The Unheard Voice of Law in Bartolomé de Las Casas's Brevisima Relación de la Destrucción de las Indias David T. Orique, 2021-04-12 The Unheard Voice of Law in Bartolomé de las Casas's Brevisima relación de la destrucción de las Indias reinterprets Las Casas's controversial treatise as a legal document whose legal character is linked to civil and ecclesial genres of the Early Modern and late Renaissance juridical tradition Bartolomé de las Casas proclaimed I have labored to inquire about study and discern the law I have plumbed the depths and have reached the headwaters The Unheard Voice also plumbs the depths of Las Casas's voice of law in his widely read and highly controversial Brevisima relación a legal document published and debated since the 16th century This original reinterpretation of his Very Brief Account uncovers the juridical approach voiced in his defense of the Indigenous peoples of the Americas The Unheard Voice innovatively asserts that the Brevisima relación's legal character is intimately linked to civil and ecclesial genres of the late Renaissance juridical tradition This paradigm shifting book contextualizes the formation of Las Casas's juridical voice in canon law and theology initially as a secular cleric subsequently as a Dominican friar and finally as a diocesan bishop and demonstrates how his experienced juridical voice fought for justice in trans Atlantic debates about Indigenous peoples' level of humanity religious freedom enslavement and conquest Reaching the headwaters of Las Casas's hitherto unheard juridical voice of law in the Brevisima relación provides readers with a previously unheard interpretation an appealing voice for readers and students of this powerful Early Modern text that still resonates today The Unheard Voice of Law is a valuable companion text for many in the disciplines of literature history theology law and philosophy who read Bartolomé de las Casas's Very Brief Account and study his life labor and legacy

Archaeologies of Cosmospaces in the Americas J. Grant Stauffer, Bretton T. Giles, Shawn P. Lambert, 2022-09-08 This volume examines how pre-Columbian societies in the Americas envisioned their cosmos and iteratively modeled it through the creation of particular objects and places It emphasizes that American societies did this to materialize overarching models and templates for the shape and scope of the cosmos the working definition of cosmospace Noting a tendency to gloss over the ways in which ancestral Americans envisioned the

cosmos as intertwined and animated the authors examine how cosmoscapes are manifested archaeologically in the forms of objects and physically altered landscapes This book s chapters therefore offer case studies of cosmoscapes that present themselves as forms of architecture portable artifacts and transformed aspects of the natural world In doing so it emphasizes that the creation of cosmoscapes offered a means of reconciling peoples experiences of the world with their understandings of them

Without History Jose Rabasa,2010-06-27 On December 22 1997 forty five unarmed members of the indigenous organization Las Abejas The Bees were massacred during a prayer meeting in the village of Acteal Mexico The members of Las Abejas who are pacifists pledged their support to the Zapatista Army of National Liberation a primarily indigenous group that has declared war on the state of Mexico The massacre has been attributed to a paramilitary group composed of ordinary citizens acting on their own although eyewitnesses claim the attack was planned ahead of time and that the Mexican government was complicit In *Without History* Jose Rabasa contrasts indigenous accounts of the Acteal massacre and other events with state attempts to frame the past control subaltern populations and legitimize its own authority Rabasa offers new interpretations of the meaning of history from indigenous perspectives and develops the concept of a communal temporality that is not limited by time but rather exists within the individual community and culture as a living knowledge that links both past and present Due to a disconnection between indigenous and state accounts as well as the lack of archival materials many of which were destroyed by missionaries the indigenous remain outside of or without history according to most of Western discourse The continued practice of redefining native history perpetuates the subalternization of that history and maintains the specter of fabrication over reality Rabasa recalls the works of Marx Lenin and Gramsci as well as contemporary south Asian subalternists Ranajit Guha and Dipesh Chakrabarty among others He incorporates their conceptions of communality insurgency resistance to hegemonic governments and the creation of autonomous spaces as strategies employed by indigenous groups around the globe but goes further in defining these strategies as millennial and deeply rooted in Mesoamerican antiquity For Rabasa these methods and the continuum of ancient indigenous consciousness are evidenced in present day events such as the Zapatista insurrection

