Copyright Office, 1968 Reading the Classics and Paradise Lost William Malin Porter, 1993-01-01 Milton's early commentators Henry Todd Thomas Newton Joseph Addison and others not only knew their classics well they took them seriously as models of literary excellence and repositories of values In the twentieth century however the classics have become mere background As a consequence William M Porter argues not only is the foundational dimension of Milton s poetry now hardly visible even to scholars but the potential of Milton's poetry to revitalize the reading of the classics has been diminished In this insightful study Porter attempts once again to read both the classics and Milton's epic poem sensitively and intelligently He exposes the recklessly speculative and tendentious character of much earlier work on Milton s allusions in which allusions were promiscuously posited and in which Paradise Lost was too often regarded naively as triumphing over the classics Porter demonstrates that Milton's allusions in which allusions to the classics while fewer than has been supposed are rich with wit irony and thought that can be grasped only by a reader with a double perspective

House and Home Thomas Barrie, 2017-03-16 House and home are words routinely used to describe where and how one lives This book challenges predominant definitions and argues that domesticity fundamentally satisfies the human need to create and inhabit a defined place in the world Consequently house and home have performed numerous cultural and ontological roles and have been assiduously represented in scripture literature art and philosophy This book presents how the search for home in an unpredictable world led people to create myths about the origins of architecture houses for their gods and house tombs for eternal life Turning to more recent topics it discusses how writers often used simple huts as a means to address the essentials of existence modernist architects envisioned the capacity of house and home to improve society and the suburban house was positioned as a superior setting for culture and family Throughout the book house and home are critically examined to illustrate the perennial role and capacity of architecture to articulate the human condition position it more meaningfully in the world and assist in our collective homecoming Catalog.
