*Muslim Minorities in Modern States* Raphael Israeli, 2017-09-08 Political leaders of the 1930s may be accused of blindness to danger in their failed attempts to appease totalitarian aggression but no one doubts they believed they were doing so to preserve their way of life In contrast Raphael Israeli suggests that twenty first century appeasement of Islamists wherever it occurs is different Appeasement in the advanced modern states of this century in Europe Australia Canada and even in parts of Asia is characterized by what amounts to a self inflicted humiliation in misguided efforts to slow the advance of a rising Islamist tide Such appeasement surrenders core aspects of sovereignty turning non Muslim populations into second and third class citizens in their own countries Disturbing warning signs first emerged in Europe but were either not noticed or denied They extended to the periphery of the Muslim world but their development in Western countries were unnoticed or denied until they hit also the peripheral areas of the Muslim world Canada and Australia and to some extent the countries of Asia fell into a syndrome of denial which persisted until they were forced to listen often at a price in human lives and carnage In Europe the core of the Muslim presence developed in countries like Britain France and Germany which lacked law enforcement against terrorists because the executive and judiciary emphasized human rights and apparent safety over defensive measures to protect their citizens and way of life Both the United States and Great Britain needed a traumatic jolt before they moved to act In the United States it would be the watershed event of September 11 2001 in London the July 7 2005 bombings And there were events in other countries in Spain the March 2004 Madrid train bombings in France the violent riots of 2005 in Amsterdam the van Gogh murder in Asia the Bali horror and finally in Scandinavia the Cartoon Affair These jolts shattered the tranquility of populations who had believed in peaceful coexistence with Muslim immigrants and in the feasibility of their integration into national societies This study fills a large void in the examination of the consequences of new migrations of Muslim populations into advanced and modern societies throughout the world

**ISLAM IN SOUTH KOREA PROGRESS AND CHALLENGES OF DA'WAH ACTIVITIES SINCE THE 1950S (IIUM PRESS)** Ahmad Faris Naqiyuddin Mohd Ghazi,Fauziah Fathil,2017-06-13 This book aims to introduce Islam and Muslims in

South Korea to non Korean readers of history especially given the increasing popularity of Korean culture particularly in the music and entertainment industries This study therefore provides insights into the existence of the Muslim community in South Korea something that is unknown to many and also on the challenges and problems facing both Korean and foreign Muslims in South Korea It has been more than half a century since the end of the Korean War in 1953 when Islam first established its foothold in South Korea yet to date only about 0.02% of its population is Muslim about 45,000 South Korean Muslims while the number of foreign Muslims continue to increase reaching about 200,000 in number Using a qualitative approach and interviews with Korean Muslim individuals this study provides information on how Islamic da'wah was carried out in South Korea the factors contributing to the spread of Islam and challenges facing the da'i in performing da'wah Moreover this study also provides information on several Muslim countries Muslim organisations and the individuals involved in da'wah activities in South Korea especially with regard to their efforts and contributions Old Historians, New

Historians, No Historians Raphael Israeli, 2016-04-19 This polemical volume tackles the thorny and controversial issue of the vastly different narratives told or manufactured by the two parties of the conflict in the Middle East the Arabs and Israel focusing on 1948 where it all started While all sides in this debate have vested interests this author included an attempt has been made here to reflect the factual truth on the events although their interpretation will always remain controversial Although the book argues principally with Benny Morris the founder and leader of the so called New Historians it encompasses a wide array of controversial topics like the evaluation of the 1948-49 War the morality of the war or the necessity to wage it as it was and its main reverberations such as the continuing conflict after seven decades the aggravation of the Palestinian minority in Israel and the essence of what history means Israeli argues that the current debate between the so called Old Historians and the New Historians itself healthy if and when it is kept to the point and not allowed to degrade into personal libel and recriminations is not really as unbridgeable as is often claimed Both sides have erred at points and both sides have some important and complementary light to shed on the contentious events surrounding the birth of Israel

*The Incurable Disease of Anti-Semitism* Raphael Israeli, 2024-04-23 There was a time in international relations when in spite of the regular interests and intrigues used to seek them some were able to keep the fundamentals of decency truth conscience the respect for facts traditions and history and the search for an objective truth Nowadays political positions can change from one day to the next facts can be reversed narrative is as valuable as fact and history and all opinions appear to be as valid as others The world is globalized no national culture or value can rival any wokeist claim or sentiment of what is or what must be for the world oppressors are never right These developments or rather this degeneration is the result of social media which have not only addicted people to produce fake news at will but have allowed opinions to be presented instantly and universally as fact including the routine lies sycophancy and betrayal by Arab and Muslim terrorists

