## **Metaphor Reexamined A Non Aristotelian Perspective:**

**Metaphor Reexamined** Liselotte Gumpel, 1984 Breaking away from the traditional neo Aristotelian view of metaphor Liselotte Gumpel s ambitious study offers a new non Aristotelian approach based on the phenomenological semantics of Roman Ingarden and the semiotics of Charles S Peirce The author seeks to grasp the meaning of metaphor through an exhaustive exploration of meaning in language from its acquisition by young speakers to its repeated origination in sound when spoken and in the visual sign when written She identifies the fundamental semantic operations that differentiate literal from literary use of language Next metaphor is examined in all of its semantic idiosyncrasies Gumpel s theory culminates in the development of a functional or structural metaphor that can neither disappear nor die Applying the theory Gumpel presents several textual analyses relating the categories of argument dicent and rheme to the use of metaphor by Brecht Dickinson and Celan A final section provides an incisive critique of theories of metaphor from Aristotle to the present

**Bibliography of Semiotics, 1975-1985** ,1986-01-01 This bibliography of semiotic studies covering the years 1975 1985 impressively reveals the world wide intensification in the field During this decade national semiotic societies have been founded all over the world a great number of international national and local semiotic conferences have taken place the number of periodicals and book series devoted to semiotics has increased as has the number of books and dissertations in the field This bibliography is the result of a dedicated effort to approach complete coverage **Metaphor II** ,1990-01-01 Metaphor though not now the scholarly mania it once was remains a topic of great interest in many disciplines albeit with interesting shifts in emphasis Warren Shibles Metaphor An Annotated Bibliography and History Bloomington Ind 1971 recorded the initial interest Then Metaphor A Bibliography of Post 1970 Publications published by John Benjamins continued the record through the mania years up to 1985 when writings proliferated as metaphor was seen to be a fundamental category in human thought and language Five years later there is a need for a report on the newest thinking and tendencies in the field This need is fulfilled by Metaphor II which offers a comprehensive view of information which would otherwise remain scattered throughout a numbing plethora of resources including many sometimes hard to find publications from Eastern Europe Metaphor II systematically collects references of books articles and papers published between 1985 and May 1990 and includes for completeness corrections and additions to the earlier bibliographies Abstracts are given for many of the titles while four indices disciplines semantic fields metaphor theory and names multiply the number of access points to the information The Expression of the Inexpressible in Eugenio Montale's Poetry Clodagh J. Brook, 2002 It is impossible to say just what I mean Prufrock s frustration in Eliot s celebrated poem underlines the pessimistic view of language at the heart of much Modernist poetry Locating the greatest Italian poet of the twentieth century Eugenio Montale firmly within European Modernism this book examines the struggle with language that is central to his work What can a poet do when words fail him Does he put down his pen retreat into silence Does he seek instead to push language towards its limits and if

so what tools can he employ What part does metaphor the via negativa allusive or understated writing have in this process These are just some of the issues that Clodagh J Brook seeks to address In its unravelling of the inexpressibility paradox her book offers a new reading of Montale s early verse and reveals how in articles and metapoetic comments Montale gives us insights into both his poetics and the whole process of expression

**The Semantics of Polysemy** Nick Riemer, 2008-08-22 This book addressed primarily to students and researchers in semantics cognitive linguistics English and Australian languages is a comparative study of the polysemy patterns displayed by percussion impact hitting verbs in English and Warlpiri Pama Nyungan Central Australia The opening chapters develop a novel theoretical orientation for the study of polysemy via a close examination of two theoretical traditions under the broader cognitivist umbrella Langackerian and Lakovian Cognitive Semantics and Wierzbickian Natural Semantic Metalanguage Arguments are offered which problematize attempts in these traditions to ground the analysis of meaning either in cognitive or neurological reality or in the existence of universal synonymy relations within the lexicon Instead an interpretative rather than a scientific construal of linguistic theorizing is sketched in the context of a close examination of certain key issues in the contemporary study of polysemy such as sense individuation the role of reference in linguistic categorization and the demarcation between metaphor and metonymy The later chapters present a detailed typology of the polysemous senses of English and Warlpiri percussion impact or P I verbs based on a diachronically deep corpus of dictionary citations from Middle to contemporary English and on a large corpus of Warlpiri citations Limited to the operations of metaphor and of three categories of metonymy this typology posits just four types of basic relation between extended and core meanings As a result the phenomenon of polysemy and semantic extension emerges as amenable to strikingly concise description

