**Supplement**, 1979     **Reading Contemporary Black British and African American Women Writers** Jean

Wyatt, Sheldon George, 2020-01-28 Contemporary African American and Black British Women Writers Narrative Race Ethics brings together British and American scholars to explore how in texts by contemporary black women writers in the U S and Britain formal narrative techniques express new understandings of race or stimulate ethical thinking about race in a reader Taken together the essays also demonstrate that black women writers from both sides of the Atlantic borrow formal structures and literary techniques from one another to describe the workings of structural racism in the daily lives of black subjects and to provoke readers to think anew about race Narratology has only recently begun to use race as a category of narrative theory This collection seeks both to show the ethical effects of narrative form on individual readers and to foster reconceptualizations of narrative theory that account for the workings of race within literature and culture     [The Clock](#)

[Mirage](#) Joseph Mazur, 2020-04-14 A tour of clocks throughout the centuries from the sandglass to the telomere to reveal the physical biological and social nature of time What is time This question has fascinated philosophers mathematicians and scientists for thousands of years Why does time seem to speed up with age What is its connection with memory anticipation and sleep cycles Award winning author and mathematician Joseph Mazur provides an engaging exploration of how the understanding of time has evolved throughout human history and offers a compelling new vision submitting that time lives within us Our cells he notes have a temporal awareness guided by environmental cues in sync with patterns of social interaction Readers learn that as a consequence of time's personal nature a forty eight hour journey on the Space Shuttle can feel shorter than a six hour trip on the Soyuz capsule that the Amondawa of the Amazon do not have ages and that time speeds up with fever and slows down when we feel in danger With a narrative punctuated by personal stories of time's effects on truck drivers Olympic racers prisoners and clockmakers Mazur's journey is filled with fascinating insights into how our technologies our bodies and our attitudes can change our perceptions Ultimately time reveals itself as something that rides on the rhythms of our minds The Clock Mirage presents an innovative perspective that will force us to rethink our relationship with time and how best to use it     **The Art of Libation in Classical Athens** Milette Gaifman, 2018-01-01 This

handsome volume presents an innovative look at the imagery of libations the most commonly depicted ritual in ancient Greece and how it engaged viewers in religious performance In a libation liquid water wine milk oil or honey was poured from a vessel such as a jug or a bowl onto the ground an altar or another surface Libations were made on occasions like banquets sacrifices oath taking departures to war and visitations to tombs and their iconography provides essential insight

into religious and social life in 5th century BC Athens Scenes depicting the ritual often involved beholders directly a statue's gaze might establish the onlooker as a fellow participant or painted vases could draw parallels between human practices and acts of gods or heroes Beautifully illustrated with a broad range of examples including the Caryatids at the Acropolis the Parthenon Frieze Attic red figure pottery and funerary sculpture this important book demonstrates the power of Greek art to transcend the boundaries between visual representation and everyday experience **TechGnosis** Erik Davis, 2015-03-17

TechGnosis is a cult classic of media studies that straddles the line between academic discourse and popular culture it appeals to both those secular and spiritual to fans of cyberpunk and hacker literature and culture as much as new thought adherents and spiritual seekers How does our fascination with technology intersect with the religious imagination In TechGnosis a cult classic now updated and reissued with a new afterword Erik Davis argues that while the realms of the digital and the spiritual may seem worlds apart esoteric and religious impulses have in fact always permeated and sometimes inspired technological communication Davis uncovers startling connections between such seemingly disparate topics as electricity and alchemy online roleplaying games and religious and occult practices virtual reality and gnostic mythology programming languages and Kabbalah The final chapters address the apocalyptic dreams that haunt technology providing vital historical context as well as new ways to think about a future defined by the mutant intermingling of mind and machine nightmare and fantasy **Entering Night Country** Stephanie Brody, 2015-12-14

None of us will escape the experience of personal loss illness aging or mortality Yet psychoanalysis seems to shy away from a discussion of these core human experiences Existential vulnerability is painful and we all avoid this awareness in different ways However when analysts fail to explore the topic of mortality their own and their patients they may foreclose an important exploration and short change patient and therapist Entering Night Country focuses on the existential condition and explores how it penetrates professional lives analytic work and theoretical formulations Each chapter explores this topic shifting the lens from analytic process to include theoretical assumptions and professional communities Stephanie Brody shows how the analytic process is a journey no less profound than the epic journeys depicted in the classic literature of Homer and repeated in the patient's own heroic and painful stories Weaving literary references into the clinical experience of psychoanalysis Brody reveals the transformative power of the analytic process for the patient and for the analyst By relating the ancient past to our current struggles psychoanalyst and patient together are guided to a destination a life of meaning in the universe of possibilities Clinical vignettes and personal reflections intersect with motifs from the epic poems and fantasy fiction where the despair of loss and trauma do not extinguish the wish for change and the search for intimacy Entering Night Country highlights the common themes that arise for patient and analyst as any person entering an unknown territory It is intended for psychoanalysts psychoanalytically oriented psychotherapists and mental health clinicians It will also be accessible to those outside the clinical profession even to individuals who have little understanding of psychoanalysis **American Book**

our modern psyche This book looks at eternal themes such as love beauty death suicide dreams ancient Greek myths the Homeric heroes and the stories of Demeter Persephone Apollo and Hermes as they connect with themes of the modern psyche The contributors propose that that the link between them lies in the underlying archetypal patterns of human behaviour emotion image thought and memory Ancient Greece Modern Psyche Archetypes Evolving makes clear that an essential part of deciphering our dilemmas resides in a familiarity with Western civilization s oldest stories about our origins our suffering and the meaning or meaninglessness in life It will be of great interest to Jungian psychotherapists academics and students as well as scholars of classics and mythology
