Metaphysics The Creation Of Hierarchy Interventions:

Metaphysics Adrian Pabst, 2012-05-04 This book does nothing less than to set new standards in combining philosophical with political theology Pabst's argument about rationality has the potential to change debates in philosophy politics and religion from the foreword This comprehensive and detailed study of individuation reveals the theological nature of metaphysics Adrian Pabst argues that ancient and modern conceptions of being or individual substance fail to account for the ontological relations that bind beings to each other and to God their source On the basis of a genealogical account of rival theories of creation and individuation from Plato to postmodernism Pabst proposes that the Christian Neo Platonic fusion of biblical revelation with Greco Roman philosophy fulfills and surpasses all other ontologies and conceptions of individuality

Liturgy, Theurgy, and Active Participation Kjetil Kringlebotten, 2023-09-08 Providing a metaphysical grounding for liturgical participation this book argues that active participation in the liturgy must be understood principally as our participation in God's act particularly in the act of Christ and only secondarily as our ritual involvement Utilizing Neoplatonist philosophy Kjetil Kringlebotten proposes that this should be understood in terms of theurgy which is the human participation in divine action which finds its consummation in the incarnation of Christ Without the incarnation all acts will remain extrinsic and imposed but acts can become real and intrinsic precisely because the incarnation makes possible true union with the divine a metaphysical union in distinction without confusion because this union is not extrinsic Through union with Christ as the one common focus of the divine human relation we can have true union with God and may offer true worship In order to make sense of active participation then we need to understand theology in theurgic terms where theurgy is understood not as a mechanical coercion of God but as a participation in His act in creation and through Christ as the true theurgist the master theurgist Whose work transforms our act and the liturgy

Piers Plowman and the Poetics of Enigma Curtis A. Gruenler, 2017-04-30 In this book Curtis Gruenler proposes that the concept of the enigmatic latent in a wide range of medieval thinking about literature can help us better understand in medieval terms much of the era's most enduring literature from the riddles of the Anglo Saxon bishop Aldhelm to the great vernacular works of Dante Chaucer Julian of Norwich and above all Langland's Piers Plowman Riddles rhetoric and theology the three fields of meaning of aenigma in medieval Latin map a way of thinking about reading and writing obscure literature that was widely shared across the Middle Ages The poetics of enigma links inquiry about language by theologians with theologically ambitious literature Each sense of enigma brings out an aspect of this poetics The playfulness of riddling both oral and literate was joined to a Christian vision of literature by Aldhelm and the Old English riddles of the Exeter Book Defined in rhetoric as an obscure allegory enigma was condemned by classical authorities but resurrected under the influence of Augustine as an aid to contemplation Its theological significance follows from a favorite biblical verse among medieval theologians We see now through a mirror in an enigma then face to face 1 Cor 13 12 Along with other examples of the poetics of enigma Piers

Plowman can be seen as a culmination of centuries of reflection on the importance of obscure language for knowing and participating in endless mysteries of divinity and humanity and a bridge to the importance of the enigmatic in modern literature. This book will be especially useful for scholars and undergraduate students interested in medieval European literature, literary theory, and contemplative theology.

Sanctum Sanctorum Justin Mandela Roberts, 2019-11-11. This book seeks to answer the question: What is holiness? What do we talk about when we talk about holiness? We might describe many things as holy, but as Socrates says, what is the essential aspect by which all holy acts are holy? Sanctum Sanctorum gives an account of the holy from within the Christian participatory tradition and argues that holiness is included in a special category of divine names that Christian metaphysics calls transcendentals, which are five: being, one, truth, goodness, and beauty. Moreover, holiness stands in a hierarchical relationship to the other five transcendentals as the culmination or concentration of the rest. Only by understanding holiness as the head of the transcendentals as the transcendental can one account for all the complexity the idea of the holy conjures. Therefore, holiness is the transcendental of the transcendentals. It adds the aspect of reverence to existence and as such it is constituted by the formula *sanctum sanctorum*, Holy of holies, which extends from the divine nature through the triune life to all creation.

Radix Naturalis Craig Cramm, 2020-10-30. The substance of this present work is liberation semiology. The world's own principle is love, *agape*. Our fellow creatures are co-symbols of emancipation from human violence. Creation is not as influential modern thinkers envision: mere material, mere nature, to commodify and dominate for the freedom of an exclusive constituency of our species. The ecological crisis emerges from a tragic misfit between experiments with secular sovereignty and the continuance of Christian historicity. Either the Christian form of life of time is replaced, revealing a new ecological worldview, or we revive Christian sovereignty as a creative fit with the actuality of Christian historicity. This work wagers on the latter. Christian civilization is coextensive with ecological civilization.

