Metaphysical Essays Matter Life Spirit:

Of Matter And Spirit: Selected Essays By Charles P Enz Charles P Enz, 2009-01-14 The essays selected for this book comprise ideas presented in oral or written form between 1972 and 2000 some of them originally in German or French They are preceded by a biographical and topical introduction As the title suggests attention is directed on the one hand toward the material world which is viewed in its extreme spatial extensions of the universe and of the elementary particles In particular the fascinating notion of the void and its fluctuating energy is the subject of various discussions as is the subdivision of material bodies and its limits The latter as well as the limit of gravitational stability are depicted in a diagram leading to the ultimate point of the Planck mass and length The other topic of the title is the spiritual realm which as in the Introduction is based on reflections and quotations from religious texts This rather personal aspect is also apparent in the frequent mention of the author's teacher Wolfgang Pauli who on the psychological side is associated with C G Jung and Marie Louise von Franz and on the physical side with Albert Einstein and the author's colleague Ernest Stueckelberg

Metaphysical Essays

Charles Post, 2015-12-01 This is a Mental Science book It is all about the possibilities of human power the power vested in human development It is at once a mighty revelation and a mightier prophecy Such a book is inestimable in its capacity to unfold native mental ability in the person who studies it and to establish him in unfaltering self trust The absence of self trust is self defeat every time Its absence is the curse of the race It is neither poverty nor disease nor oppression that curses us it is the want of self confidence that does it The man who has self trust goes up head those who lack it take their places below him and stand usually where the self trustful man places them

The Mission of Folk Souls Rudolf Steiner, 2022-11-15 11 lectures Oslo June 7 17 1910 CW 121 It is particularly important especially at the present time to speak about the mission of the individual folk souls because the destiny of humanity in the near future will bring people together in far greater measure than has hitherto been the case in order to fulfil a mission common to the whole of humanity But the members of the individual peoples will only be able to offer their proper free and positive contributions if they have above all else an understanding of their own native origin an understanding of what we might call the self knowledge of their people their folk Rudolf Steiner In the mythologies of all ancient cultures humanity is portrayed as intimately interwoven with the activity of lesser and greater gods spirits devas and elemental beings as members of the grand symphony of creation Who are these gods pictured so vividly in various myths and legends And how are they connected with the mission of humanity as a whole and the diverse peoples of the Earth In his preface to this lecture course Steiner argues that a true basis for a psychology of peoples cannot be given by the anthropological ethnographical or even historical studies of conventional science but requires a basis in spiritual reality It is precisely this spiritual reality the creative activity of the beings of the hierarchies in connection with the destiny of humanity that forms the heart of these lectures and of Steiner's view of folk psychology more broadly These lectures form Rudolf Steiner's most comprehensive and profound account of the mission of folk souls The

Mission of Folk Souls is a translation of Die Mission einzelner Volksseelen im Zusammenhange mit der germanisch nordischen Mythologie 6th rev ed Rudolf Steiner Verlag Basel 2017 GA 121 *The Driving Force of Spiritual Powers in World History* Rudolf Steiner, 2023-05-05 7 lectures in Dornach Switzerland March 11 23 1923 CW 222 Historical happenings on Earth can be understood in their reality only when we see them as reflections of what is being enacted in the supersensible spiritual world between the beings of the higher hierarchies Rudolf Steiner March 17 1923 What is the qualitative difference between the utterance of true and untrue words Is there one How about between living and dead thoughts What is the origin of war and strife among peoples on Earth How can humanity find a right relationship to the beings of the spiritual world These are among the compelling questions addressed by Rudolf Steiner in this concise yet powerful series of lectures given in March 1923 comprising this volume of The Collected Works of Rudolf Steiner In these lectures Steiner portrays among other things the work of various hierarchical beings both in collaboration and sometimes in opposition to one another whose activity and strife in the spiritual world is mirrored in the migrations of and wars among peoples on Earth The clashes between East and West for example are thus seen in an entirely new light heralding a sea change in the approach to history No longer should events on Earth be viewed as isolated within themselves but rather as interwoven in a grand vibrant tapestry formed from the threads that connect humanity on Earth with the activity and aims of exalted spiritual beings Humanity has profound potential for both good and evil The question is whether we will be able to rise to a renewed form of cognition through which we can once again grasp living spiritual reality or we will persist in the dead intellectualized thinking so common today thinking that as Steiner points out in the final lecture of this volume if not transformed will lead to the gradual destruction of Earth itself These lectures are a tour de force that should not be neglected by any serious student of history or the future of humanity and human life more broadly Includes 10 color plates This volume is a translation from German of Die Impulsierung des weltgeschichtlichen Geschehens durch geistige Mächte Rudolf Steiner Verlag 1989 GA 222 Cover Image Naval Battle of Lepanto 1571 by Luca Cambiasi 1521 1585 at the Royal Monastery of San Lorenzo de El Escorial Spain *Christ and the Human Soul* Rudolf Steiner, 2023-07-05 10 Lectures in Copenhagen and Norrköping May 23 30 1912 July 12 16 1914 CW 155 Spiritual science does not want to replace Christianity rather it aims to be the instrument through which the meaning of Christianity can be grasped And one thing that will become particularly clear through spiritual science is that the being whom we call Christ must be recognized as the center of life on earth and that what we call the Christian faith is the ultimate religion the eternal religion for the future of the earth Rudolf Steiner July 13 1914 This collection of lectures from 1912 and 1914 offers a deepened understanding of the being of Christ the divine Logos in his connection with individual human souls From religious figures such as John the Baptist and Saint Francis to the twentieth century poet Christian Morgenstern these lectures reveal how Christ works with and through all who seek him The Pauline statement Not I but Christ in me becomes an inner guide by which each human soul can find a way

