Mythology Madness And Laughter Subjectivity In German Idealism:

Mythology, Madness, and Laughter Markus Gabriel, Slavoj Žižek, 2009-10-02 Mythology Madness and Laughter Subjectivity in German Idealism explores some long neglected but crucial themes in German idealism Markus Gabriel one of the most exciting young voices in contemporary philosophy and Slavoj Žižek the celebrated contemporary philosopher and cultural critic show how these themes impact on the problematic relations between being and appearance reflection and the absolute insight and ideology contingency and necessity subjectivity truth habit and freedom Engaging with three central figures of the German idealist movement Hegel Schelling and Fichte Gabriel and Žižek who here shows himself to be one of the most erudite and important scholars of German idealism ask how is it possible for Being to appear in reflection without falling back into traditional metaphysics By applying idealistic theories of reflection and concrete subjectivity including the problem of madness and everydayness in Hegel this hugely important book aims to reinvigorate a philosophy of finitude and contingency topics at the forefront of contemporary European philosophy MARKUS GABRIEL is Assistant Professor of Philosophy at the New School for Social Research NY He has published a number of books and journal articles in German including *Der Mensch im Mythos* De Gruyter 2006 and *Das Absolute und die Welt in Schellings Freiheitsschrift* Bonn University Press 2006

The Dimensions of Hegel's Dialectic Nectarios G. Limnatis, 2011-10-20 The Dimensions of Hegel's Dialectic examines the epistemological import of Hegelian dialectic in the widest sense In modern philosophy German idealism Hegel in particular is said to have made significant innovative steps in redefining the meaning scope and use of dialectic Indeed it is dialectic that makes up the very core of Hegel's position yet it is an area of his thought that is widely neglected by the available literature despite the increased interest in Hegel's philosophy in recent years This book brings together an international team of expert contributors in a long overdue discussion of Hegelian dialectic Twelve specially commissioned essays address the task of making sense and use of Hegel's dialectic which is fundamental not only for historical and hermeneutic reasons but also for pragmatic ones a satisfactory response to this challenge has the power to clarify Hegel's legacy in the current debate The essays situate the dialectic in the context of German idealism with a clear sighted elucidation of the problems that Hegel's dialectic is called upon to solve

The Metamorphoses of the Brain - Neurologisation and its Discontents Jan De Vos, 2016-05-04 What are we exactly when we are said to be our brain This question leads Jan De Vos to examine the different metamorphoses of the brain the educated brain the material brain the iconographic brain the sexual brain the celebrated brain and finally the political brain This first protracted and sustained argument on neurologisation which lays bare its lineage with psychologisation should be taken seriously by psychologists educationalists sociologists students of cultural studies policy makers and above all neuroscientists themselves

Heidegger's Ontology of Events James Bahoh, 2019-12-05 James Bahoh proposes a new methodology for

explaining Heidegger's philosophy that solves a set of interpretive problems in his difficult later work and led to substantial inconsistencies in the scholarship Bahoh reconstructs Heidegger's concept of event in relation to his theories of history truth difference ground and time space

Apocalyptic Political Theology Thomas Lynch, 2019-01-24 Hegel's philosophy of religion contains an implicit political theology When viewed in connection with his wider work on subjectivity history and politics this political theology is a resource for apocalyptic thinking In a world of climate change inequality oppressive gender roles and racism Hegel can be used to theorise the hope found in the end of that world Histories of apocalyptic thinking draw a line connecting the medieval prophet Joachim of Fiore and Marx This line passes through Hegel who transforms the relationship between philosophy and theology by philosophically employing theological concepts to critique the world Jacob Taubes provides an example of this Hegelian political theology weaving Christianity Judaism and philosophy to develop an apocalypticism that is not invested in the world Taubes awaits the end of the world knowing that apocalyptic destruction is also a form of creation Catherine Malabou discusses this relationship between destruction and creation in terms of plasticity Using plasticity to reformulate apocalypticism allows for a form of apocalyptic thinking that is immanent and materialist Together Hegel Taubes and Malabou provide the resources for thinking about why the world should end The resulting apocalyptic pessimism is not passive but requires an active refusal of the world

