Messiaen Quatuor Pour La Fin Du Temps Cambridge Music Handbooks:

Messiaen Anthony Pople, 1998-07-02 An examination of the popular Quartet for the End of Time by Olivier Messiaen

For the End of Time Rebecca Rischin, 2006 Olivier Messiaen 1908 1992 was one of the great composers of the twentieth century The premiere of the French composer's Quartet for the End of Time on January 15 1941 at 4 degrees Fahrenheit in Stalag VIII A a Nazi prison camp has been called one of the great stories of twentieth century music A devout Catholic with an interest in mysticism and the supernatural Messiaen was also a poet and an accomplished amateur ornithologist He mixed sounds as a painter mixes colors associating specific shades with certain modes and chords This book is the first comprehensive history of the composition and premiere of the Quartet for the End of Time Based on testimonies by the musicians and their families witnesses to the premiere former prisoners and on documents from Stalag VIII A *For the End of Time* examines the events that led to the Quartet's composition the experiences of the musicians in the camp the contradictory accounts the composer's interpretive preferences and the musicians' problems in execution and how they affected the premiere and subsequent performances Rebecca Rischin explores the musicians' life in the prison camp their relationships with each other and with the German camp officials and their intriguing fortunes before and after the momentous premiere *For the End of Time* is distinguished by Rischin's extensive interviews and intimate correspondence with camp survivors who witnessed the Quartet's premiere and members of the Messiaen circle including the cellist Etienne Pasquier and the violinist Jean Le Boulanger relatives of the clarinetist Henri Akoka and Messiaen's widow Yvonne Loriod The book is generously illustrated with photographs of the musicians press releases from the premiere autographs letters and pen and ink drawings of the camp's layout Included are wartime photos of the camp and its prisoners along with present day views of the camp site which Rischin visited in 1995 Olivier Messiaen Vincent Benitez, 2017-09-20 Olivier Messiaen A Research and Information Guide Second Edition presents researchers with the most significant and helpful resources on Olivier Messiaen one of the twentieth century's greatest composers With multiple indices this annotated bibliography will serve as an excellent tool for librarians researchers and scholars sorting through the massive amount of material in the field The second edition has been fully revised and updated *The Cambridge History of Twentieth-Century Music* Nicholas Cook, Anthony Pople, 2004-08-05 Publisher Description *The ^AOxford Handbook of Critical Concepts in Music Theory* Alexander Rehding, Steven Rings, 2019-11-19 Music Theory operates with a number of fundamental terms that are rarely explored in detail This book offers in depth reflections on key concepts from a range of philosophical and critical approaches that reflect the diversity of the contemporary music theory landscape *The Oxford Handbook of the Book of Revelation* Craig R. Koester, 2020 The Book of Revelation holds a special fascination for both scholars and the general public The book has generated widely differing interpretations yet Revelation has surprisingly not been the focus of many single volume reference works The Oxford Handbook of the Book of Revelation fills a need in the study of this controversial book Thirty