to intimate union with the Christ being It is he who has the power to make our ideals and goals in life if they are worthy into true seeds of future reality The time of faith has come and gone Christ needs our conscious striving our effort to understand within the heart's deep core his ongoing presence and activity in the further evolution of our spiritual Earth and in our journey toward humanness These lectures are a comfort and a signpost for the soul to walk the inner path of communion with Christ for the healing and redemption of the earth We may be able in the end to redeem the karma accrued by our own individual souls but for our spiritual work to be fruitful for all humanity it must be brought into connection with Christ What we take into ourselves in such a way that it is done from the perspective of Not I this is what Christ makes into a common possession for all humanity July 14 1914 To know Christ means to undergo the school of selflessness Under the influence of materialism the selflessness of humanity was lost in a way as will be understood in future ages of humanity However through absorption in the Mystery of Golgotha the penetration of the knowledge of the Mystery of Golgotha with our whole feeling and soul being we can once again acquire a culture of selflessness We can come to understand that what Christ did for the development of the Earth is contained in the fundamental impulse of selflessness and that what he can become for the conscious development of the human soul is the school of selflessness Rudolf Steiner June 1 1914 To read these lectures is to strike out on the heart's path of fellowship with the living Christ This book is a translation from German of Christus und die Menschliche Seele ber den Sinn des Lebens Theosophische Moral Anthroposophie und Christentum GA 155 3rd ed Rudolf Steiner Verlag Dornach Switzerland 1994 Cover image Salvator Mundi 1499 1510 by Leonardo da Vinci [Metaphysical Conversations and Phenomenological Essays](#) Hedwig Conrad-Martius, 2023-11-20 This is the first translation into English of early phenomenologist Hedwig Conrad Martius Metaphysical Conversations originally published in 1921 Conrad Martius was one of Husserl's first students an important part of the Gttingen Phenomenology Circle and mentor to Edith Stein Jean Hring and other early phenomenologists The present volume provides the full German and English texts of the conversations a phenomenological discussion of the nature of the human examining the nature of body soul and spirit and drawing distinctions between plants animals humans and various other beings The volume also includes two important essays on phenomenology in which Conrad Martius distinguishes between the phenomenological approaches of Husserl Heidegger and the more ontological approach of the Gttingen school of phenomenology She is critical of Husserl's transcendental and Heidegger's existential approach The conversations illustrate her use of the phenomenological method for fundamental investigations into the nature or Wesen of things Also available as paperback <https://www.degruyter.com/document/isbn/9783110764390/html> [Art and Theory of Art](#) Rudolf Steiner, 2021-10-19 An Author's Summary 1888 Four Essays Written between 1890 and 1898 Eight Lectures between 1909 and 1921 CW 271 The challenge of saying something about art was personal for Rudolf Steiner He experienced it as deeply connected with his biography It is not for nothing that in the last lecture of this volume he points to his repeated attempts to develop a new approach and new forms of expression for