The Gift of Seeing J. Alexander Rutherford, 2021-09-24. Throughout the history of the Church, Christian theology has been waged on the battlefield of ontology. Ontology touches on nearly every aspect of intellectual engagement, and so our conclusions in this area are far-reaching. Ontology is usually considered the study of being or reality. Yet even this definition presupposes a non-Christian view of reality. Rather, ontology investigates the connection between our thoughts and reality, between what we believe and truth, and between language and the things to which it refers. The Bible has much to say on these topics; retrieving a Biblical perspective on these matters is essential if we are going to rightly understand theology, the Bible, and the world we live in. We will see that only the Bible can offer a coherent vision of reality and a way of appropriately understanding God, history, and the world around us.

God's Gifts for the Christian Life — Part 1 J. Alexander Rutherford, 2021-11-05. How are Christians to think about the intellectual tasks that make up everyday life in the modern world? It is clear we are not to do so as the world does, but what does it look like to engage Christianly in our thinking? In the first part of the series *God's Gifts for the Christian Life*, J. Alexander Rutherford shows how the Bible equips us to

confidently engage in the interpretation of and engagement with the Word of God and the world he has created In God s rich mercy he has enabled us to know him his word and his world In a world where it is preposterous and arrogant to claim to know anything certainly we are in desperate need of renewed foundations In God s Gifts for the Christian Life see some of the ways that God through his limitless power has made available to us everything necessary for life and godliness 2 Peter 1

Davis,Wolfgang Dietrich,Bettina Scholdan,2017-07-28 International intervention on humanitarian grounds has been a contentious issue for decades First it pits the principle of state sovereignty against claims of universal human rights Second the motivations of intervening states may be open to question when avowals of moral action are arguably the fig leaf covering an assertion of power for political advantage These questions have been salient in the context of the Balkan and African wars and U S policy in the Middle East This volume undertakes a serious systematic and broadly international review of the issues

collection of essays is a significant scholarly contribution to angelology centred on the function and significance of angels in medieval speculation and its history The unifying theme is that of the role of angels in philosophical inquiry where each contribution represents a case study in which the angelic model is seen to motivate developments in specific areas and periods of medieval philosophical thought

Thought and Faith in the Philosophy of Hegel J.E. Walker, 2012-12-06 The purpose of this collection of papers is to introduce English speaking philosophers and theologians to something of the variety of the contemporary debate about the religious relevance of Hegel's thought It is published in the hope that it will appeal not only to specialised students of Hegel's Philosophy of Religion but to a wide audience of scholars interested in Hegel's thought as a whole The volume grew out of the 1987 Oxford conference on Thought and Faith in the Philosophy of Hegel but has since developed beyond the confines of the original conference programme The programme of the conference consisted of five major papers on different aspects of Hegel's religious thought and its reception followed by a somewhat shorter commentary delivered by another scholar in the same field This basic format has been retained but a number of the commentaries have been extended or rewritten and an entirely new piece by Kurt Meist has been commissioned for the purpose of this collection The volume includes studies of the Lectures on the Philosophy of Religion and the Phenomenology as well as pieces dealing with the theological relevance of Hegel's philosophy of history and Kierkegaard's attack on Hegel It concludes with an examination of the relevance of Hegel's doctrine of absolute Spirit to the modern defence of his philosophy as a whole

Christianity, Otherization, and Contemporary Politics Roberto E. Alejandro, 2019-11-06 In Christianity Otherization and Contemporary Politics Roberto E Alejandro argues that the identity politics of the American far left follow an identity paradigm nurtured in our intellectual history by early Christian thinkers such as Clement of Alexandria Origen of Alexandria and Eusebius of Caesarea who all claimed that a form of wokeness gave them special access to truth and thereby an exclusive right to speak it At one time this argument was a strike at power but once mixed with power it became a moral justification for violence against non Christians Alejandro warns those engaged in political practice to beware the way our intellectual history steeped in theological propositions can operate silently to steer us towards reinforcing problems we intended to resist

An Anthropology of the Qur'an Ahmed Achrafi, 2021-11-29 This book presents an anthropological study of the Qur'an offering an unprecedented challenge to some of the epistemological and metaphysical assumptions of the tawdic discourses Combining primary textual materials and anthropological analysis this book examines transcendence as a core principle of the Qur'an uniquely signified in the divine name al Qudd's the Holy It shows how the tawdic representations of Allah constitute an inversion of this attribute examines how this inversion has been conceived authorized and maintained and demonstrates how it has affected Islamic thinking and practices especially as relates to authority This book also explores how a return to the Qur'anic primacy of God's otherness as al Qudd's can influence Islamic thinking and practices moving forward Therefore it will be highly useful to scholars of Islamic Studies
