Before Homosexuality in the Arab-Islamic World, 1500-1800 Khaled El-Rouayheb, 2009-03-02 Attitudes toward homosexuality in the pre modern Arab Islamic world are commonly depicted as schizophrenic visible and tolerated on one hand prohibited by Islam on the other Khaled El Rouayheb argues that this apparent paradox is based on the anachronistic assumption that homosexuality is a timeless self evident fact to which a particular culture reacts with some degree of tolerance or intolerance Drawing on poetry biographical literature medicine dream interpretation and Islamic texts he shows that the culture of the period lacked the concept of homosexuality The City Kathryn Hinds, 2009-01-30 A social history of the Islamic world from the eighth through the mid thirteenth century with a focus on life in the cities Concise Biographical Companion to Index Islamicus Wolfgang Behn, 2006-03-01 This second of the three volume Who s Who in Islamic Studies presents the scholarly world at long last with its own biographical encyclopaedia Taking as a starting point the inventory of authors from the renowned Index Islamicus the author Wolfgang Behn Berlin has systematically collected numerous data on the lives and works of the tens of thousands of authors listed in the Index Islamicus from 1665 to 1980 This Biographical Companion will be an indispensable reference tool for the serious student and scholar of Islamic Studies It enables the user to quickly gain knowledge on the life work and professional background of almost every major and minor author and thus to place each author in his her proper perspective A tremendous achievement and a true must for every library Homelands and Diasporas Minna Rozen, 2008-10-30 The Greek and Jewish diasporas are the most significant diasporas of Western civilisation Homelands and Diasporas is the first book to explore the similarities and differences between these two experiences In the process it sheds fascinating light on their fundamental importance for both Greek and Jewish societies The authors examine Greek and Jewish diasporas throughout history from classical and Biblical times to the present and all over the world in Greece the Balkans Turkey Russia the Near and Middle East Spain and the US They analyse

the very nature of diaspora examining both the Greek concept of noble expansion and the Jewish idea of enforced exile and analyse community structures as well as social and religious networks combining Scriptural analysis with cultural and political history Diaspora is a difficult and emotive concept but Homelands and Diasporas offers a balanced and perceptive quide to the connected histories of these two peoples away from their homelands Benefit Street Adria Bernardi, 2022-08-16 Set in an unnamed provincial capital of an unnamed country Benefit Street by Adria Bernardi is a novel that tells of a wide circle of friends teachers lawyers missionaries doctors artisans in a time of gathering and dispersal It tells the story of mothers daughters sisters wives colleagues and neighbors as war to the East threatens and constitutional rights are daily eroded by an increasingly authoritarian regime *Jews and Judaism in the Middle Ages* Theodore L. Steinberg, 2007-12-30 Although Jews constituted the largest minority in medieval Europe they tend to be largely ignored in general studies of the Middle Ages with the result that their history and culture are both overlooked and misunderstood Jews and Judaism in the Middle Ages attempts to correct that situation by presenting in clear and accessible language an introduction to Jewish thought as well as to medieval Jewish history and texts This volume examines the everyday life of medieval Jews in both Christian and Muslim environments looks at the causes of medieval anti Semititism and anti Judaism and includes a brief history of the persecutions to which medieval Jews were subjected Despite popular opinion today medieval Jewish life consisted of far more than persecution and suffering and the volume examines Jewish accomplishments in the fields of biblical commentary literature philosophy and mysticism demonstrating that Jewish life while often difficult also had its creative and glorious side Because the Talmud was the most important Jewish text throughout the Middle Ages this volume introduces readers to the intricacies of that long and involved work which helped to shape medieval Christianity