speaking about art We find at least three forms of this attempted approach in this book Zvi Szir from the introduction The subject practice and vital importance of art was a thread that ran through Rudolf Steiner's life from his early work as a scholar of Goethe through his time as an editor of a literary and arts journal in Berlin in the 1890s and to his two and a half decades as a spiritual researcher and teacher Understanding and articulating the significance of art was a perennial challenge for Rudolf Steiner This volume of Steiner's Collected Works is unique in that it showcases a survey of both early written works and later lectures to anthroposophic audiences and in doing so presents a picture of a lifetime of intensive effort to convey something essential about the arts Beginning with his early philosophical work and literary criticism at the end of the nineteenth century and on into his later lectures this volume follows Steiner's endeavor to reveal in words the mystery obscured by the vague concept of what art is Viewed as a whole this volume forms one of the most provocative collections of the twentieth century on the subject of art It offers a unique analysis of the origin foundation and method of the creative process This book is a translation of *Kunst und Kunsterkenntnis Grundlagen einer neuen Ästhetik* 3rd edition published by Rudolf Steiner Verlag Dornach Switzerland 2010 GA 271 *On Philosophy, History, and Literature* Rudolf Steiner, 2024-01-16 Author's summary and summaries of 34 lectures 1901-1905 with reports on Rudolf Steiner's activity in the Giordano Bruno Association 1902 CW 51 Steiner's approach was at first a surprise for the students who had been schooled in Marxist thought and tended to view all spiritual matters as byproducts of material economic processes For them it was questionable whether the spiritual striving of individual human beings could really be a driving force in history Steiner knew the soul disposition of his students and the inexpressibly tragic situation that the proletariat's intense desire for knowledge had so far been satisfied only through the grossest form of materialism But the materialistic ideas that had been absorbed by the workers from popular scientific literature and from Marxist writings contained partial truths introduction Wide ranging illuminating and entirely unique in Rudolf Steiner's Collected Works this volume consists of lectures given at the Worker Education School and at the Independent College in Berlin along with a lengthy appendix on Steiner's activity in the Giordano Bruno Association Concerning his teaching activities in the Worker School Steiner later reflected in his autobiography I had to find a completely different way of expressing myself than I had become used to until then p 193 This was due largely to his students working class background Steiner's new approach involved allowing idealism to arise from materialism The result was the foundation for what he called historical symptomatology that is the study of the deeper causes behind history through their symptomatic expression in concrete historical events This volume is therefore an exceptional resource for anyone interested in Steiner's approach to history Steiner's lectures at the Independent College which form part two of the volume are concerned on the one hand with the philosophies of the medieval and early modern mystics forming a companion to his book *Mystics after Modernism* CW 7 and on the other with the remarkable figure of Friedrich Schiller Speaking on the occasion of the centenary of Schiller's death Steiner's lectures are a brilliant homage to the great thinker

and dramatist brimming with insights into this extraordinary individual and the significance of his contributions for our time The appendix contains unique documents outlining Steiner s work in the Giordano Bruno Association for a Unified Worldview The lively exchange of ideas and Steiner s unique role within the Association are evident in the selected lectures and discussions This book is a must read for both long time students of Steiner s work and newcomers seeking a fresh enlivened and enlivening approach to philosophy history and literature On Philosophy History and Literature is a translation from German of *Über Philosophie Geschichte und Literatur Darstellungen an der Arbeiterbildungsschule und der Freien Hochschule in Berlin* Zusammenstellung edition Rudolf Steiner Verlag Dornach 1983 GA 51 **The Metaphysics of**

Becoming Thomas Padiyath,2014-01-31 This study attempts to elucidate a possible meeting point of the traditions of Eastern and Western metaphysical thinking In discussing Whitehead s and Aurobindo s views on being and becoming it seeks the possibility of a better engagement between the East and the West in the light of the philosophical insights It is an initiation into the *Sitz im Leben* of Whitehead s philosophy and his general thought pattern It carries a perceptive analysis to show the clear primacy of Becoming or Process in Whitehead that extends even to the Divine It also highlights Aurobindo as a unique Indian Philosopher who articulated Indian thought in Western categories He was able to integrate the evolutionary theory of the West with the Indian understanding of becoming The relationship between God and Creativity and Sachchidananda and the Supermind is studied within the context of Enlightenment and Modernity and the way of doing philosophy in the West and in the East *An Analysis of Sri Aurobindo's The Life Divine* Roy Posner,2018-01-06 Growth Online author and founder Roy Posner presents a chapter by chapter analysis of Sri Aurobindo s metaphysical treatise *The Life Divine* perhaps the most profound book ever written on the nature of spirit creation life evolution and human potential

Creolizing Sartre T Storm Heter,Kris F. Sealey,2023-12-06 Jean Paul Sartre s work has been taken up by writers outside of Europe particularly in the Global South who have developed phenomenological and existential analyses of racism colonialism and other structures of domination Sartre s philosophical concepts are fundamentally open for instance his notions of humanism bad faith and freedom As a situational committed thinker Sartre worked to illuminate the urgent questions of his time at the concrete and the abstract level The creolization of Sartrean thinking is consistent with the existential projects of engagement authenticity political commitment and liberation from oppression This volume asks how his European model of phenomenology was and can be transformed when it is taken up by thinkers who have lived experience with colonialism They book also engages Sartre in his relation to key interlocutors especially Beauvoir and Fanon who were influenced by him and who influenced him in turn The book demonstrates how Sartrean philosophy is productively related to Africana philosophy Africana phenomenology and Africana existentialism This volume treats creolization not as a discrete topic but as an interdisciplinary global approach to reading and thinking Each author s contribution embodies an aspect of creolizing thinking understood as the articulation of cultural and conceptual hybridity under conditions of
