Multinationals, Governments and International Technology Transfer (RLE International Business) Edward Safarian,Gilles Bertin,2013-05-07 This book examines the international technology transfer process and the role of both multinationals and host country governments in that process with emphasis on the experience of the more developed countries It explores a range of issues and presents much original thinking and research findings It discusses in particular the strategies of the multinationals assessing how far they are willing to accept technology transfer to external partners as opposed to subsidiaries which they can control It also examines how far technical transfers are successful from the viewpoint of the firm and countries involved arguing that governments are most likely to succeed in attracting multinational transfers if they are aware of and accommodate to some degree multinationals preferences *Multinationals, Governments and International Technology Transfer (RLE International Business)* Edward Safarian,Gilles Bertin,2013-05-07 This book examines the international technology transfer process and the role of both multinationals and host country governments in that process with emphasis on the experience of the more developed countries It explores a range of issues and presents much original thinking and research findings It discusses in particular the strategies of the multinationals assessing how far they are willing to accept technology transfer to external partners as opposed to subsidiaries which they can control It also examines how far technical transfers are successful from the viewpoint of the firm and countries involved arguing that governments are most likely to succeed in attracting multinational transfers if they are aware of and accommodate to some degree multinationals preferences Multinationals and Europe 1992 (RLE International Business) Beat Burgenmeier,Jean-Louis Mucchielli,2013-01-25 When it was originally published this book presented the first independent review of the critical role played by multinationals in Europe Extending its focus beyond 1992 the book examines both the economic and business strategy frameworks the firms need to develop to maintain a competitive advantage Using case studies from specific industries it looks not only at the activity of multinationals within the single market but explores the competitive strategies of non European firms with special emphasis on Japanese companies which were poised to exploit 1992 The importance of interaction between multinationals and national government policies is also analysed taking into account the integration already achieved **Multinational Enterprises and Government Intervention (RLE International Business)** Thomas Poynter,2013-01-04 Government intervention can reduce the profits of multinational enterprises These interventions also increase uncertainty and risk and distort trading and intra firm sourcing patterns The focus of this book is a corporate survival plan that describes how a multinational can monitor its exposure to intervention and then seek to reduce it It reports on the successes and failures of firms as they implement various global management systems and recommends a general strategy Such a strategy will allow multinationals to continue foreign investment with the longer term horizons that will benefit both the firms and their host countries **Multinationals, Technology & Competitiveness (RLE International**

Business) John H Dunning,2013-04-02 This book explores some aspects of the interface between technology competitiveness and the role of multinational enterprises in the world economy This group of essays stresses the role of asset creation and usage rather than reliance on natural factor endowments as a basis for national competitiveness and examines the role of multinational enterprises as vehicles for technological transfer and the efficient co ordination of economic activity across national boundaries **New Theories of the Multinational Enterprise (RLE International Business)** Alan

Rugman,2013-04-02 This book brings together the work of noted authorities in the field of multinational enterprises who explain and debate the merits of internalization theory as the new general theory of the multinational enterprise Alternatives to internalization such as licensing joint ventures and other contractual arrangements are also evaluated There are many applications to actual businesses such as in the hotel fish food and banking industries Also considered are regional office location and applications of the theory to Canada Japan the former Yugoslavia the UK and USA *International Production*

and the Multinational Enterprise (RLE International Business) John Dunning,2013-03-05 The growth and impact of the multinational enterprise MNE in the post war period is one of the most important phenomena of our time This volume originally published in 1981 provides a comprehensive and detailed review of both the theoretical and policy issues at a time when the subject had reached a watershed after the controversies of the 1970s The book provides a balanced discussion of major themes such as the development of modern theories of international production the impact of the MNE on the nation state and the structure of the international market the response of governments and the appropriate framework for policy measures and the historical context and likely future of the MNE **Transaction Costs & Trade Between Multinational**

Corporations (RLE International Business) C Hallwood,2013-01-04 Until this book was published little had appeared on the matter of the organization of production in oil gathering This book Describes the global offshore oil supply industry and its features on one of the world s major offshore oil services bases Draws on the theory of the multinational corporation to explain why buyers and sellers should have internationalized themselves into a symbiotic relationship Discusses the preference of the oil companies for vertical disintegration Explains the transaction cost paradigm Integrates the largely American literature on the transaction cost paradigm with the literature on the multinational corporation which is largely British *Multinational Service Firms (RLE International Business)* Peter Enderwick,2013-01-04 This book presents a world

survey of multinational firms in the key parts of the service sector The service sector has grown greatly in importance in recent years in many countries of the world Many of the key parts of the service sector that are growing most rapidly are dominated by large multinational firms and this has important implications for the future shape of the world economy and for closer economic integration between countries In addition the particular style and operations of multinational firms in one sector can provide useful lessons for multinational enterprise in other sectors The book examines the operations and the style of the firms considered and explores how they dominate their sectors It charts how the firms have developed discusses the

critical issues facing them and suggests how present trends may continue in the future

The Geography of Multinationals (RLE International Business) Michael Taylor, Nigel Thrift, 2013-04-02 Through a series of international case studies the nature and the geographical implications of the development of multinational corporations is examined The volume concentrates on the latter Post War period of corporate restructuring and readjustment in response to world wide recession in the mid 1980s The volume is divided into two parts In the first each of the chapters considers a particular aspect of the problem of how multinational corporations have developed In the second part the chapters consider different aspects of the economic and social impacts of these corporations The common theme that links all the papers is their emphasis on careful historical analysis of different forms of spatial organisation and their transformation into other different forms
