

# How Migration and Poverty relate to each other?

01

This relationship is bidirectional.

Poverty can reduce or prevent migration

Migration can reduce or prevent poverty

Let's understand this better

Migration can be a way out of poverty

Migration can serve as a way out of poverty when people move in search of better social and economic opportunities

Some migration causes or deepens poverty

Forced migration or migration on adverse terms, such as bonded labour, could be a route to extreme poverty.

Poverty inhibits international migration

People living in extreme poverty are more likely to migrate within their countries of origin or to other low-and-middle income countries (LMICs) where prospects of poverty reduction may be lower.

Poverty can prevent migration

Migration requires financial, social, and human capital resources. People experiencing poverty may aspire to move but lack the capacity to do so.

02

Busting the myths

MYTH 1

Only people experiencing poverty or adversity migrate

In 2020

2/3 of international migrants were migrant workers

Only

3.6%

are from low-income countries

This figure reveals that a big portion of people moving for work are from middle- or high-income countries.

MYTH 2

Europe and North America are destinations for most refugees

In 2020

3.4 m

refugees migrated to the Islamic Republic of Iran and Turkey each, largest populations worldwide.

Germany, France, and the UK

Germany was third with 2.8 million, followed by Colombia with slightly less than 2.8 million.

Pakistan hosted 2.3 million refugees.

MYTH 3

Refugees make up the largest number of migrants

In 2020

59.1 m

people had migrated internally within their own countries.

There were an estimated

27.1 m

refugees globally making them the smallest share of international migrants.

MYTH 4

Intra-region migration is minimal

In 2020

Around

1/3 of all international migrants

moved within their region of origin, with Southern Africa having the largest share of intra-regional migration.

Europe

63%

of all cross-border migration is from other European countries.

03

Knowledge Gap

Lack of high-quality data in this area of extreme poverty research.

Focus is often on international migration when international migration is likely for greater and strongly linked to poverty.

Lack of focus on intra-region migration (from one LMIC country to another).

Challenges faced in estimating trends in migration due to competing definitions of who counts as a migrant, and underreporting of irregular migration.

Focus on research that could narrow these knowledge gaps will help make better policy decisions around poverty and migration.