Transmodal Communications Margaret R. Hawkins,2021-09-06 This book examines semiotics meaning making and the co construction of relations in transmodal communications Through the lens of transpositioning the multiple and interwoven layers of emplacements and positionings that are entailed in communications which cross and transcend the boundaries that have historically shaped our thinking about the world and its inhabitants the chapters interrogate digital languaging and literacies and how transmodal communications shape identities belongings and relationships with particular attention paid to issues of equity and social justice The chapter authors consider both transmodalities and critical cosmopolitanism as they analyze empirical data from youth adults and researchers participating in a project that digitally connects youth to share their lives across diverse and under resourced global communities In offering this multi perspectival multi voiced volume the authors portray and address

methodological issues in researching transglobal transmodal communications **Multicultural Literature for Latino**

Bilingual Children Ellen Riojas Clark,Belinda Bustos Flores,Howard L. Smith,Daniel Alejandro González,2015-11-25 While there are volumes that fall into the category of children s literature there appears to be relatively few that explore the needs of bilingual learners and the linguistic and sociocultural context of Latino children s literature This volume makes a needed contribution by addressing the social cultural academic and linguistic needs of Latino bilingual learners who are still underserved through current school practices We aim to conceptualize different forms of social knowledge so that they can serve as cultural resources for learning acquiring knowledge and transforming self and identity This volume presents a balance of theory research and practice that speak to authentic multicultural Latino literature and helps ensure its availability for all students The intended outcome of this volume then is to create a heightened awareness of the cultural and linguistic capital held by the Latino community to increase Latino students social capital through the design of critical pedagogical practices and for the formulation of a new perspective that of Latino multicultural literature for children

B. Ann Tlusty,2021-05-06 This book examines how the profound religious political and intellectual shifts that characterize the early modern period in Europe are inextricably linked to cultural uses of alcohol in Europe and the Atlantic world Combining recent work on the history of drink with innovative new research the eight contributing scholars explore themes such as identity consumerism gender politics colonialism religion state building and more through the revealing lens of the pervasive drinking cultures of early modern peoples Alcohol had a place at nearly every European table and a role in much of early modern experience from building personal bonds via social and ritual drinking to fueling economies at both micro and macro levels At the same time drinking was also at the root of a host of personal tragedies including domestic violence in the home and human trafficking across the Atlantic Alcohol in the Early Modern World provides a fascinating re examination of pre modern beliefs about and experiences with intoxicating beverages *American Indian History* Camilla

Michael Francis,2015-11-02 In early April 1536 Gonzalo Jim nez de Quesada led a military expedition from the coastal city of Santa Marta deep into the interior of what is today modern Colombia With roughly eight hundred Spaniards and numerous native carriers and black slaves the Jim nez expedition was larger than the combined forces under Hernando Cort s and Francisco Pizarro Over the course of the one year campaign nearly three quarters of Jim nez s men perished most from illness and hunger Yet for the 179 survivors the expedition proved to be one of the most profitable campaigns of the sixteenth century Unfortunately the history of the Spanish conquest of Colombia remains virtually unknown Through a series of firsthand primary accounts translated into English for the first time Invading Colombia reconstructs the compelling tale of the Jim nez expedition the early stages of the Spanish conquest of Muisca territory and the foundation of the city of Santa F de Bogot We follow the expedition from the Canary Islands to Santa Marta up the Magdalena River and finally into Colombia s eastern highlands These highly engaging accounts not only challenge many current assumptions about the nature of Spanish conquests in the New World but they also reveal a richly entertaining yet tragic tale that rivals the great conquest narratives of Mexico and Peru

"Another Jerusalem" José-Juan López-Portillo, 2017-12-11 In *Another Jerusalem Political Legitimacy and Courtly Government in the Kingdom of New Spain 1535-1568* José Juan López Portillo offers a new approach to understanding why the most densely populated and culturally sophisticated regions of Mesoamerica accepted the authority of Spanish viceroys. By focusing on the routines and practices of quotidian political life in New Spain and the ideological affinities that bound indigenous and non-indigenous political communities to the viceregal regime, López Portillo discloses the formation of new loyalties, interests, and identities particular to New Spain. Rather than the traditional view of European colonial domination over a demoralized indigenous population, New Spain now appears as Mexico City's sub-empire, an aggregate of the Habsburg composite monarchy. Embellished with wonderful illustrations, this work draws upon extensive secondary and primary sources. Scholars studying Spain's America will find it a thoughtful addition to historical literature on 16th-century New Spain. M. A. Burkholder, University of Missouri, St. Louis, in *CHOICE* July 2018, Vol. 55, No. 11

