## **Metametaphysics New Essays On The Foundations Of Ontology:**

Metametaphysics David Chalmers,David Manley,Ryan Wasserman,2009-02-19 Metaphysics asks questions about existence for example do numbers really exist Metametaphysics asks questions about metaphysics for example do its questions have determinate answers If so are these answers deep and important or are they merely a matter of how we use words What is the proper methodology for their resolution These questions have received a heightened degree of attention lately with new varieties of ontological deflationism and pluralism challenging the kind of realism that has become orthodoxy in contemporary analytic metaphysics This volume concerns the status and ambitions of metaphysics as a discipline It brings together many of the central figures in the debate with their most recent work on the semantics epistemology and methodology of metaphysics

Metametaphysics David John Chalmers,David Jeffrey Manley,Ryan Wasserman,2023 This volume investigates the status and ambitions of metaphysics as a discipline It brings together many of the central figures in the debate with their most recent work on the semantics epistemology and methodology of metaphysics

The Language of Ontology J. T. M. Miller,2021 The Language of Ontology addresses the question of whether the nature of language influences or limits debates about what exists Chapters from both established and new voices explore the range of issues relating to our ability or inability to get beyond the limits of our language

Ontology Made Easy Amie Lynn Thomasson,2015 Existence questions have been topics for heated debates in metaphysics but this book argues that they can often be answered easily by trivial inferences from uncontroversial premises This easy approach to ontology leads to realism about disputed entities and to the view that metaphysical disputes about existence questions are misguided

Metametaphysics and the Sciences Frode Kjosavik,Camilla Serck-Hanssen,2019-10-17 This collection addresses metaphysical issues at the intersection between philosophy and science A unique feature is the way in which it is guided both by history of philosophy by interaction between philosophy and science and by methodological awareness In asking how metaphysics is possible in an age of science the contributors draw on philosophical tools provided by three great thinkers who were fully conversant with and actively engaged with the sciences of their day Kant Husserl and Frege Part I sets out frameworks for scientifically informed metaphysics in accordance with the meta metaphysics outlined by these three self reflective philosophers Part II explores the domain for co existent metaphysics and science Constraints on ambitious critical metaphysics are laid down in close consideration of logic meta theory and specific conditions for science Part III exemplifies the role of language and science in contemporary metaphysics Quine s pursuit of truth is analysed Cantor s absolute infinitude is reconstrued in modal terms and sense is made of Weyl s take on the relationship between mathematics and empirical aspects of physics With chapters by leading scholars Metametaphysics and the Sciences is an in depth resource for researchers and advanced students working within metaphysics philosophy of science and the history of philosophy

Ontology and Metaontology Francesco Berto,Matteo Plebani,2015-01-29 Ontology and Metaontology A Contemporary

Guide is a clear and accessible survey of ontology focusing on the most recent trends in the discipline Divided into parts the first half characterizes metaontology the discourse on the methodology of ontological inquiry covering the main concepts tools and methods of the discipline exploring the notions of being and existence ontological commitment paraphrase strategies fictionalist strategies and other metaontological questions The second half considers a series of case studies introducing and familiarizing the reader with concrete examples of the latest research in the field The basic sub fields of ontology are covered here via an accessible and captivating exposition events properties universals abstract objects possible worlds material beings mereology fictional objects The guide's modular structure allows for a flexible approach to the subject making it suitable for both undergraduates and postgraduates looking to better understand and apply the exciting developments and debates taking place in ontology today

**The Routledge Handbook of Metametaphysics**

Ricki Bliss,J.T.M. Miller,2020-07-14 Philosophical questions regarding the nature and methodology of philosophical inquiry have garnered much attention in recent years Perhaps nowhere are these discussions more developed than in relation to the field of metaphysics The Routledge Handbook of Metametaphysics is an outstanding reference source to this growing subject It comprises thirty eight chapters written by leading international contributors and is arranged around five themes The history of metametaphysics Neo Quineanism and its objectors Alternative conceptions of metaphysics The epistemology of metaphysics Science and metaphysics Essential reading for students and researchers in metaphysics philosophical methodology and ontology The Routledge Handbook of Metametaphysics will also be of interest to those in closely related subjects such as philosophy of language logic and philosophy of science