essays by leading scholars from around the world orient readers to the major currents in the study of Revelation Divided into five sections Literary Features Social Setting Theology and Ethics History of Reception and Influence and Currents in Interpretation the essays identify the major lines of interpretation that have shaped discussion of these topics and then work through the aspects of those topics that are most significant and hold greatest promise for future research Contemporary Piano Music Madalena Soveral, 2021-05-20 This collection addresses different issues involving performance and musical creation in contemporary piano music Organised into three sections it examines the aesthetic and technical aspects of musical creation in the 20th century and evaluates the questions that these aspects pose regarding the interpretative and performative process It also offers a reflection on artistic practices in the 21st century and explores their contribution to redefining the contemporary performative field **Olivier Messiaen's Opera, Saint Francois d'Assise** Vincent Perez Benitez, 2019-07-25 In this comprehensive study of Olivier Messiaen's magnum opus Saint Francois d'Assise Vincent Perez Benitez examines the opera from both theological and musical analytical perspectives to ask how Messiaen expresses his Catholic theology through his work Benitez combines a close reading of the opera score with accounts from Messiaen's associates studies of Messiaen's birdsong notebooks and other primary documents and an examination of the religious musical poetic and visual arts literature with which the composer was familiar to explore how the opera's harmonic language and sound color relationships motivate its musical meaning and expression Through his analysis of these diverse sources and comparisons of Saint Francois d'Assise with other works such as Berg's *Wozzeck* and Wagner's *Parsifal* Benitez places Messiaen's compositional practice within larger musical perspectives and historical contexts *Dowland: Lachrimae (1604)* Peter Holman, 1999-10-28 Dowland's *Lachrimae* 1604 is perhaps the greatest but most enigmatic publication of instrumental music from before the eighteenth century This new handbook the first detailed study of the collection investigates its publication history its instrumentation its place in the history of Renaissance dance music and its reception history Two extended chapters examine the twenty one pieces in the collection in detail discussing the complex internal relationships between the cycle of seven *Lachrimae* pavans the relationships between them and other pieces inside and outside the collection and possible connections between the Latin titles of the seven pavans and Elizabethan conceptions of melancholy The extraordinarily multi faceted nature of the collection also leads the author to illuminate questions of patronage the ordering and format of the collection pitch and transposition tonality and modality and even numerology **Visions of Amen** Stephen Schloesser, 2014-07-10 French composer Olivier Messiaen 1908 1992 is probably best known for his Quartet for the End of Time premiered in a German prisoner of war camp in 1941 However Messiaen was a remarkably complex intelligent person with a sometimes tragic domestic life who composed a wide range of music This book explores the enormous web of influences in the early part of Messiaen's long life The first section of the book provides an intellectual biography of Messiaen's early life in order to make his difficult music more accessible to the general listener The second

section offers an analysis of and thematic commentaries on Messiaen's pivotal work for two pianos *Visions of Amen* composed in 1943 Schloesser's analysis includes timing indications corresponding to a downloadable performance of the work by accomplished pianists Stéphane Lemelin and Hyesook Kim *Handel: Water Music and Music for the Royal Fireworks* Christopher Hogwood, 2005-11-10 A study of Handel's best known public music *Water Music and Music for the Royal Fireworks* God's Mirror Katherine Davies, Toby Garfitt, 2014-12-01 Gathering in one place a cohesive selection of articles that deepen our sense of the vitality and controversy within the Catholic renewal of the mid twentieth century *God's Mirror* offers historical analysis of French Catholic intellectuals This volume highlights the work of writers thinkers and creative artists who have not always drawn the attention given to such luminaries as Maritain Mounier and Marcel Organized around the typologies of renewal and engagement editors Katherine Davies and Toby Garfitt provide a revisionist and interdisciplinary reading of the narrative of twentieth century French Catholicism Renewal and engagement are both manifestations of how the Catholic intellectual reflects and takes position on the relationship between the Church personal faith and the world and on the increasingly problematic relationship between intellectuals and the Magisterium A majority of the writings are based on extensive research into published texts with some occasional archival references and they give critical insights into the tensions that characterized the theological and political concerns of their subjects Beethoven: The 'Moonlight' and Other Sonatas, Op. 27 and Op. 31 Timothy Jones, 1999-10-21 Even in Beethoven's day the *Moonlight Sonata* was a popular favourite This 1999 book provides an accessible introduction to the *Sonatas Op. 27 and 31* including *The Moonlight* and *The Tempest* aimed at pianists students and music lovers It begins with the work's historical background the emergence of a piano culture at the end of the eighteenth century Beethoven's aristocratic milieu in Vienna and his oft quoted intention to follow a new compositional path An account of the sonatas genesis is followed by a discussion of their reception history including a survey of changing performing styles since the mid nineteenth century The concept of the *Sonata quasi una Fantasia* is examined in relation to the cult of artistic sensibility in early nineteenth century Vienna The study concludes with a critical introduction to each sonata Messiaen's Musical Techniques: The Composer's View and Beyond Gareth Healey, 2016-04-22 Despite Messiaen's position as one of the greatest technical innovators of the twentieth century his musical language has not been comprehensively defined and investigated The composer's 1944 theoretical study *The Technique of My Musical Language* expounds only its initial stages and while his posthumously published *Trait de rythme de couleur et d'ornithologie* contains detailed explanations of selected techniques in most cases the reader is left to define these more precisely by observing them in the context of Messiaen's analyses of his own works Technical processes are nevertheless in many cases the primary components of a work or movement For instance *personnages* dominate *Joie du sang des toiles* from the *Turangala symphonie* and in certain cases such as *L'change* from the *Vingt regards sur l'Enfant Jésus* the process asymmetric augmentation is the only structuring element present Given this reliance on idiosyncratic

techniques clear comprehension of the music is impossible without a detailed knowledge of Messiaen's methods Gareth Healey charts their development and interconnections considers their relationship with formal structures and applies them in refined and extended form to works for which Messiaen himself left no published analysis

