Not only will this book offer insight into the many reporting tools currently available for GP, it will also offer a unique perspective on how each reporting tool can be used to meet specific challenges faced by your organization. Errol Schoenfish, a member of the Microsoft Dynamics community for over 24 years, *Microsoft Dynamics GP 2010* is a sophisticated Enterprise Resource Planning (ERP) system with a multitude of features and options. Microsoft Dynamics GP enables you to create and manage a variety of reports that help small and mid-size businesses effectively manage their financial and operational data. This book will show you how to create and manage reports, know what tools to use and when, how to use them, and where to find the data based on how it's being entered into the system with Dynamics GP. This book will empower you with the tools and reports necessary to use Dynamics GP data in making key business decisions. The book addresses the many challenges and frustrations a company may face when preparing to build new reports. Then it moves on to explain how to find your data in the GP system and company databases. The book then dives deep into topics such as SmartLists, SL Builder, and Excel Report Builder, Report Writer, SSRS Report Library, and Analysis Cubes Design and Management Reporter, amongst others. With this knowledge in hand, you will be capable of selecting the most effective tool for the current reporting environment. Create and manage business reports as
