretical models to elucidate the significance of all these materials in ancient religious life and imagination

Logic in Religious Discourse Andrew Schumann, 2013-05-02 Knocking on Heaven's Door is the oldest human dream that seems unrealized still Religious discourse does show the road but it requires a blind faith in return In this book logicians try to hear Heaven's Call and to analyze religious discourse As a result the notion of religious logic as a part of philosophical logic is introduced Its tasks are 1 to construct consistent logical systems formalizing religious reasoning that at first sight seems inconsistent this research is fulfilled within the limits of modal logic paraconsistent logic and many valued logic 2 to carry out an illocutionary analysis of religious discourse this research is fulfilled in frames of illocutionary logics and 3 to formalize

Ancient and Medieval logical theories used in the theology of an appropriate religion they could be studied within the limits of unconventional logics such as non monotonic logics non well founded logics etc

Guide to the Study of Ancient Magic David Frankfurter, 2019-03-19 In the midst of academic debates about the utility of the term magic and the cultural meaning of ancient words like *mageia* or *khesheph* this Guide to the Study of Ancient Magic seeks to advance the discussion by separating out three topics essential to the very idea of magic The three major sections of this volume address 1 indigenous terminologies for ambiguous or illicit ritual in antiquity 2 the ancient texts manuals and artifacts commonly designated magical or used to represent ancient magic and 3 a series of contexts from the written word to materiality itself to which the term magic might usefully pertain The individual essays in this volume cover most of Mediterranean and Near Eastern antiquity with essays by both established and emergent scholars of ancient religions In a burgeoning field of magic studies trying both to preserve and to justify critically the category itself this volume brings new clarity and provocative insights This will be an indispensable resource to all interested in magic in the Bible and the Ancient Near East ancient Greece and Rome Early Christianity and Judaism Egypt through the Christian period and also comparative and critical theory Contributors are Magali Bailliot Gideon Bohak Vronique Dasen Albert de Jong Jacco Dieleman Esther Eidinow David Frankfurter Fritz Graf Yuval Harari Naomi Janowitz Sarah Iles Johnston Roy D Kotansky Arpad M Nagy Daniel Schwemer Joseph E Sanzo Jacques van der Vliet Andrew Wilburn

Contemplative Prayer David Foster, 2015-05-07 A study of contemplative prayer in the context of contemporary discussions of religious experience and mysticism David Foster author of the bestselling *Reading with God* and *Deep Calls to Deep* Bloomsbury extends their discussion of contemplative prayer in terms of its philosophical framework Contrasting a traditional framework with one based on continental philosophy Foster explores a number of metaphysical and epistemological questions as well as the place of silence in a philosophy of language He defends traditional insights of the mystical tradition including its underlying metaphysical realism religious experience as awareness of God and the role of apophatic discourse in mysticism arguing that the sense of God's absence can be a threshold of prayer

The Future of Hope Miroslav Volf, William Henry Katerberg, 2004 Over the last three decades a major cultural shift has taken place in the attitudes of Western societies toward the future Modernity's eclipse by postmodernity is characterized in large part by the loss of hope for a future substantially better than the present Old optimism about human progress has given way to uncertainty and fear In this book scholars from various disciplines theology the social sciences and the humanities explore the move from a culture of optimism to a culture of ambiguity and they seek to infuse today's jaded language of hope with a new vitality The Future of Hope offers a powerful critique of today's stifling cultural climate and shows why the vision of hope central to Christian faith must be a basic component of any flourishing society The first section of the book sets the context with telling cultural criticism of modernity The second section focuses on affinities between premodern Christian visions of hope and twentieth century thought The final section of the book examines the

relationship between postmodern thought Christian tradition and biblical hope addressing how Christians in a postmodern world can best articulate their faith Written by truly profound thinkers these chapters are diverse in their content methodologies and temperament yet they are united by a deep engagement with both the Christian tradition and the larger cultural and intellectual climate in which we live and work The Future of Hope can thus be read not just as an attempt at retrieval of hope for today but as itself one small act of hope in an age when people too seldom take time to think critically and hopefully Contributors David Billings Robert Paul Doede Kevin L Hughes Paul Edward Hughes Daniel Johnson William Katerberg John Milbank Jurgen Moltmann James K A Smith Miroslav Volf Nicholas Wolterstorff **Rūmī and the**

