**Rugs, Guitars, and Fiddling** Chris Goertzen, 2022-10-21 What do exotic area rugs handcrafted steel string guitars and fiddling have in common today Many contemporary tradition bearers embrace complexity in form and content They construct objects and performances that draw on the past and evoke nostalgia effectively but also reward close attention In Rugs Guitars and Fiddling Intensification and the Rich Modern Lives of Traditional Arts author Chris Goertzen argues that this

entails three types of change that can be grouped under an umbrella term intensification First traditional creativity can be intensified through virtuosity through doing hard things extra fluently Second performances can be intensified through addition by packing increased amounts of traditional materials into the conventionally sized packages Third in intensification through selection artistic impact can grow even if amount of information recedes by emphasizing compelling ideas e g crafting a red and black viper poised to strike rather than a pretty duck decoy featuring more colors and contours Rugs handwoven in southern Mexico luthier made guitars and southern US fiddle styles experience parallel changes all absorbing just enough of the complex flavors dynamics and rhythms of modern life to translate inherited folklore into traditions that can be widely celebrated today New mosaics of details and skeins of nuances don t transform craft into esoteric fine art but rather enlist the twists and turns and endless variety of the contemporary world therapeutically helping transform our daily chaos into parades of negotiable jigsaw puzzles Intensification helps make crafts and traditional performances more accessible and understandable and thus more effective bringing past and present closer together helping folk arts continue to perform their magic today