Classic Maya Provincial Politics Lisa J. LeCount, Jason Yaeger, 2010-09-15 Most treatments of large Classic Maya sites such as Caracol and Tikal regard Maya political organization as highly centralized. Because investigations have focused on civic buildings and elite palaces, however, a critical part of the picture of Classic Maya political organization has been missing. The contributors to this volume chart the rise and fall of the Classic Maya center of Xunantunich, paying special attention to its changing relationships with the communities that comprised its hinterlands. They examine how the changing relationships between Xunantunich and the larger kingdom of Naranjo affected the local population, the location of their farms and houses, and the range of economic and subsistence activities in which both elites and commoners engaged. They also examine the ways common people seized opportunities and met challenges offered by a changing political landscape. The rich archaeological data in this book show that incorporating subject communities and people and keeping them incorporated was an on-going challenge to ancient Maya rulers. Until now, archaeologists have lacked integrated regional data and a fine-grained chronology in which to document short-term shifts in site occupations, subsistence strategies, and other important practices of the daily life of the Maya. This book provides a revised picture of Maya politics, one of different ways of governing and alliance formation among dominant centers, provincial polities, and hinterland communities.

Unravelling Dreams Ben Marsh, 2020-04-23 One of the greatest hopes and expectations that accompanied American colonialism from its earliest incarnation was that Atlantic settlers would be able to locate new sources of raw silk with which to satiate the boundless desire for luxurious fabrics in European markets. However, in spite of the great upheavals and achievements of Atlantic plantation, this ambition would never be fulfilled. By taking the commercial failure of silk seriously and examining numerous experiments across New Spain, New France, British North America, and the early United States, Ben Marsh reveals new insights into aspiration, labour, environment, and economy in these societies. Each devised its own dreams and plans of

cultivation framed by the particularities of cultures and landscapes Writ large these dreams would unravel one by one the attempts to introduce silkworms across the Atlantic world ultimately constituted a step too far marking out the limits of Europeans seemingly unbounded power

Rethinking Zapotec Time David Tavárez, 2022-02-08 2023 Best Subsequent Book Native American and Indigenous Studies Association 2023 Honorable Mention Best Book in the Social Sciences Latin American Studies Association Mexico Section 2022 Marysa Navarro Best Book Prize New England Council of Latin American Studies As the first exhaustive translation and analysis of an extraordinary Zapotec calendar and ritual song corpus seized in New Spain in 1704 this book expands our understanding of Mesoamerican history cosmology and culture In 1702 after the brutal suppression of a Zapotec revolt the bishop of Oaxaca proclaimed an amnesty for idolatry in exchange for collective confessions To evade conflict Northern Zapotec communities denounced ritual specialists and surrendered sacred songs and 102 divinatory manuals which preserve cosmological accounts exchanges with divine beings and protocols of pre Columbian origin that strongly resemble sections of the Codex Borgia These texts were sent to Spain as evidence of failed Dominican evangelization efforts and there they remained in oblivion until the 1960s In this book David Tav rez dives deep into this formidable archive of ritual and divinatory manuals the largest calendar corpus in the colonial Americas and emerges with a rich understanding of Indigenous social and cultural history Mesoamerican theories of cosmos and time and Zapotec ancestor worship Drawing on his knowledge of Zapotec and Nahuatl two decades of archival research and a decade of fieldwork Tav rez dissects Mesoamerican calendars as well as Native resistance and accommodation to the colonial conquest of time while also

addressing entangled transatlantic histories and shining new light on texts still connected to contemporary observances in Zapotec communities Archaeology of Households, Kinship, and Social Change Lacey B. Carpenter, Anna Marie Prentiss, 2021-11-25 Archaeology of Households Kinship and Social Change offers new perspectives on the processes of social change from the standpoint of household archaeology This volume develops new theoretical and methodological approaches to the archaeology of households pursuing three critical themes household diversity in human residential communities with and without archaeologically identifiable houses interactions within and between households that explicitly considers impacts of kin and non kin relationships and lastly change as a process that involves the choices made by members of households in the context of larger societal constraints Encompassing these themes authors explore the role of social ties and their material manifestations within the house dwelling or other constructed space how the household relates to other social units how households consolidate power and control over resources and how these changes manifest at multiple scales The case studies presented in this volume have broader implications for understanding the drivers of change the ways households create the contexts for change and how households serve as spaces for invention reaction and or resistance Understanding the nature of relationships within households is necessary for a more complete understanding of communities and regions as these ties are vital to explaining how and why societies change Taking a comparative outlook with case studies from around the world this volume will inform students and professionals researching household archaeology and be of interest to other disciplines concerned with the relationship between social networks and societal change
