Merleau Ponty Interiority And Exteriority Psychic Life And The World:

Merleau-Ponty, Interiority and Exteriority, Psychic Life and the World Dorothea Olkowski, James Morley, 1999-09-02 This book demonstrates how Merleau Ponty's understanding of the continuity of inner and psychological life interiority and the material world exteriority has broad implications for philosophy the physical and human sciences and health studies By taking the phenomenon of the body out of the dualistic constraints of interior and exterior idealism and empiricism Merleau Ponty shows us the possibility of a fresh vantage point for future research and therapeutic application linking philosophy more closely to the study of nature the psyche and social phenomena Merleau Ponty Interiority and Exteriority Psychic Life and the World is proof of the power and creative energy of Merleau Ponty's thought Contributors include Edward S Casey Helen A Fielding Elizabeth Grosz Lawrence Hass Galen A Johnson Nobuo Kazashi Alphonso Lingis Glen A Mazis James Morley Dorothea Olkowski David E Pettigrew James Phillips Michael B Smith Gail Weiss and Wilhelm S Wurtzer **Merleau-Ponty's Existential Phenomenology and the Realization of Philosophy** Bryan A.

Smyth, 2013-12-19 Bringing to light the essential philosophical role of Marxism within Merleau Ponty's reinterpretation of transcendental phenomenology this book shows that the realization of this project hinges methodologically upon a renewed conception of the proletariat qua universal class specifically that it rests upon a humanist myth of incarnation which substantiated by Merleau Ponty's notion of heroism locates an objective historical purposiveness in the habituated organism of the modern subject Foregrounding the phenomenological priority of history over corporeality in this way Smyth's analysis recovers the militant character of Merleau Ponty's existential phenomenology It thus sheds critical new light on his early thought and challenges some of the main parameters of existing scholarship by disclosing the intrinsic normativity of his basic methodological commitments **Merleau-Ponty and Buddhism** Gereon Kopf, Jin Y. Park, 2009-08-13 Merleau Ponty and Buddhism explores a new mode of philosophizing through a comparative study of Maurice Merleau Ponty's phenomenology and philosophies of major Buddhist thinkers such as Nagarjuna Chinul Dogen Shinran and Nishida Kitaro Challenging the dualistic paradigm of existing philosophical traditions Merleau Ponty proposes a philosophy in which the traditional opposites are encountered through mutual penetration Likewise a Buddhist worldview is articulated in the theory of dependent co arising or the middle path which comprehends the world and beings in the third space where the subject and the object or eternalism and annihilation exist independent of one another The thirteen essays in this volume explore this third space in their discussions of Merleau Ponty's concepts of the intentional arc the flesh of the world and the chiasm of visibility in connection with the Buddhist doctrine of no self and the five aggregates the Tiantai Buddhist concept of threefold truth Zen Buddhist huatou meditation the invocation of the Amida Buddha in True Pure Land Buddhism and Nishida's concept of basho In his philosophical project Merleau Ponty makes vigorous efforts to challenge the boundaries that divide philosophy and non philosophy the East and the West experience and concepts the subject and the object and body and mind

Combining the Eastern philosophical tradition of Buddhism with Merleau Ponty's phenomenology Merleau Ponty and Buddhism offers an intercultural philosophy in which opposites intermingle in a chiasmic relationship and which brings new understanding regarding the self and the self's relation with others in a globalized and multicultural world Merleau-Ponty and Derrida Jack Reynolds, 2004 While there have been many essays devoted to comparing the work of Maurice Merleau Ponty with that of Jacques Derrida there has been no sustained book length treatment of these two French philosophers Additionally many of the essays presuppose an oppositional relationship between them and between phenomenology and deconstruction more generally Jack Reynolds systematically explores their relationship by analyzing each philosopher in terms of two important and related issues embodiment and alterity Focusing on areas with which they are not commonly associated e.g. Derrida on the body and Merleau Ponty on alterity makes clear that their work cannot be adequately characterized in a strictly oppositional way Merleau Ponty and Derrida Intertwining Embodiment and Alterity proposes the possibility of a Merleau Ponty inspired philosophy that does not so avowedly seek to extricate itself from phenomenology but that also cannot easily be dismissed as simply another instantiation of the metaphysics of presence Reynolds argues that there are salient ethico political reasons for choosing an alternative that accords greater attention to our embodied situation As the first full length monograph comparing the philosophers Merleau Ponty and Derrida will interest scholars and students in European philosophy and teachers of courses dealing with deconstruction **Transforming Politics with**

Merleau-Ponty Jérôme Melançon, 2021-05-25 The contributors to this book offer productive new readings of Merleau Ponty's political philosophy and of other facets of his thought They each deploy his theories to adopt a critical stance on urgent political issues and contemporary situations within society Each essay focuses on a different aspect of political transformation be it at the personal social national or international level The book as a whole maps out possibilities for thinking phenomenologically about politics without a sole focus on the state turning instead toward contemporary human experience and existence A Phenomenology for Women of Color Emily S. Lee, 2024-01-15 A Phenomenology for Women of Color Merleau Ponty and Identity in Difference explores how phenomenology can help philosophy of race explain the persistence of race as a key indicator of social standing Engaging with the work of women of color to think more deeply about our racial and gendered structural relations with one another Emily S. Lee argues that phenomenology is helpful in two ways 1 race as a social construct is phenomenal and 2 Merleau Ponty's phenomenology centers on embodiment and therefore applies to both feminist and racial concerns Lee defines the phenomenon of race as a structure that is open ended is developed creatively and mediates one's situatedness in the world and relations with others Drawing on ideas from Husserl Heidegger Sartre and Merleau Ponty this book depicts the dynamic and creative expressions of race and racism to address the ambiguities within the experiences of race and sex and ultimately to conceptualize the identity group women of color

At the Edges of Vision Ren?ande Vall, 2017-07-05 In At the Edges of Vision Ren van de Vall re-examines the aesthetics of spectatorship in terms of new media art and visual culture The aesthetic experience of visual art has traditionally been described in terms of the distanced contemplation and critical interpretation of the work's form and representational content Recent developments in installation video and computer art have foregrounded the bodily and affective engagement of the spectator and in retrospect throw into question the model of spectatorial distance for more traditional art forms as well But what does this development entail for art's potential for reflective imaginative and experiential depth Is art still capable of providing a critical counterpoint to the ubiquitous presence of sensational yet short-lived media imagery when it speaks to the senses rather than to the mind In a thorough examination of examples from

painting film installation art and interactive video and computer art Van de Vall argues for a tactile and affective conception of reflection linking philosophy and art Looking at a Rembrandt self portrait and navigating through an internet art work have in common that both types of work rely on a playful rhythmically structured sensuous and embodied reflexivity for the articulation of meaning This sensuous dimension of playful reflexivity is just as important in philosophical thought however as the transcendental condition for genuine open ended reflection Drawing on the philosophy of Merleau Ponty Levinas Lyotard and Deleuze on the one hand and on new media theory on the other Van de Vall develops a performative phenomenology of aesthetic reflection visibility and visual art in order to rethink art's ethical and political relevance in present day digital media culture