**The Bloomsbury Companion to Metaphysics**

Neil A. Manson,Robert W. Barnard,2014-12-18 Bridging the gap between the familiar figures of the history of philosophy and the technical approaches favoured by contemporary philosophers The Bloomsbury Companion to Metaphysics introduces the key ideas and debates needed to understand analytic metaphysics Presenting an effective syllabus for an introductory course in contemporary metaphysics this companion brings together a team of leading metaphysicians It begins with a comprehensive introduction to methodological problems and methods before tackling the perennial metaphysical questions surrounding core topics such as Modality Universals and Abstract Objects Naturalism and Physicalism Mind Free Will God

**The Double Lives of Objects** Thomas Sattig,2015 Thomas Sattig develops a novel philosophical picture of ordinary objects such as persons tables and trees He carves a middle way between classical mereology and Aristotelian hylomorphism and argues that objects lead double lives They are compounds of matter and form and each object's matter and form have different qualitative profiles

**Brute Facts** Elly Vintiadis,Constantinos Mekios,2018-11-10 Brute facts are facts that don't have explanations Such facts appear in our explanations inform many people's views about the structure of the world and are part of philosophical interpretations in metaphysics and the philosophy of science Yet despite the considerable literature on explanation the question of bruteness has been left largely unexamined The chapters in Brute Facts address this gap in

academic thought by exploring the central considerations which surround this topic How can we draw a distinction between facts that can reasonably be thought of as brute and facts for which further explanation is possible Can we explain something and gain understanding by appealing to brute facts Is naturalism inconsistent with the existence of non physical brute facts Can modal facts be brute facts Are emergent facts brute This volume brings together contributions by authors who offer different answers to these questions In presenting a range of different viewpoints on these matters Brute Facts engages with major debates in contemporary philosophy concerning modality naturalism consciousness reduction and explanation

**The ^A Oxford Handbook of Feminist Philosophy** Ásta, Kim Q. Hall, 2021-05-07 This Handbook offers an overview of the

contemporary state of the field in feminist philosophy The editors introduction and forty five essays cover feminist critical engagements with and contributions to philosophy and other scholarly fields as well as feminist approaches to some of the current and crucial issues known across the world The volume provides a rigorous but accessible resource for students and scholars interested in diverse approaches within feminist philosophy and how feminist philosophers situate their work within the philosophical mainstream and other disciplines

**Inductive Metaphysics** Andreas Hüttemann, Gerhard

Schurz, 2025-08-26 Inductive Metaphysics IM is a comparatively new branch of metaphysics that justifies metaphysical principles by inductive or abductive inferences from empirical evidence rather than by purely logico conceptual considerations This is the first volume to provide a representative picture of current research and debates in this branch of metaphysics Metaphysics was traditionally conceived as a purely conceptual a priori enterprise Besides the traditional view there has always been the opposite view of metaphysics as an a posteriori discipline but it was not until the 19th century that an a posteriori understanding of metaphysics was turned into a philosophical program entitled Inductive Metaphysics The program of IM argues that premises in metaphysical arguments should rely on empirical data and that inductive and abductive inferences are legitimate methods in metaphysics This volume explores IM as a continuously expanding and highly topical field of metaphysics with contributions in virtually all domains of the discipline The chapters are divided into six thematic sections It starts with a section on the increasing role of IM in the history of philosophy and in contemporary philosophy The next section addresses the central role of the method of abduction for IM followed by a section on the relation of IM to metaphysical accounts of grounding explanation and evidence and a section on IM and the formation of concepts The last two sections cover the applications of IM in physics and in the life sciences Inductive Metaphysics will appeal to scholars and graduate students working in metaphysics philosophy of science epistemology logic and cognitive science The Open Access version of this book available at [www.taylorfrancis.com](http://www.taylorfrancis.com) has been made available under a Creative Commons Attribution ShareAlike CC BY SA 4.0 International license Funded by DFG research unit FOR 2495 project number SCHU 1566 13 1 and Heinrich Heine Universität Düsseldorf Open Access Fund

