## **Multimodality And Active Listenership A Corpus Approach Dawn Knight:**

Multimodality and Active Listenership Dawn Knight, 2011-10-13 Current corpora are invaluable resources for generating accurate and objective analyses of patterns of language use. However, spoken corpora are effectively mono-modal, presenting data in the same physical medium: text. The reality of a discourse situation is lost in its representation as text. Using multimodal data sets when conducting corpus-based pragmatic analyses is one solution. This book looks at multimodal corpora in some depth, using backchanneling as the conversational feature to be analysed. It provides a bottom-up investigation of the issues and challenges faced at every stage of multimodal corpus construction and analysis, as well as providing an in-depth linguistic analysis of a cross-section of multimodal corpus data. The collaborative and co-operative nature of backchannels is highlighted in this book, and an adapted pragmatic functional linguistic coding matrix for the characterisation of backchanneling phenomena is presented. Dawn Knight also looks at possible directions in the construction and use of multimodal corpus linguistics. *Multimodality and Active Listenership* Dawn Knight, 2011-12-15 **Web As**

**Corpus** Maristella Gatto, 2014-02-13 Is the internet a suitable linguistic corpus? How can we use it in corpus techniques? What are the special properties that we need to be aware of? This book answers those questions. The Web is an exponentially increasing source of language and corpus linguistics data. From gigantic static information resources to user-generated Web 2.0 content, the breadth and depth of information available is breathtaking and bewildering. This book explores the theory and practice of the web as corpus. It looks at the most common tools and methods used and features a plethora of examples based on the author's own teaching experience. This book also bridges the gap between studies in computational linguistics, which emphasize technical aspects, and studies in corpus linguistics, which focus on the implications for language theory and use.

*Corpus Linguistics and 17th-Century Prostitution* Anthony McEnery, Helen Baker, 2016-12-01 This book is open access and available on [www.bloomsburycollections.com](http://www.bloomsburycollections.com). It is funded by Knowledge Unlatched. Corpus linguistics has much to offer history, being as both disciplines engage so heavily in analysis of large amounts of textual material. This book demonstrates the opportunities for exploring corpus linguistics as a method in historiography and the humanities and social sciences more generally. Focussing on the topic of prostitution in 17th-century England, it shows how corpus methods can assist in social research and can be used to deepen our understanding and comprehension. McEnery and Baker draw principally on two sources: the newsbook *Mercurius Fumigosis* and the Early English Books Online Corpus. This scholarship on prostitution and the sex trade offers insight into the social position of women in history. *Corpus Stylistics in Heart of Darkness and its Italian Translations* Lorenzo Mastropierro, 2017-11-16 This book explores the interaction between corpus stylistics and translation studies. It shows how corpus methods can be used to compare literary texts to their translations through the analysis of Joseph Conrad's *Heart of Darkness* and four of its Italian translations. The comparison focuses on stylistic features related to the major themes of *Heart of Darkness*. By combining quantitative and qualitative techniques, Mastropierro

discusses how alterations to the original s stylistic features can affect the interpretation of the themes in translation The discussion illuminates the manipulative effects that translating can have on the reception of a text showing how textual alterations can trigger different readings This book advances the multidisciplinary dialogue between corpus linguistics and translation studies and is a valuable resource for students and researchers interested in the application of corpus approaches to stylistics and translation

**The Routledge Handbook of English Language and Digital Humanities** Svenja Adolphs, Dawn Knight, 2020-04-16 The Routledge Handbook of English Language and Digital Humanities serves as a reference point for key developments related to the ways in which the digital turn has shaped the study of the English language and of how the resulting methodological approaches have permeated other disciplines It draws on modern linguistics and discourse analysis for its analytical methods and applies these approaches to the exploration and theorisation of issues within the humanities Divided into three sections this handbook covers sources and corpora analytical approaches English language at the interface with other areas of research in the digital humanities In covering these areas more traditional approaches and methodologies in the humanities are recast and research challenges are re framed through the lens of the digital The essays in this volume highlight the opportunities for new questions to be asked and long standing questions to be reconsidered when drawing on the digital in humanities research This is a ground breaking collection of essays offering incisive and essential reading for anyone with an interest in the English language and digital humanities

*Representation of the British Suffrage Movement* Kat Gupta, 2015-11-19 Focussing on The Times this monograph uses corpus linguistics to examine how suffrage campaigners different ideologies were conflated in the newspaper over a crucial time period for the movement 1908 to 1914 leading up to the Representation of the People Act in 1918 Looking particularly at representations of suffrage campaigners support of or opposition to military action Gupta uses a range of methodological approaches drawn from corpus linguistics discourse analysis and CDA These include collocation analysis examination of consistent significant collocates and van Leeuwen s taxonomy of social actors The book offers an innovative insight into contemporary public understanding of the suffrage campaign with implications for researchers examining large complex protest movements