Schelling, Freud, and the Philosophical Foundations of Psychoanalysis Teresa Fenichel, 2018-09-14 Schelling Freud and the Philosophical Foundations of Psychoanalysis provides a long overdue dialogue between two seminal thinkers Schelling and Freud Through a sustained reading of the sublime mythology the uncanny and freedom this book provokes the reader to retrieve and revive the shared roots of philosophy and psychoanalysis Teresa Fenichel examines the philosophical basis for the concepts of the unconscious and for the nature of human freedom on which psychoanalysis rests Drawing on the work of German philosopher F W J Schelling the author explores how his philosophical understanding of human actions based as it was on the ideas of drives informed and helped shape Freud's work Fenichel also stresses the philosophical weight of Freudian psychoanalysis specifically in regards to the problem of freedom and argues that psychoanalysis complicates and reinforces Schelling's basic idea to know reality we must engage with the world empathetically and intimately This book also serves as an introduction to Schelling's thought arguing that his metaphysics particularly concerning the primacy of the unconscious and of fantasy can be read as a therapeutic endeavor Finally the book offers a deep rethinking of the action and nature of sublimation through both Freud's and Schelling's texts Fenichel suggests psychoanalytic therapy is self interpretation a recognition of our narratives as narratives without for that reason taking them any less seriously Schelling Freud and the Philosophical Foundations of Psychoanalysis will be of great interest to psychoanalysts and psychoanalytic psychotherapists as well as scholars of philosophy

Fields of Sense Markus Gabriel, 2015-01-14 Markus Gabriel proposes a radical form of ontological pluralism that divorces ontology from metaphysics understood as the most fundamental theory of absolutely

everything the world He argues that the concept of existence is incompatible with the exist **Contingency of Necessity**

 Daniel Whistler,Benjamin Berger,2020-10-29 F W J Schelling 1775 1854 stands alongside J G Fichte and G W F Hegel as one
 of the great philosophers of the German idealist tradition The Schelling Reader introduces students to Schelling s philosophy
 by guiding them through the first ever English language anthology of his key texts an anthology which showcases the vast
 array of his interests and concerns metaphysics epistemology philosophy of nature ethics aesthetics philosophy of religion
 and mythology and political philosophy The reader includes the most important passages from all of Schelling s major works
 as well as lesser known yet illuminating lectures and essays revealing a philosopher rigorously and boldly grappling with
 some of the most difficult philosophical problems for over six decades and constantly modifying and correcting his earlier
 thought in light of new insights Schelling s evolving philosophies have often presented formidable challenges to the teaching
 of his thought For the first time The Schelling Reader arranges readings from his work thematically so as to bring to the fore
 the basic continuity in his trajectory as well as the varied ways he tackles perennial problems Each of the twelve chapters
 includes sustained readings that span the whole of Schelling s career along with explanatory notes and an editorial
 introduction that introduces the main themes arguments and questions at stake in the text The Editors Introduction to the
 volume as a whole also provides important details on the context of Schelling s life and work to help students effectively
 engage with the material **Fictions** Markus Gabriel,2024-03-12 From ancient philosophy to contemporary theories of
 fiction it is a common practice to relegate illusory appearances to the realm of the non existent like shadows on the wall of
 Plato s cave Contrary to this traditional mode of drawing a metaphysical distinction between reality and fiction Markus
 Gabriel argues that the realm of the illusory fictional imaginary and conceptually indeterminate is as real as it gets Being in
 touch with reality need not and cannot require that we overcome appearances in order to grasp a meaningless reality which
 exists out there outside and maybe even beyond our minds Human mindedness Geist exists in the mode of fictions through
 which we achieve self consciousness This novel approach provides a fresh perspective on our existence as subjects who lead
 their lives in the light of self conceptions Fictions also develops a social ontology according to which the social unfolds as a
 constant renegotiation of dissent of different points of view onto the same reality Thus we cannot ever hope to ground human
 society in a fiction free realm of objective transactions However this does not mean that truth and reality are somehow
 outdated concepts On the contrary we need to enlarge our conception of reality so that it fully encompasses ourselves as
 specifically minded social animals This major new work of philosophy will be of interest to students and scholars throughout
 the humanities and to anyone interested in contemporary philosophy and social thought **Montreal 2010 - Facing**

Wirth,2015-05-05 The last two decades have seen a renaissance and reappraisal of Schelling s remarkable body of philosophical work moving beyond explications and historical study to begin thinking with and through Schelling exploring and developing the fundamental issues at stake in his thought and their contemporary relevance In this book Jason M Wirth seeks to engage Schelling s work concerning the philosophical problem of the relationship of time and the imagination calling this relationship Schelling s practice of the wild Focusing on the questions of nature art philosophical religion mythology and revelation and history Wirth argues that at the heart of Schelling s work is a radical philosophical and religious ecology He develops this theme not only through close readings of Schelling s texts but also by bringing them into dialogue with thinkers as diverse as Deleuze Nietzsche Melville Musil and