**Metaphysics** Robert C. Koons, Timothy

Pickavance, 2015-01-20 Metaphysics The Fundamentals presents readers with a systematic comprehensive introductory

overview of modern analytic metaphysics Presents an accessible up to date and broad ranging survey of one of the most dynamic and often daunting sub fields in contemporary philosophy Introduces readers to the seminal works of contemporary and historic philosophers including Descartes Leibniz Russell David Lewis Alvin Plantinga Kit Fine Peter van Inwagen John Hawthorne and many others Explores key questions while identifying important assumptions axioms and methodological principles Addresses topics in ontology modality causality and universals as well as issues surrounding material composition persistence space and time

**The Metaphysics of Historical Jesus Research** Jonathan Rowlands,2015-10-15 In this book Rowlands interrogates the theological and philosophical foundations of the Quest for the historical Jesus from Reimarus to the present day culminating in a call for greater metaphysical transparency and diversity in the discipline This multidisciplinary approach to historical Jesus research drawing on historiography sociology philosophy and theology makes a significant and original contribution to the field Part I outlines the implicit role of metaphysical presuppositions in historical methodology by examining the concept of an historiographical worldview Part II provides an overview of the Quest for the historical Jesus demonstrating that the disparate historiographical worldviews operative in the Quest evidence a particular shared characteristic in that they might accurately be described as secular Rowlands study concludes with a call for a greater plurality and openness regarding the philosophical and theological presuppositions at work in historical Jesus research The Metaphysics of Historical Jesus Research is of interest to students and scholars working on New Testament studies and historical Jesus research

**The Gamma Paradoxes** Jeremy Kirby,2018-04-24 In this book Jeremy Kirby analyzes Book Gamma of Aristotle s Metaphysics and introduces the debates or paradoxes as he refers to them such as relativism versus the idea of a ready made world the possibility of true contradictions the nature and possibility of metaphysics the limits of thought and logic

Metaphysics, Meaning, and Modality Mircea Dumitru,2020-04-21 This book is the first edited collection of papers on the work of one of the most seminal and profound contemporary philosophers Over the last five decades Kit Fine has made thought provoking and innovative contributions to several areas of systematic philosophy including philosophy of language metaphysics and the philosophy of mathematics as well as to a number of topics in philosophical logic These

contributions have helped reshape the agendas of those fields and have given fresh impetus to a number of perennial debates Fine s work is distinguished by its technical sophistication philosophical breadth and independence from current orthodoxy A blend of sound common sense combined with a virtuosity in argumentation and constructive thinking is part and parcel of Kit Fine s lasting contributions to current trends in analytic philosophy Researchers and students in philosophy logic linguistics and cognitive science will benefit alike from these critical contributions to Fine s novel theories on meaning and representation arbitrary objects essence ontological realism and the metaphysics of modality and will come away with a better understanding of the issues within contemporary analytic philosophy with which they deal *The Matter of Consciousness* Torin Andrew Alter,2023 Torin Alter makes a compelling case against the view that consciousness is a physical phenomenon He argues that Frank Jackson s knowledge argument refutes all standard versions of physicalism and leads to Russellian monism the view there are intrinsic properties which both constitute consciousness and underlie properties described by physics **Metaphysics: The Basics** Michael Rea,2020-12-29 Metaphysics The Basics is a concise and engaging introduction to the philosophical study of some of the most important and foundational aspects of the world in which we live Concerned with questions about existence time identity change and other basic elements of our common sense and scientific ways of thinking about the world metaphysics has long fascinated people But to the uninitiated many of the issues and problems can appear bewilderingly complex and intractable In this lively and lucid book Michael Rea examines and explains the core questions in the study of metaphysics questions such as What is the relationship between an object and its properties or between an object and its parts What is time and is time travel possible Are human beings free What is it for an object or person to persist over time This second edition has been thoroughly revised and includes a new chapter on the metaphysics of gender With suggestions for further reading and a glossary of key terms Metaphysics The Basics is an ideal introduction for those coming to the subject for the first time [God, Truth, and other Enigmas](#) Miroslaw Szatkowski,2015-07-01 The book God Truth and other Enigmas is a collection of eighteen essays that fall under four headings God s Existence Non Existence Omniscience Truth and Metaphysical Enigmas The essays vary widely in topic and tone They provide the reader with an overview of contemporary philosophical approaches to the subjects that are indicated in the title of the book