The Countryside Kathryn Hinds,2009-01-30 A social history of the Islamic world from the eighth through the mid thirteenth century with a focus on life in the desert and countryside Provided by publisher Poets and Pahlevans Marcello di Cintio,2010-07-16 Marcello Di Cintio prepares for his journey into the heart of Iran with the utmost diligence He takes lessons in Farsi researches Persian poetry and sharpens his wrestling skills by returning to the mat after a gap of some years Knowing that there is a special relationship between heroic poetry and the various styles of traditional Persian wrestling he sets out to discover how Iranians reconcile creativity with combat From the moment of his arrival in Tehran the author is overwhelmed by hospitality He immerses himself in male company in tea houses conversing while smoking the qalyun or water pipe Iranian men are only too willing to talk especially about politics Confusingly he is told conflicting statements that all Iranians love George Bush that all Iranians hate George Bush that life was infinitely better under the Shah that the mullahs swept away the corruption of the Shah s regime and made life better for all Once out of Tehran he learns where the traditional forms of wrestling are practised His path through the country is directed by a search for the variant disciplines and local techniques of wrestling and a need to visit sites and shrines associated with the great Persian poets

Hafez Ferdosi Omar Khayy m Attar Shahriyar and many others Everywhere his quest leads him he discovers that poetry is loved and quoted by everyone from taxi drivers to students His engagement with Iranian culture is intimate he wrestles sometimes reluctantly when invited samples illegal home brew alcohol attends a wedding joins mourners learns a new way to drink tea and attempts to observe the Ramazan fast though not a Muslim himself Though he has inevitable brushes with officialdom he never feels in danger even when he hears that a Canadian photo journalist has apparently been beaten to death in a police cell during the author's visit The outraged and horrified reaction of those around him to this violent act tightens the already close bond he has formed with the Persians His greatest frustration is that he is unable to converse freely with Iranian women aware that an important part of his picture of Iran is thus absent Yet the mosaic of incidents encounters vistas conversations atmospheres and acutely observed sights smells and moments creates a detailed impression of a country and society that will challenge most if not all preconceptions Insights into Sufism Ruth J. Nicholls, Peter G. Riddell, 2020-07-31 Sufism has long constituted one of the most powerful drawcards to people embracing Islam This book considers a broad range of questions relating to Sufism including its history manifestations in various countries and communities its expression in poetry women and Sufism and expressions among popular spirituality In addition the volume challenges the long held view of Sufism as being necessarily peaceful through a consideration in one paper of Sufis engaging in violent Jihad The book works at the interface between the scholarly and the practical using rigorous methodology to ensure that its findings are reliable while also giving attention to how Sufi thinking impacts the daily lives of Sufis This represents an original and important dimension of this study given the significant role played by Sufis throughout Islamic history in enriching discussion of intellectual and charismatic questions as well as informing popular practice among Folk Muslims Handbook of Terminology Abied Alsulaiman, Ahmed Allaithy, Kara Warburton, 2019-01-29 The current volume represents a revival of Arabic translation and terminology studies These disciplines have been dominated by Western scholarship in recent decades but in truth their historical tradition as a whole owes a great debt to Arabic scholarship The first systematic translation activity ever organized was under the Abbasids in Baghdad in the 9th Century CE and Arabic domination continued for several centuries before the tide turned In this collection the importance of the ongoing translation and terminology movement in the Arab world is revealed through the works of some of the most distinguished scholars who investigate a wide range of relevant topics from the making of the first ever Arabic monolingual dictionary to modern day localization into Arabic Arabic terminology standardization as well as legal medical Sufi and Quranic terms issues with both cultural and economic ramifications for the Arab world are thoroughly examined completing the solid framework of this rich tradition that still has a lot to offer **Teaching the Silk Road** Jacqueline M. Moore, Rebecca Woodward Wendelken, 2012-02-01 Advocating a global as opposed to a Eurocentric perspective in the college classroom discusses why and how to teach about China's Silk Road The romance of the Silk Road journey with its exotic locales and luxury goods still

