Organizational Leadership Foundations And Practices For Christians:

Organizational Leadership Jack Burns, John R. Shoup, Donald C. Simmons Jr., 2014-05-16 This comprehensive text for Christians on organizational leadership provides theological foundations while tracing the historic roots of management organization and leadership theories All of this leads to five essential challenges and practices communication negotiation decision making financial stewardship and personal development **The Kenotic Organization** Brian E. Ruffner, 2023-01-25 Although organizations frequently proclaim the desire for change renewal and transformation few ever fully embrace those ideas failing to rise above more than mere mediocrity and never realizing even a fraction of their true potential Certainly many pontificate on the nature of organizations as they live and breathe so to speak yet few question how the organization ought to be This ought belies the existential and ethical dimensions of organizing and as such points to a discipline not often associated with the organizational realm theology To this end the concept of the kenotic organization offers a much needed antidote to the syndrome described above Drawing on the divine Trinitarian kenosis observed in the creation event and witnessed in the Incarnation the simultaneous actions of self limiting and pouring out inform the organizational cause and expose a deeply entangled organizational mesh enveloping the entire cosmos which can serve as a catalyst to excite preferred organizational behaviors It is in fact the humility of Trinitarian kenosis the willingness to withdraw but also at once pour out the individual essence that generates the thrust necessary to escape the gravitational pull of convention which typical inhibits organizational flourishing **Modern Metaphors of Christian Leadership** Joshua D. Henson, 2020-01-11 This book explores contemporary metaphors of leadership from a biblical or church historical perspective It seeks to understand the cultural social and organizational metaphors from the Bible and the implications for contemporary organizations Addressing issues such as communication mentorship administration motivation change management education and coaching the authors explore concepts related to both for profit and not for profit organizations This book will be a valuable addition to the leadership literature in showing how biblical leadership principles can be used in contemporary organizations **Biblical Servant Leadership** Steven Crowther, 2018-06-13 This book explores the concepts from Scripture for Servant leadership and compare these findings with contemporary models of servant leadership It is an examination of Christian leadership for the contemporary world in its global and increasing secular context Leadership studies typically view leadership externally from the results This is a good beginning but leadership needs to also view the inside of leadership in the person of the leader Scripture is uniquely qualified in this area since its first concern is the person who leads not just in leadership behaviors The author uses examples from both the Old and New Testament to establish a new shepherd model of leadership that moves beyond the servant mode to the mode of caring direction This model will provide scholars and researchers as well as leaders themselves with a way of leading that overcomes negative forms of leadership which lead to failure **Rooted Leadership** John Johnson, 2022-06-14 Behind many of the challenges facing us

today is a failure of leadership This is not a new problem Yearning for wise guidance and effective authority is a perennial human longing We need leaders who are credible competent and committed But many leaders seem to be caught up even consumed with their own power and agendas Some see the leadership crisis as an intellectual problem believing we lack a clear theory of leadership Others view the breakdown of leadership as a result of increasing deficiency in moral character Most leadership books today revolve around the concepts of motivation inspiration empowerment and teamwork Helpful as these themes might be they miss something more fundamental Leadership needs a theological foundation that will be useful for shaping the undergirding principles and evaluating current leadership theories and practices We need to view leadership from the vantage point of God In *Rooted Leadership* John E Johnson explores how Christian theology provides an overarching leadership framework and applies that theory to leadership practices Spiritual reflection guided by scripture points us to the very center of leadership God and the purpose of leadership that we might display his glory All the best forms of leading take their cues from who God is his purposes and his ways of working with people that he has progressively revealed Building on three decades of research study and experience as a global leader Johnson surveys the landscape of contemporary leadership theory unpacks the assumptions and beliefs that underly current trends and responds by offering a robust approach to leadership founded on the character work and words of God

Pauline Theology of Church Leadership Andrew D. Clarke, 2008-01-29 Scholarly studies consider Paul's views on leadership tend to fall into one of three camps 1 the historical development view which in large measure identifies developments in church practice with developments in Pauline and deuterio Pauline ecclesiology 2 the synchronic historical reconstruction typically making use of Graeco Roman social context sources or social scientific modelling focusing on a single congregation and sometimes distinguishing between the situation to which Paul was responding and the pattern he sought to impose and 3 the theological hermeneutical analysis identifying Paul's particular approach to power and authority often independently of any detailed reconstruction of the situations to which Paul was responding Andrew Clarke has explored in an earlier work *Serve the Community of the Church* Eerdmans 2000 the distinctive local and historical situations in the various Pauline communities and concluded that there is no evidence that they organised themselves according to a common set of governmental structures which clearly developed with the passage of time Rather each community was influenced by its own localized social and cultural context The present project builds on this and necessarily focuses on leadership style rather than church order It seeks to recover from Paul's critical responses his generic ethos of church leadership including the ideal qualities characteristics and task of leaders and the nature of appropriate interaction and engagement with church members In the light of current theoretical discussions about power and gender the study focuses particularly on Paul's attitude towards hierarchy egalitarianism authority responsibility and privilege
