Oedipus Philosopher Meridian Crossing Aesthetics:

Oedipus, Philosopher Jean-Joseph Goux, 1993 If the logic of the Oedipus myth were subjected to rigorous and thoroughgoing analysis with the tools of anthropology comparative mythology and narratology might it invalidate the approach to the Oedipus complex that Freud derived from his psychoanalytic experience This book answers yes arguing that instead of the Oedipus complex explaining the myth the Oedipus myth explains the complex The author argues that the Oedipus myth is an historical anomaly a myth of failed royal investiture or of avoided masculine initiation Does this mean that we must return to the wisdom of tradition and strike out twenty five centuries of Oedipal history The author knows very well that such a solution would be fantasy and he concludes by speculating on how his analysis might contribute to a vision that has eluded Freudian psychoanalysis how to surpass the Oedipus complex with all the ethical consequences this would entail

The Muses Jean-Luc Nancy, 1996 Jean Luc Nancy s probing analysis of art and the sensible presentation of an idea examines why there are several arts and not just one He uses Hegel s conclusions in Aesthetics and the Phenomenology of Spirit as support for his theory

Gender and difference in the Middle Ages Sharon A. Farmer, Carol Braun Pasternack, Nothing less than a rethinking of what we mean when we talk about men and women of the medieval period this volume demonstrates how the idea of gender in the Middle Ages no less than now intersected in subtle and complex ways with other categories of difference Responding to the insights of postcolonial and feminist theory the authors show that medieval identities emerged through shifting paradigms that fluidity conflict and contingency characterized not only gender but also sexuality social status and religion This view emerges through essays that delve into a wide variety of cultures and draw on a broad range of disciplinary and theoretical approaches Scholars in the fields of history as well as literary and religious studies consider gendered hierarchies in western Christian Jewish Byzantine and Islamic areas of the medieval world

Sparks of the Logos Daniel Boyarin, 2003-11-01 There are two major themes running through the essays reprinted in this book the first is the typological relation of rabbinic Judaism to Christianity while the second is the re animation by going back to the roots of a rabbinic Judaism that would not manifest some of the deleterious social ideologies and practices that modern orthodox Judaism generally does a project that was thought of as radical orthodoxy long before that term achieved its current and almost diametrically opposing sense among Christian theologians The book is divided into two parts The first part consists of several essays on midrash exploring various aspects of rabbinic culture and their relation to hermeneutic practices These papers are essentially more detailed studies of particular issues that were raised in two of Boyarin s books Intertextuality and the Reading of Midrash and Carnal Israel Reading Sex in Talmudic Culture California 1993 The second part of the book consists of reprints of four essays published in the journal Diacritics during that same decade The material treated in the book should be of interest to historians of Judaism and Christianity Talmudists and scholars and readers interested in the cultural study of religion

The Tragedy of Fatherhood Silke-Maria

Weineck,2014-08-28 The long history of fatherhood and its entanglements with ideas of power in Western literature philosophy history and political theory The Work of Fire Maurice Blanchot,1995 Maurice Blanchot is arguably the key figure after Sartre in exploring the relation between literature and philosophy Blanchot developed a distinctive limpid form of essay writing these essays in form and substance left their imprint on the work of the most influential French theorists The writings of Barthes Foucault and Derrida are unimaginable without Blanchot Published in French in 1949 The Work of Fire is a collection of twenty two essays originally published in literary journals Certain themes recur repeatedly the relation of literature and language to death the significance of repetition the historical personal and social function of literature and simply the question what is at stake in the fact that something such as art or literature exists Among the authors discussed are Kafka Mallarmé Hlderlin Baudelaire Rimbaud Sartre Gide Pascal Vale ry Hemingway and Henry Miller *The Experience of Freedom* Jean-Luc Nancy,1993 The most systematic radical and lucid treatise on freedom that has been written in contemporary Continental philosophy this book combats the renunciation of freedom attested in modern history by articulating the experience of freedom at work in thought itself On the Name Jacques Derrida,1995 The name What does one call thus What does one understand under the name of name And what occurs when one gives a name What does one give then One does not offer a thing one delivers nothing and still something comes to be which comes down to giving that which one does not have as Plotinus said of the Good What happens above all when it is necessary to sur name renaming there where precisely the name comes to be found lacking What makes the proper name into a sort of sur name pseudonym or cryptonym at once singular and singularly untranslatable Jacques Derrida thus poses a central problem in contemporary language ethics and politics which he addresses in a linked series of the three essays Passions An Oblique Offering is a reflection on the question of the response on the duty and obligation to respond and on the possibility of not responding which is to say on the ethics and politics of responsibility Sauf le nom Post Scriptum considers the problematics of naming and alterity or transcendence raised inevitably by a rigorous negative theology Much of the text is organized around close readings of the poetry of Angelus Silesius The final essay Khora explores the problem of space or spacing of the word khora in Plato's Timaeus Even as it places and makes possible nothing less than the whole world khora opens and dislocates displaces all the categories that govern the production of that world from naming to gender In addition to readers in philosophy and literature Khora will be of special interest to those in the burgeoning field of space studies architecture urbanism design Philosophical Inquiry ,2000 **"Chatter"** Peter Fenves,Peter David Fenves,1993 This book shows that in chatter Kierkegaard uncovered a specifically linguistic mode of negativity which became the medium in which a non speculative and non historicism presentation of history could be carried out The author examines in detail those writings of Kierkegaard in which he undertook complex negotiations with the threat and also the promise of chatter *The Journal of Philosophy* ,1993 Covers topics in philosophy psychology and scientific methods Vols 31 include A Bibliography of philosophy

1933 Topographies Joseph Hillis Miller, 1995 This book investigates the function of topographical names and descriptions in a variety of narratives poems and philosophical or theoretical texts primarily from the 19th and 20th centuries but including also Plato and the Bible Topics include the initiating efficacy of speech acts ethical responsibility political or legislative power the translation of theory from one topographical location to another the way topographical delineations can function as parable or allegory and the relation of personification to landscape **Points...** Jacques Derrida, 1995 A collection of 23 interviews given over the last 2 decades illustrating the extraordinary breadth of Derrida's concerns writings

The Dualist, 1994 **Commentaries - Kommentare** Glenn W. Most, 1999 **Aporias** Jacques Derrida, 1993 Derrida's new book bears a special significance because it focuses on an issue that has informed the whole of his work up to the present One of the aporetic experiences touched upon is that my death can never be subject to an experience that would be properly mine that I can have and account for yet that there is at the same time nothing closer to me and more properly mine than my death **An Essay on the Tragic** Peter Szondi, 2002 This is a succinct and elegant argument for the specificity of a philosophy of tragedy as opposed to a poetics of tragedy espoused by Aristotle *Posthumous People* Massimo Cacciari, 1996 Cacciari discusses Vienna at a crucial turning point in Western thinking as the 19th century ended treating this extraordinarily rich concentration of people and events as the hub upon which wheeled into the 20th century