excites the popular imagination But study of the trade routes between China and central Asia that flourished from about 200 BCE to the 1500s can also greatly enhance contemporary higher education curricula Indeed with people plants animals ideas and beliefs traversing it the Silk Road is both a metaphor of globalization and an early example of it Teaching the Silk Road highlights the reasons to incorporate this material into a variety of courses and shares resources to facilitate that process It is intended for those who are not Silk Road or Asian specialists but who wish to embrace a global history and civilizations perspective in teaching as opposed to the more traditional approach that focuses on cultures in isolation The book explores both classroom and experiential learning and is intentionally interdisciplinary Each essay focuses on pedagogical strategies or themes that teachers can use to bring the Silk Road into the classroom Based on years of experience the authors of Teaching the Silk Road offer sound strategies for both stand alone courses on aspects of the route and mainstreaming what has been uncovered in three decades of research into existing courses in a variety of disciplines H Net Reviews H Asia This collection of essays and personal reflections allows the reader to listen in on a relaxed conversation on teaching the topic of the Silk Road It offers a nice blueprint for integrating the Silk Road into new or existing curricula J Michael Farmer author of The Talent of Shu Qiao Zhou and the Intellectual World of Early Medieval Sichuan Meaning, Madness and Political **Subjectivity** Sadeg Rahimi, 2015-02-20 This book explores the relationship between subjective experience and the cultural political and historical paradigms in which the individual is embedded Providing a deep analysis of three compelling case studies of schizophrenia in Turkey the book considers the ways in which private experience is shaped by collective structures offering insights into issues surrounding religion national and ethnic identity and tensions modernity and tradition madness gender and individuality Chapters draw from cultural psychiatry medical anthropology and political theory to produce a model for understanding the inseparability of private experience and collective processes. The book offers those studying political theory a way for conceptualizing the subjective within the political it offers mental health clinicians and researchers a model for including political and historical realities in their psychological assessments and treatments and it provides anthropologists with a model for theorizing culture in which psychological experience and political facts become understandable and explainable in terms of rather than despite each other Meaning Madness and Political Subjectivity provides an original interpretative methodology for analysing culture and psychosis offering compelling evidence that not only normal human experiences but also extremely abnormal experiences such as psychosis are anchored in and shaped by local cultural and political realities Iran and Christianity Mark Bradley, 2011-10-27 In this enlightening study Mark Bradley looks at the growing underground church in Iran Given the hostility of the regime it is often assumed that Christianity is withering in Iran but in fact more Iranian Muslims have become Christians in the last 25 years than since the seventh century when Islam first came to Iran Beginning with an in depth look at the historical identity of Iran religiously culturally and politically Bradley shows how this identity makes Iranians inclined towards Christianity He goes on to look at

the impact of the 1979 revolution an event which has brought war economic chaos and totalitarianism to Iran and its implications for Iranian faith The study concludes with an analysis of church growth since 1979 and an examination of the emerging underground church This is a fascinating work guaranteed to improve any reader s knowledge of not only Iranian faith and church growth but of Iranian culture and history as a whole thanks to the thorough treatment given to the country s Islam Unveiled Robert Spencer, 2003-11-25 In Islam Unveiled Robert Spencer dares to face the hard questions about what the Islamic religion actually teaches and the potentially ominous implications of those teachings for the future of both the Muslim world and the West Going beyond the shallow distinction between a true peaceful Islam and the hijacked Islam of terrorist groups Spencer probes the Koran and Islamic traditions as well as the history and present day situation of the Muslim world as part of his inquiry into why the world's fastest growing faith tends to arouse fanaticism Islam Unveiled evaluates the relationship between Islamic fundamentalism and mainstream Islam the fixation with violence and jihad the reasons for Muslims disturbing treatment of women and devastating effects of Muslim polygamy and Islamic divorce laws Spencer explores other daunting questions why the human rights record of Islamic countries is so unrelievedly grim and how the root causes of this record exist in basic Muslim beliefs why science and high culture died out in the Muslim world and why this is a root cause of modern Muslim resentment He evaluates what Muslims learn from the life of Muhammad the man that Islam hails as the supreme model of human behavior Above all this provocative work grapples with the question that most preoccupies us today can Islam create successful secularized societies that will coexist peacefully with the West's multicultural mosaic
