Mestizaje Upside Down Aesthetic Politics In Modern Bolivia Pitt Illuminations:

Mestizaje Upside Down Javier Sanjinés C., 2010-06-15 Mestizaje the process of cultural ethnic and racial mixing of Spanish and indigenous peoples has been central to the creation of modern national identity in Bolivia and much of Latin America Though it originally carried negative connotations by the early twentieth century it had come to symbolize a national unity that transcended racial divides Javier Sanjines C contends that mestizaje rather than a merging of equals represents a fundamentally Western perspective that excludes indigenous ways of viewing the world In this sophisticated study he reveals how modernity in Bolivia has depended on a perception forged during the colonial era that local cultures need to be uplifted Sanjines traces the rise of mestizaje as a defining feature of Bolivian modernism through the political struggles and upheavals of the twentieth century He then turns this concept upside down by revealing how the dominant discussion of mestizaje has been resisted and transformed by indigenous thinkers and activists Rather than focusing solely on political events Sanjines grounds his argument in an examination of fiction political essays journalism and visual art offering a unique and masterly overview of Bolivian culture identity and politics *Latin American Studies Association ...
