Ponomareff,Kenneth A. Bryson,2006-01-01 This interdisciplinary book examines the nature of spirituality and the role it plays in the search for meaning Spirituality is a loving tendency towards the sacred In a secular environment the sacred is taken to be a power greater than self In a religious environment the Sacred refers to God or Higher Power The book examines the developments of the s Sacred in great works of art and literature as well as in medicine theology psychology philosophy and religion Spirituality also functions as an unloving tendency towards disunity or a force for evil The first part of the book examines the ways of the spiritual as a force for good and evil We have just witnessed one of the bloodiest centuries in human history The experience of two World Wars leaves a legacy of brokenness Where Nossack s reminiscences bore poetic compassionate and personal witness to the disaster Eliot s poetry reads more like a sacred and religious poem taking

contemporary Western European civilization to task much like the biblical prophets of old for its spiritual bankruptcy Albert Einstein Edvard Munch's Madonna and Carl Jung's unconscious touch the curve of the Sacred in more promising places The second part examines how the search for meaning works The distinction between being human and being a person plays a central role in the life of the spiritual the spiritual is manifest in the activities taking place in the central self The central self is the locus of all thoughts feelings acts of reason and judgment conscious and unconscious processes alike The central self is the place where social relationships and environmental relationships are processed The essential feature of the central self is that it does not exist outside these processes The same spiritual energies that light up great works of art also light up our destructive side only the associations change

[T&T Clark Handbook of Edward Schillebeeckx](#) Stephan van Erp, Daniel Minch, 2019-09-05 Written by leading experts on both the thought of Edward Schillebeeckx and modern theology this handbook offers the first comprehensive study of the historical philosophical political and theological aspects of

Schillebeeckx's work As one of the most influential Catholic theologians of the twentieth century he played a key role in the preparations for the theological revolution of the Second Vatican Council and the debates of the post conciliar era His engagement with critical theory hermeneutics and biblical scholarship culminated in his groundbreaking Christological trilogy which marked Schillebeeckx as one of the most significant and innovative thinkers of his time By building an overview of recent research into Schillebeeckx's writing the contributors shed new light on his influence and ongoing relevance in contemporary theology Beginning with the roots of Schillebeeckx's views on metaphysics spirituality and faith the essays then move to his work during and after the Second Vatican Council and then to his engagement with new directions in philosophy and his renewal of classical topics such as creation theological and soteriological anthropology and eschatology Culminating with an analysis of theology and culture this handbook thoroughly explores the implications of Schillebeeckx's theology for a contemporary readership

**The Kingdom of God Is among You** Gordon D. Fee, Cherith Fee

Nordling, 2025-03-17 In this exciting volume a renowned New Testament scholar provides his lectures on New Testament theology and provides us a window on his approach on a variety of issues He describes the task as follows New Testament theology is the art of giving coherence to the collective witness of the twenty seven New Testament documents as they attest to the Christian faith while not sacrificing the historical particularity of any one text or author within the canon and to do this as clearly as possible and with as much consistency and unity as possible New Testament theology deals with all the New Testament We must resist the tendency to find a canon within the canon or to neglect some lesser figures in the New Testament canon New Testament theology is first of all a descriptive task i.e. we must first try to describe what is there But given our stance toward Scripture what we describe also becomes prescriptive or normative We must never forget that the writings of the New Testament are ad hoc documents written in each and every case to speak to a specific need Thus rather than careful systematic presentations of theology such as in a book or a lecture the earliest Christian theology is worked out in the marketplace as it were Therefore we must be careful not to force the New Testament writers to answer all of our questions nor even to use our logic or thought forms excerpted from chapter 1

*Jesus's Dialogue* John H.S. Lee, 2022-12-23

This book aims to guide How to defend Christianity and How to say in our daily encounters and conversations The questions how to defend Christianity and evangelize remain a challenging task in our daily encounters and communications for many Christians alike There is no methodological approach to how in this area It's not because of a lack of biblical knowledge or learning Instead we don't have a model for conversations and don't know the specific communication skills or methods of evangelism i.e. when how and what to say The discovery of Jesus's dialogue breaks down the barriers between faith and reality and quenches our long standing thirst and questions about our daily encounters and conversation at once The Gospel of John contains a relatively large number of detailed conversations with Jesus The talks in various situations teach us what to say and convey evangel as a golden rule I tried to sort it out on my own Jesus's conversation tells us what attitude we

should take and how we speak It also introduces an aggressive conversational form that leads to dialogues In particular it is gratifying to discover that there is a specific frame in Jesus s dialogue evangelism method This book introduces it and also contains the way to use field materials and their effective means of conveying the truth in daily life and introduces the way how to cope with the frictions assaults that Jesus had shown The Johannine Footwashing as the Sign of Perfect Love Bincy Mathew,2018-11-23 Back cover Was the footwashing in Jn 13 1 20 simply an act of service or humility Bincy Mathew provides a critical and thorough exegetical analysis of the footwashing and shows that it is the symbolic prefiguration of Jesus death on the cross enacted during the last supper to manifest his perfect love for his own **Isaiah's Leper** George D. denominational interpretations Historically conditioned conclusions are taken out of their context Booklets have been produced for young people that largely define the world as dancing smoking drugs music theater and music This book will not spend time on these parochial notions Rather it will deal with God s love for the world While Christians are often warned against the world God loved the world from a different standpoint and made the ultimate sacrifice to give this world the chance to be restored to rightness with him *Imaginative Love in John* Tilborg,2021-08-30 This study examines love in John s Gospel It attempts to answer the question in what way love in the Johannine Gospel receives its narratively imaginative stature John s Gospel develops a love story which is different from any other narrative Much attention is given to the cultural contextualisation as well as to the narrative and imaginative textualisations of the various love relationships In this Jesus relationship with his beloved disciple plays a central role The study concludes that all other love relationships the relationship of Jesus with his father mother brothers and sisters with John the Baptist with Peter and the other disciples with particular women and men derive their colour and content from this specific relationship **Making Friends Across the Boundaries of Religious Differences** DEUSDEDIT NKURUNZIZ,2014-12-09 Making Friends Across the Boundaries of Religious Differences Religions Building Peace for a New World Order discusses the meaning reality and dynamism of religion explores different faiths religious traditions currently influencing humanity today and argues that interreligious dialogue is the way to go for the people of different religions to work together to enhance a culture of justice human rights democratic governance nonviolence and peace in the world today While religion has been used to cause conflict violence and war the book explains how in this time of globalization faith and religion can be enhanced as resources for a new world order of justice and peace The book further highlights interreligious dialogue as a methodology and way of life which brings about unity in diversity advocacy for a world without terrorism theological perspectives women in interreligious dialogue and how in Africa interreligious action is the soul of social economic transformation African Renaissance and Cosmopolitanism
