Metaphors We Live By By Lakoff George New Edition 1981:

The Search for Meaning Dennis Ford, 2007 The Search for Meaning is an invaluable tool for understanding both the ways people acquire a sense of meaning and the root causes of intractable ethical political and cultural conflicts BOOK The Linguistics Wars Randy Allen Harris, 2021 The Linguistics Wars tells the tumultuous history of language and cognition studies from the rise of Noam Chomsky's Transformational Grammar to the current day Focusing on the rupture that split the field between Chomsky's structuralist vision and George Lakoff's meaning driven theories Randy Allen Harris portrays the extraordinary personalities that were central to the dispute and its aftermath alongside the data technical developments and social currents that fueled the unfolding and expanding schism Readings in the Philosophy of **Religion - Third Edition** Kelly James Clark, 2017-05-03 This anthology contains the best of both classical and contemporary sources offering a balanced historical approach to the philosophy of religion while reflecting the latest developments in the field The included readings grapple with issues that are existentially compelling and provocative regardless of one s religious leanings Topics are covered in a point counterpoint manner designed to foster deep reflection This third edition contains an entirely new section on early Chinese religion as well as new essays on religious language feminism and the cognitive science Conceptualizations and Mental Processing in Language Richard A. Geiger, Brygida of religion Rudzka-Ostyn, 2011-08-30 No detailed description available for Conceptualizations and Mental Processing in Language

Cognitive Linguistics: Basic Readings Dirk Geeraerts, 2008-08-22 Over the past decade Cognitive Linguistics has grown to be one of the most broadly appealing and dynamic frameworks for the study of natural language Essentially this new school of linguistics focuses on the meaning side of language linguistic form is analysed as an expression of meaning And meaning itself is not something that exists in isolation but it is integrated with the full spectrum of human experience the fact that we are embodied beings just as much as the fact that we are cultural beings Cognitive Linguistics Basic Readings brings together twelve foundational articles each of which introduces one of the basic concepts of Cognitive Linguistics like conceptual metaphor image schemas mental spaces construction grammar prototypicality and radial sets The collection features the founding fathers of Cognitive Linguistics George Lakoff Ron Langacker Len Talmy Gilles Fauconnier and Charles Fillmore together with some of the most influential younger scholars By its choice of seminal papers and leading authors Basic Readings is specifically suited for an introductory course in Cognitive Linguistics This is further supported by a general introduction to the theory and specifically the practice of Cognitive Linguistics and by trajectories for further reading that start out from the individual chapters A Sociology of Religious Emotion Ole Riis, Linda Woodhead, 2010-06-24 Thoughtfully illustrated with photographic plates that capture the global range of religions and cultures discussed Book Metaphor, Metonymy, and Experientialist Philosophy Verena Haser, 2011-12-22 The present book provides a **Tacket** detailed criticism of experientialist semantics focusing both on philosophical issues connected with experientialism and on

cognitive approaches to metaphor and metonymy Particular emphasis is placed on the works of George Lakoff and Mark Johnson but other cognitivists are also taken into consideration Verena Haser proposes a new approach to the distinction between metaphor and metonymy which contrasts with familiar cognitivist models but also builds on some insights gained in cognitivist research She also offers an account of metaphorical transfer which dispenses with the notion of conceptual metaphors in the sense of Lakoff and Johnson She argues that conceptual metaphors are not a useful construct for explaining metaphorical transfer and that the clustering of metaphorical expressions is better accounted for in terms of family resemblances between metaphorical expressions Another major goal of this work is a reassessment of the relationship between experientialism and traditional Western philosophy often subsumed under the vague term objectivism This book contrasts with most other critical approaches to experientialism by providing close readings of key passages from the works of Lakoff and Johnson which enables the author to pinpoint theory internal inconsistencies and other shortcomings not noted in previous publications. This book will be relevant to students and scholars interested in semantics and cognitive linguistics and also in psychology and philosophy of language Scripture, Cultures, and Criticism K. K. Dickens's Idiomatic Imagination Peter J. Capuano, 2023-12-15 Dickens s Idiomatic Imagination offers an original analysis of how Charles Dickens s use of low and slangular his neologism language allowed him to express and develop his most sophisticated ideas Using a hybrid of digital distant and analogue close reading methodologies Peter J Capuano considers Dickens s use of bodily idioms right hand man shoulder to the wheel nose to the grindstone against the broader lexical backdrop of the nineteenth century Dickens was famously drawn to the vernacular language of London s streets but this book is the first to call attention to how he employed phrases that embody actions ideas and social relations for specific narrative and thematic purposes Focusing on the mid to late career novels Dombey and Son David Copperfield Bleak House Great Expectations and Our Mutual Friend Capuano demonstrates how Dickens came to relish using common idioms in uncommon ways and the possibilities they opened up for artistic expression Dickens s Idiomatic Imagination establishes a unique framework within the social history of language alteration in nineteenth century Britain for rethinking Dickens s literary trajectory and its impact on the vocabularies of generations of novelists critics and speakers of English

Metaphorical Landscapes and the Theology of the Book of Job Johan de Joode, 2018-10-22 Metaphorical Landscapes and the Theology of the Book of Job demonstrates how spatial metaphors play a crucial role in the theology of the book of Job Themes as pivotal as trauma ill being retribution and divine character are conceptualized in terms of space its imagery is thus dependent on spatial configurations such as boundaries distance direction containment and contact Not only are spatial metaphors ubiquitous in the book of Job possibly the most frequent conceptual metaphors in the book they are essential to its theological reasoning Job's spatial metaphors form a metaphorical landscape in which God's character and his creation are challenged in unprecedented ways In the theophany God reacts to that landscape This book introduces a pragmatic synthesis of both conceptual metaphor theory and spatial semantics and it demonstrates their exegetical and hermeneutic potential Possible Worlds in Humanities, Arts and Sciences Allén Sture, 2010-11-22 No detailed description available for Possible Worlds in Humanities Arts and Sciences **Like a Bride Adorned** Lynn R.