The Prosody of Formulaic Sequences Phoebe Lin, 2018-09-20 To

apply the same approaches to analysing spoken and written formulaic language is problematic to do so masks the fact that the contextual meaning of spoken formulaic language is encoded to a large extent in its prosody In *The Prosody of Formulaic Sequences* Phoebe Lin offers a new perspective on formulaic language arguing that while past research often treats formulaic language as a lexical phenomenon the phonological aspect of it is a more fundamental facet This book draws its conclusions from three original empirical studies of spoken formulaic language assessing intonation unit boundaries as well as features such as tempo and stress placement Across all studies Lin considers questions of methodology and conceptual framework The corpus based descriptions of prosody outlined in this book not only deepen our understanding of the nature of formulaic language but have important implications for English Language Teaching and automatic speech synthesis

Investigating Adolescent Health Communication Kevin Harvey, 2014-02-25 A comprehensive corpus analysis of adolescent health communication is long overdue and this book provides it We know comparatively little about the language adolescents use to articulate their health concerns and discourse analysis of their choices can shed light on their attitudes towards and beliefs about health and illness This book interrogates a two million word corpus of messages posted by adolescents to an online health forum It adopts a mixed method corpus approach to health communication combining both quantitative and qualitative techniques Analysis in this way gives voice to an age group whose subjective experiences of illness have often been marginalized or simply overlooked in favour of the concerns of older populations *Sadness Expressions in English and Chinese* Ruihua Zhang, 2014-09-25 Winner of the Tianjin Social Science Outstanding Achievement Award This book reports on the contrastive semantic investigation of sadness expressions between English and Chinese based on two monolingual general corpora and a parallel corpus The exploration adopts a unique theoretical approach which integrates corpus linguistic theories on meaning as a social construct usage and paraphrase with a corpus linguistic lexical model It employs a new complex but workable methodology which combines computational tools with manual examination to tease meaning out of corpus evidence to compare and contrast lexical items that do not match up neatly between languages It looks at sadness expressions both within and across languages in terms of three corpus linguistic structural categories i e colligation collocation and semantic association preference and paraphrase both explicit and implicit to capture their subtle nuances of meaning disclose the culture specific conceptualisations encoded in them and highlight their respective cultural distinctiveness of emotion By presenting multidisciplinary original work *Sadness Expressions in English and Chinese* will be of interest to researchers in corpus linguistics contrastive lexical semantics psychology bilingual lexicography and language pedagogy Keywords in the Press: The New Labour Years Lesley Jeffries, Brian Walker, 2017-11-16 Building on Raymond Williams iconic *Keywords* released in 1975 Jeffries and Walker show how some pivotal words significantly increased in use and evolved in meaning during the years of the New Labour project Focussing on print news media this book establishes a set of socio political keywords for the Blair Years and demonstrates how their evolving meanings are indicative of the

ideological landscape in Britain at that time and the extent to which the cultural hegemony of the New Labour project influenced the language of the commentariat Combining corpus linguistic approaches with critical stylistics the authors conduct an analysis of two newspaper corpora using computational tools Looking closely at textually constructed meanings within the data their investigation of the keywords has a qualitative focus and sets out a clear methodology for combining corpus approaches with systematic co textual analysis

**Corpus Linguistics for Virtual Workplace Discourse** Dawn Knight, Anne O'Keeffe, Christopher Fitzgerald, Justin McNamara, Geraldine Mark, Sandrine Peraldi, Tania Fahey Palma, Fiona Farr, Benjamin Cowan, Svenja Adolphs, 2024-12-19 Corpus Linguistics for Virtual Workplace Discourse provides a thorough and practical step by step guide to constructing and analysing a multi modal corpus of virtual meetings It draws from original data from video recordings of virtual meetings with a variety of participant profiles from various industries alongside examples of images and transcriptions from this data to illustrate key points This cutting edge volume contextualises the field through previous corpus studies of interaction in a workplace context as well as a description of various technology mediated interactions culminating in video mediated interaction before outlining the cross section of these two areas in describing the characteristics of virtual meetings An overview of multi modal corpus analysis provides examples and analysis of virtual meetings from a multi modal perspective demonstrating what is unique about virtual workplace discourse The text concludes by presenting how multi modal corpus analysis can aid understanding and delivery of virtual meetings through suggestions regarding meeting management At various stages throughout the book readers will engage with tasks that promote critical thinking at each phase of background research and data analysis This will ensure that practical learning outcomes are achieved as well as broad insights gained into multi modal corpus analysis of virtual meetings This timely prescient text is essential reading to students and researchers in corpus linguistics and any applied linguistics scholar interested in workplace communication as well as valuable reading for any students or scholars in business communication
