Organization Level Project Management Maturity Model Opm3 :

Project Management Maturity Model Dr. Ashutosh Karnatak, 2023-07-11 Projects have always been an exciting professional field due to the unique factor of novelty and variableness which has aptly led to the discipline of Project Management. From time immemorial Projects have been undertaken and human civilization has emerged with great creativity, precision and finesse. The world's wonders like the Eiffel Tower, Pyramids of Egypt, Taj Mahal, GT Road are some of the historical testimonies of Projects. But these projects were devoid of time cost, which in the present context are the significant aspect of any project. High performing organizations show a high level of alignment between Organizational Strategy and Projects. In the Indian context, around 50% of infrastructure projects have time and cost overruns. Most organizations are deaf to timely resolution of issues, contractual disputes which lead to arbitration and legal suits, causing cash outflow. During his long project execution career, author coined the slogan 'Constraint first, Progress Later' with an understanding of the barriers on the way or mitigation of the anticipated risks to clear the projects path. The author, with his vast experience of more than 40 years in Hydrocarbon, Renewable projects and expertise, developed a practical model based on Krishna Consciousness i.e. Unconscious, Semi Conscious, Conscious, Super Conscious on project management practices to control the projects for their completion within time and cost. Proceedings of the 17th International Symposium on Advancement of Construction