many others The book also features the first appearance in English translation of Schelling's famous letter to Eschenmayer regarding the Freedom essay Meaning and Embodiment Nicholas Mowad, 2019-08-01 Examines Hegel's insights regarding the complexity and significance of embodiment in human life identity and experience Meaning and Embodiment provides a detailed study of Hegel's anthropology to examine the place of corporeity or embodiment in human life identity and experience In Hegel's view to be human means in part to produce one's own spiritual embodiment in culture and habits Whereas for animals nature only has meaning relative to biological drives humans experience meaning in a way that transcends these limits and which allows for aesthetic appreciation of beauty and sublimity nihilistic feelings of meaninglessness and the complex and different systems of symbolic speech and action characterizing language and culture By elucidating the different forms of embodiment Nicholas Mowad shows how for Hegel we are embodied in several different ways at once as extended subject to physical chemical forces living and human Many difficult problems in philosophy and everyday experience come down to using the right concept of embodiment Mowad traces Hegel's account through the growth and development of the body gender and racial difference cycles of sleep and waking and sensibility and mental illness This book offers a lucid explanation of very difficult Hegelian concepts in clear language along with a passionate searing provocative and intelligent foray into questions of race and gender Lydia Moland Colby College Georges Bataille and Contemporary Thought Will Stronge, 2017-10-19 Georges Bataille's influence upon 20th century philosophy is hard to overstate His writing has transfixed his readers for decades exerting a powerful influence upon Foucault Blanchot and Derrida amongst many others Today Bataille continues to be an important reference for many of today's leading theorists such as Giorgio Agamben Roberto Esposito Jean Luc Nancy and Adrianna Caverero His work is a unique and enigmatic combination of mystical phenomenology politics anthropology and economic theory sometimes adopting the form of literature sometimes that of ontology This is the first book to take Bataille's ambitious and unfinished Accursed Share project as its thematic guide with individual contributors isolating themes concepts or sections from within the three volumes and taking them in different directions Therefore as well as providing readings of Bataille's key concepts such as animality sovereignty catastrophe and the sacred this collection aims to explore new terrain and new theoretical problems Georges Bataille and Contemporary Thought acts simultaneously as a companion to Bataille's three volume secular theodicy and as a laboratory for new syntheses within his thought *Does the Internet Have an Unconscious?* Clint Burnham, 2018-05-31 Does the Internet Have an Unconscious is both an introduction to the work of Slavoj Žižek and an investigation into how his work can be used to think about the digital present Clint Burnham uniquely combines the German idealism Lacanian psychoanalysis and Marxist materialism found in Žižek's thought to understand how the Internet social and new media and digital cultural forms work in our lives and how their failure to work structures our pathologies and fantasies He suggests that our failure to properly understand the digital is due to our lack of recognition of its political aesthetic and psychosexual elements Mixing

autobiographical passages with critical analysis Burnham situates a i ekian theory of digital culture in the lived human body

Reason After Its Eclipse Martin Jay, 2016-04-21 Tackles a question as old as Plato and still pressing today What is reason and what roles does and should it have in human endeavor The eminent intellectual historian Martin Jay surveys Western ideas of reason particularly in German philosophy from Kant to Habermas [The New Materialism](#) Geoff Pfeifer, 2015-02-11 Alain Badiou and Slavoj i ek have become two of the dominant voices in contemporary philosophy and critical theory In this book Geoff Pfeifer offers an in depth look at their respective views Using Louis Althusser s materialism as a starting point which as Pfeifer shows was built partially as a response to the Marxism of the Parti Communiste Fran ais and partially in dialogue with other philosophical movements and intellectual currents of its times the book looks at the differing ways in which both Badiou s and i ek s work attempt to respond to issues that arise within the Althusserian edifice Pfeifer argues here that ultimately i ek s materialism succeeds in responding to these issues in ways that Badiou s does not In building this argument Pfeifer engages not only with the work of Althusser Badiou and i ek and their intellectual backgrounds but also with much of the contemporary scholarship surrounding these thinkers As such Pfeifer s book is an important addition to the ongoing debates within contemporary critical theory **Thinking Catherine Malabou** Thomas Wormald, Isabell

Dahms, 2018-03-28 This volume contributes to the growing body of literature exploring the work of contemporary French philosopher Catherine Malabou Through its fifteen contributions including two previously untranslated essays by Malabou the volume explores the various ways in which Malabou s thought both performs and furnishes resources for the negotiation of philosophy s attachment and detachment from itself and other disciplines What kind of interaction can philosophy have with either science or politics without conquering them How does one carry out philosophy while subverting it changing it directing it on or opening it up to different pathways The chapters explore the detachment of Malabou from her own philosophical training in deconstruction the theme of habit and the question of new attachments detachments through the relation of Malabou s thought and science and the detachments that transpire through philosophy s confrontation with politics In order to have a future philosophy must detach from its own tradition and passionately confront questions of race gender and colonialism