**Metaphor and Moral Experience** Alison E. Denham, 2000 A E Denham examines the parallels between moral and metaphorical discourse and the ways in which our engagement with literary art and metaphorical discourse in particular informs our moral beliefs She suggests that there are three ways in which one s

beliefs can be improved if more of them are true if more of them are warranted or justified or if the warrant or justification for some of them is strengthened So she considers whether and how such improvements can be made to moral beliefs and what role metaphor can play It is an integral aim of the work to discern to what extent moral and metaphorical discourse deserve to be regarded as cognitive at all This involves investigating to what extent such discourses are capable of truth or falsehood warrant or justification and how it is that we understand moral judgements and metaphorical expressions This investigation is founded on an account of the nature of value and of our experience of value Metaphor and Moral Experience offers a fresh view of the nature of the moral and the metaphorical and thus throws light on the relations between art and morality and on our understanding of both

Metaphors and Action Schemes Robert L. Schwarz, 1997 All our abstract ideas are based on metaphors and action schemes Jean Piaget did voluminous research on how thought develops in children through assimilation of action schemes George Lakoff and Mark Johnson have done pioneering work on metaphors and action schemes in everyday thinking This book builds on those foundations looking at the role played by metaphors and action schemes in the history of ideas The author begins his argument by taking a critical look at the philosophy of metaphor from Aristotle to the present While he sees metaphor as simply conceiving one thing in terms of another he points out that this is an inexhaustible process because the context in which the process takes place is always changing Change opens up new possibilities of similarity Thus the metaphor is an open door into a space of infinite possibilities

Pragmatism and the Forms of Sense Robert E. Innis, 2010-11-01 Making sense of the world around us is a process involving both semiotic and material mediation the use of signs and sign systems preeminently language and various kinds of tools technics As we use them we experience them subjectively as extensions of our bodily selves and objectively as instruments for accessing the world with which we interact Emphasizing this bipolar nature of language and technics understood as intertwined forms of sense Robert Innis studies the multiple ways in which they are rooted in and transform human perceptual structures in both their individual and social dimensions The book foregrounds and is organized around the notion of semiotic embodiment Language and technics are viewed as probes upon which we rely in which we are embodied and that themselves embody and structure our primary modes of encountering the world While making an important substantive contribution to present debates about the biasing of perception by language and technics Innis also seeks to provide a methodological model of how complementary analytical

resources from American pragmatist and various European traditions can be deployed fruitfully in the pursuit of new insights into the phenomenon of meaning making

The Postmodern Bible George Aichele, Fred W. Burnett, Robert M. Fowler, David Jobling, Tina Pippin, Wilhelm Wuellner, Bible and Culture Collective, 1995-01-01 The burgeoning use of modern literary theory and cultural criticism in recent biblical studies has led to stimulating but often bewildering new readings of the Bible This book argued from a perspective shaped by postmodernism is at once an accessible guide to and an engagement with various methods theories and critical practices transforming biblical scholarship

today Written by a collective of cutting edge scholars with each page the work of multiple hands The Postmodern Bible deliberately breaks with the individualist model of authorship that has traditionally dominated scholarship in the humanities and is itself an illustration of the postmodern transformation of biblical studies for which it argues The book introduces illustrates and critiques seven prominent strategies of reading Several of these interpretive strategies rhetorical criticism structuralism and narratology reader response criticism and feminist criticism have been instrumental in the transformation of biblical studies up to now Many feminist and womanist criticism ideological criticism poststructuralism and psychoanalytic criticism hold promise for the continued transformation of these studies in the future Focusing on readings from both the Hebrew Bible and the New Testament this volume illuminates the current multidisciplinary debates emerging from postmodernism by exposing the still highly contested epistemological political and ethical positions in the field of biblical studies

*Ingardeniana II* Hans H. Rudnick, 2012-12-06 This Ingardenia volume is the second in the *Analecta Husserliana* series that is entirely devoted to the phenomenology of Roman Ingarden The first was volume IV 1976 Twenty years after Ingarden's death this volume demonstrates that the Polish phenomenologist's contribution to philosophy and literary scholarship has received world wide attention His ideas have proven especially fruitful for the definition of the structure of the literary work of art and the subsequent recognition of its characteristic features Of all the early phenomenologists who were students of Husserl it is Ingarden whose work has faithfully pursued the original tenet that language holds the essence of the life world in readiness *bereit halten* To investigate this premise with the rigor of a science as Husserl had envisioned for phenomenology was Ingarden's life work That Ingarden did not quite reach his ambitious goal does not diminish his unquestionable achievement The understanding of the nature of the literary work of art has increased enormously because of his analyses and aesthetics The Polish phenomenologist investigated above all the work of art as a structure of necessary components which define and determine its nature That the artistic ingredient was shortchanged under those conditions should not be surprising particularly since Ingarden usually kept a purist's philosophical distance from the concrete detail of the material under consideration He was not concerned with individual works of art but with the principle that was shared by all of them as the defining feature of their being
