CyberLit Marilyn Dover Newman, 2004 Elementary school media specialists and teachers routinely use children s picture books in their lessons These books add depth and vitality to the curriculum because they are written and illustrated by some of the world s most gifted writers and artists Yet educators are finding it increasingly harder to insert this pleasant and important activity into the busy school day due to increased pressures to improve test scores to implement a standards driven curriculum and to stay abreast of new technologies to deliver instruction This book helps educators continue to incorporate literature into the school day in spite of these obstacles *CyberLit* is a book for those who work with or teach others who work with children in the primary grades It is for those who use trade books to supplement and enhance health science creative writing history geography reading math language arts character education multicultural studies holidays citizenship and the fine arts It s for those who love children s literature and book illustration With this book you no longer need to get lost in cyberspace The information has already been searched collected assessed and compiled Easily accessible and at your fingertips this directory can help you to get biographical information about authors and illustrators and to learn how they get ideas for stories how illustrations are created how to extend the books into the curriculum and where to find time saving lesson plans and book related activities for classroom projects and units These outstanding websites of children s authors illustrators and storybook characters were selected based on their educational value and for the fact that they contain a minimum of commercialization They are exemplary examples of authors publishers and scholars who understand and acknowledge the roles of teachers and librarians Like little gems in cyberspace they go beyond the ordinary content for busy educators

Teaching the Common Core Literature

Standards in Grades 2-5 Lisa Morris, 2015-07-16 Shifting your literature instruction to meet the Common Core can be tricky. The standards are specific about how students should analyze characters, themes, point of view, and more. In this new book, Lisa Morris makes it easy by taking you through the standards and offering tons of practical strategies, tools, and mentor texts for grades 2-5. She shows you how to combine the standards into effective units of study so that you can teach with depth rather than worry about coverage. Topics covered include Teaching questioning, inferring, and author's purpose; Guiding readers to look at themes and write summaries; Showing students how to recognize structural elements of literature; Teaching the craft of writing and vocabulary development; and Helping students analyze characters and character development. Throughout this highly practical book, you'll find a variety of charts and other graphic organizers that can be easily adapted for classroom use. A list of suggested mentor texts is also available as a free eResource from our website www.routledge.com/books/details/9781138856172.

Collecting for the Curriculum Amy J. Catalano, 2015-09-28 If you're a librarian charged with collecting curriculum materials and children's literature to support the Common Core State Standards, then this book is the only one that offers explicit advice on collection development in curriculum collections. While there are many publications on the Common Core for school librarians and K-12 educators, no such literature exists for curriculum librarians at the post-secondary level. This book fills that gap, standing alone as a guide to collection development for curriculum librarians independent of the Common Core State Standards (CCSS). The book provides instruction and guidance to curriculum librarians who acquire and manage collections so you can develop a collection based on best practices. The book begins with a primer on the CCSS and how curriculum librarians can support them. Discussion of the Standards is then woven through chapters arranged by content area that share research-based practices in curriculum development and instruction to guide you in curriculum selection. Material types covered include games, textbooks, children's literature, primary sources, counseling, and nonfiction. Additional chapters cover the management of curriculum collections, testing collections, and instruction and reference, as well as how to support and collect for special needs learners. Current practices in collection development for curriculum materials librarians are also reviewed. The book closes with a discussion of the future of curriculum materials.

Caldecott Connections to Social Studies Shan Glandon, 2000-09-15 Take advantage of the appeal and power of Caldecott award literature to extend and promote learning across the curriculum. In these two volumes, the author demonstrates how to use award-winning books as springboards to science and social studies learning in the library and classroom and to expand student awareness and appreciation of illustration techniques. For each Caldecott title, there is background information on the illustrations, curriculum connections, lesson plans, and support materials for teaching. Glandon also integrates Gardner's multiple intelligences with curriculum content. With a flexible discovery approach, these activity units focus on student-centered, experiential, holistic, and authentic learning, and they are ready for instant implementation. Targeted to primary grade objectives and abilities, the books include an array of individual projects and collaborative ones. They also foster