Stravinsky: The Rite of Spring Peter Hill, 2000-11-23 The Rite of Spring is Stravinsky's most revolutionary work This important new book provides a comprehensive guide to the work telling in vivid detail the story of its inception and composition of the stormy rehearsals which led to the scandalous premiere on 29 May 1913 and of Stravinsky's later betrayal of the ballet's first choreographer Vaslav Nijinsky At the same time in a radical reassessment of the work's musical values Peter Hill probes beneath the surface of the music to reveal an architectural conception of unsuspected guile and subtlety A feature of the book is a detailed discussion of the work in performance drawing on recordings by the Rite's greatest interpreters Stravinsky himself included Finally the significance of the Rite is thoroughly reviewed in a hard hitting conclusion which poses a radical challenge to the orthodox view of the work

Olivier Messiaen's Opera, Saint François d'Assise Vincent Perez Benitez, 2019-07-25 In this comprehensive study of Olivier Messiaen's magnum opus Saint François d'Assise Vincent Perez Benitez examines the opera from both theological and musical analytical perspectives to ask how Messiaen expresses his Catholic theology through his work Benitez combines a close reading of the opera score with accounts from Messiaen's associates studies of Messiaen's birdsong notebooks and other primary documents and an examination of the religious musical poetic and visual arts literature with which the composer was familiar to explore how the opera's harmonic language and sound color relationships motivate its musical meaning and expression Through his analysis of these diverse sources and comparisons of Saint François d'Assise with other works such as Berg's Wozzeck and Wagner's Parsifal Benitez places Messiaen's compositional practice within larger musical perspectives and historical contexts

Tchaikovsky: Symphony No. 6 (Pathétique) Timothy L. Jackson, 1999-10-07 Tchaikovsky's final symphony has fascinated generations of music lovers amateur and specialist alike since its first performance just over a century ago Timothy L. Jackson explores sensitively and without prejudice the question of the Pathétique's program and its relation to Tchaikovsky's homosexuality and death The book covers the work's conception genesis and reception and presents an in depth analysis of its remarkable formal structure The reception chapter investigates the Pathétique's impact on Tchaikovsky's younger contemporaries most notably Mahler and Rachmaninov and on more recent Russian composers like Shostakovich and Schnittke Also explored is the dark side of the symphony's political interpretation in the twentieth century especially its transformation into a cultural icon of the Third Reich

[Song of the Earth](#) Stephen E. Hefling, 2000-05-11 The opening chapter Background Mahler's symphonic worlds before 1908 sets the stage for a study of the work's genesis a summary of the most important critiques of the premiere and a careful reading of this six movement symphony for voices and orchestra An appendix provides an interlinear translation that makes Mahler's superb treatment of texts accessible to readers with little or no knowledge of German

Jacket Dvorák: Cello Concerto

Jan Smaczny, 1999-09-28 Dvorak's Cello Concerto composed during his second stay in America is one of the most popular works in the orchestral repertoire This guide explores Dvorak's reasons for composing a concerto for an instrument which he at one time considered unsuitable for solo work its relationship to his American period compositions and how it forms something of a bridge with his operatic interests A particular focus is the concerto's unique qualities why it stands apart in terms of form melodic character and texture from the rest of Dvorak's orchestral music The role of the dedicatee of the work Hanus Wihan in its creation is also considered as are performing traditions as they have developed in the twentieth century In addition the guide explores the extraordinary emotional background to the work which links it intimately to the woman who was probably Dvorak's first love

Bruckner: Symphony No. 8 Benjamin M. Korstvedt, 2000-03-30 This book explores Bruckner's Eighth Symphony 1890 from several angles offering an accessible guide to its musical design