Hermeneutics of Eroticism Mahdi Tourage, 2007-11-30 This is the first systematic examination of the esoteric significance of the bawdy tales and explicit sexual passages present in R m s d 1273 Mathnaw a masterpiece of medieval Perso Islamic mystical literature and theosophic teachings Using the relevant features of postmodern theories as strategic conceptual tools and drawing on the recent interpretations of medieval kabbalistic texts it is a fascinating examination of the link between the dynamics of eroticism and esotericism operative in R m s Mathnaw In some of these bawdy tales the phallus is used as an esoteric symbol The book concludes that these tales are used primarily to communicate esoteric secrets particularly when this communication is contemplated along gender lines mediated through erotic imagery or expressed in sexual terms

Becoming Whole Leslie Stein, 2012-05-01 In 1951 Carl Jung published what he considered the highest synthesis and exposition of the transformation of Self and the discovery of the divine in one of his latest and most difficult works Aion The equation s complexity and uncharacteristic elements of mysticism have caused it to fall by the wayside in traditional Jungian and psychological analysis No major work has tackled this fascinating concept until now Leslie Stein a disciple of noted Jungian analyst Rix Weaver here explores this groundbreaking equation to its fullest capacity Tracing the roots of Jung s research back to his influences in the world of the Kabbalah and Sufi mysticism and grounding the more esoteric philosophy toward the modern sense of identity Stein has produced both a rigorous work of scholarship on a major figure and a guide that challenges readers to reflect on our own truths *Dialectics and the Sublime in Underhill's Mysticism* Peter

Chong-Beng Gan, 2015-04-29 This book represents a study of Evelyn Underhill s premier work on mysticism using Hegel s dialectics and Kant s theory of the sublime as interpretive tools It especially focuses on two prominent features of Underhill s text the description of the mystical life as one permeated by an intense love between the mystic and infinite reality and the detailed delineation of stages of mystical development Given these two features the text lends itself to a construction of a valuable discourse predicated on dialecticism sublimity and mysticism The book also articulates a number of insights into the content and nature of the writings of Christian mystics **John Scottus Eriugena** Deirdre Carabine, 2000 This volume

provides a brief and accessible introduction to the 9th century philosopher and theologian John Scottus Eriugena perhaps the most important philosophical thinker to appear in Latin Christendom in the period between Augustine and Anselm Eriugena

Jimmy's Faith Christopher Hunt, 2024-12-03 A novel approach to understanding the work of James Baldwin and its transformative potential The relationship of James Baldwin's life and work to Black religion is in many ways complex and confounding What is he doing through his literary deployment of religious language and symbols Despite Baldwin's disavowal of Christianity in his youth he continued to engage the symbols and theology of Christianity in works such as *The Amen Corner* *Just Above My Head* and others With *Jimmy's Faith* author Christopher W Hunt shows how Baldwin's usage of those religious symbols both shifted their meaning and served as a way for him to build his own religious and spiritual vision Engaging Jos Esteban Muñoz's theory of disidentification as a queer practice of imagination and survival Hunt demonstrates the ways in which James Baldwin disidentifies with and queers Black Christian language and theology throughout his literary corpus Baldwin's vision is one in which queer sexuality signifies the depth of love's transforming possibilities the arts serve as the religious medium of knitting Black community together an agnostic and affective mysticism undermines Christian theological discourse androgyny troubles the gender binary and the Black child signifies the hope for a world made new In disidentifying with Christian symbols *Jimmy's Faith* reveals how Baldwin imagines both religion and the world otherwise offering a model of how we might do the same for our own communities and ourselves

Indiscretion Thomas A. Carlson, 1999-02-02 How can one think and name an inconceivable and ineffable God Christian mystics have approached the problem by speaking of God using negative language devices such as grammatical negation and the rhetoric of darkness or unknowing and their efforts have fascinated contemporary scholars In this strikingly original work Thomas A Carlson reinterprets premodern approaches to God's ineffability and postmodern approaches to the mystery of the human subject in light of one another The recent interest in mystical theological traditions Carlson argues is best understood in relation to contemporary philosophy's emphasis on the idea of human finitude and mortality Combining both historical research in theology from Pseudo Dionysius to Aquinas to Eckhart and contemporary philosophical analysis from Hegel and Nietzsche to Heidegger Derrida and Marion *Indiscretion* will interest philosophers theologians and other scholars concerned with the possibilities and limits of language surrounding both God and human subjectivity

Meister Eckhart and the Beguine Mystics Bernard McGinn, 1997-01-09 The great German mystic Meister Eckhart remains one of the most fascinating figures in Western thought Revived interest in Eckhart's mysticism has been matched and even surpassed by the study of the women mystics of the late 13th century This book argues that Eckhart's thought cannot be fully be understood until it is viewed against the background of the breakthroughs made by the women mystics who preceded him
