*Beyond Leveled Books* Franki Sibberson, Karen Szymusiak, Lisa Koch, 2023-10-10 In *Beyond Leveled Books* Second Edition Franki Sibberson, Karen Szymusiak, and Lisa Koch provide even more resources to help teachers understand and meet the needs of transitional readers. The key topic of series books has been revised and enlarged with charts outlining new series with the challenges they pose and supports readers need. New lessons have been added and most chapters now include a related article from a literacy expert. Some of the contributors include Kathy Collins, Larry Swartz, and Mary Lee Hahn. Leveled books are an indispensable tool for teaching children to read, especially for emergent readers, but the authors of *Beyond Leveled Books* are sounding the alarm about the overuse and misuse of leveling and the way it restricts teacher autonomy and undermines student choice and reading engagement. The authors lay out a blueprint for using leveled books effectively within a student-centered and differentiated approach that is designed to motivate all readers, particularly transitional ones. *Teaching Transitional Readers: Beyond Leveled Books* is packed with resources to help teachers understand and meet the needs of transitional readers, including examples of classroom instruction, sample mini-lessons, strategies for small group instruction, assessment techniques, and articles by literacy experts. *Resources for K-5 Classrooms*: The book explores the uses and limitations of leveled texts in primary reading instruction, including ideas for how to organize your classroom library and a list of great books and series to use alongside leveled text in supporting new readers. *Gateway to Independent Reading*: The authors provide explicit tools for helping students consolidate their skills and reading strategies to read widely and deeply to increase their vocabulary and build critical thinking. *Making Reading Fun*: Teach students to experience joy from reading through deeper comprehension and application. *Beyond Leveled Books* is an essential resource for K-5 teachers looking to help all readers, including budding readers, struggling readers, transitional readers, and readers who have plateaued.

*The Brain Power Story Hour* Nancy J. Polette, 2014-01-10 While many texts explore ways to plan and implement story times in both school and public libraries, until now no work has brought together extensive book talks and follow-up activities specifically designed to develop thinking skills in young children. This innovative study offers age-appropriate book suggestions with related questions and activities tailored to a variety of thinking skills, including verbal or linguistic thinking, divergent and creative thinking, analytical and mathematical thinking, visual or spatial thinking, and many others. The program presented in this volume was successfully developed and implemented in the preschool/kindergarten laboratory school of Lindenwood University in St. Charles, Missouri, with 90 percent of the participating children selected for gifted programs in both public and private schools. Ideal for children's librarians, school librarians, teachers of early childhood, gifted programs, parents, and homeschoolers, this study provides the tools for making any story hour a brain power story hour.