**Israel's Nightmares** Raphael Israeli, 2015-05-26 Israel has been constantly threatened by Palestinian and Islamic ghosts

that either perennially mount attacks against her or loom in her horizon as permanent menaces for her very existence These ghosts that cause nightmares and haunt Israel include the Israeli Arab minority Palestinian refugees Palestinian prisoners Muslim radicals and terrorists Muslim campaigns of de legitimization Muslim poisoning of the physical and spiritual environment of the Middle East and other threats Written by a college professor Israel s Nightmares boldly delves into the history of the region and its politics Retreating from the Mirage of Multi-Culturalism? Raphael Israeli,2018 Government strategies for immigration in the Western world are changing This follows decades in which the West enthusiastically embraced a policy of multiculturalism hoping to integrate the critical mass of Muslim immigrants arriving in Europe Some have come in search of economic opportunity others are legitimate political refugees fleeing tyranny oppression and persecution Multiculturalism however became an ideology so deeply and wholly adopted by certain Western governments as to trigger processes of separatism instead of integration while efforts to accord citizenship and facilitate assimilation have instead created undercurrents of revivalist Islam The resulting policy has deteriorated into anger and frustration leading some new immigrants to support terrorism against their host countries and to participate in planning and initiating acts of violence in Britain Spain France Germany and Belgium In view of this some host countries have begun to rethink the benefits of multi culturalism adjusting to a new policy seeking the integration of Muslim minorities not through recognizing and cultivating their separate identities but through imposing the dominating culture of the adopted country Case studies include Holland Britain and Israel **Years of Upheaval** Raphael Israeli,2017-07-05 Years of Upheaval discusses Axial periods in history years that witnessed such fundamental reversals in history as to make the world turn upside down and inaugurate a new era Raphael Israeli sees the post 1989 period as such a period in Islam He explores events in the Islamic world since the end of the 1980s and during the 1990s and their aftermath particularly following the Iranian Islamic Revolution the Rushdie Affair and the death of Khumeini Israeli posits these events signalled a new age of Islamic violence and fundamentalism The period has seen the dissipation of state borders and the rise of transnational and trans territorial movements such as ISIS that have been extraordinarily attractive to young people in the Islamic world The hopeful Arab Spring 2010 2013 has been replaced by a threatening Islamic winter A number of major events shook the Muslim world on both the Asian and the African continents as well as peripheral Islamic minorities in Australia Canada and Latin America Among them were the Islamic Bomb and the rise of radical Islamic movements notably Hamas and Hezbollah and the rift between Sunnites and Shiites These and other momentous events in the Islamic world occasioned the Arab Spring and produced unrest in a wide swath of the Muslim world Even more importantly these were forming trends that are characterizing the decades thereafter

**Christianophobia** Raphael Israeli,2016-06-28 In the present upheaval in the Islamic world as chaos war and vengeance are overtaking order security and civil rights Muslim radicals have been venting their frustrations among their minorities most of whom are Christian from ancient Chaldeans in Iraq to Orthodox denominations in Turkey from Catholics in Indonesia

and Malaysia to remote and isolated Christian communities in Afghanistan and Pakistan Related to this vast and escalating phenomenon has been the violent activity of some within the Muslim minorities in the West who have migrated there in the past few decades and now seek revenge against their former colonial masters This is taking place in the context of fast increasing numbers of Muslims in the West the result both of high birthrates and of escalating legal and illegal immigration from Islamic lands

The Eclipse of Western Nations Raphael Israeli, 2020-02-23 Dangers are looming for Western civilizations due to the creeping invasion of Muslims who are gradually diluting the West with their own beliefs as they end up taking over and dominating them This danger is described very eloquently and frighteningly by French writer Michel Houellebecq in his best selling novel Submission This process also triggers a fundamental change in Western societies so the old cultures of Europe which are known sought and admired by outsiders will practically disappear replaced by an amalgam of ancient European tradition with a newly imposed Muslim faith mores and Sharia laws Muslim tourists and immigrants to the West are gradually but firmly imposing their culture on a scared West which has lost its will to fight and its capacity to defend itself because of political correctness and a reluctance to face the truth This volume is the fourth in the Quartet on the Waning of Western Civilizations which also comprises Retreating from the Mirage of Multi Culturalism Misnomers and Cultural Choices and Suicidal Democracy published in 2018 19

**Rushing to Self-Perdition** Raphael Israeli, 2021-04-27 Rushing to Self Perdition rings the alarm on the naivete of the Israeli and Western world which has been numbed by peaceful and soothing Arab declarations both domestically and internationally This has left them naively rushing to share power with Israel's sworn enemies both inside Israel and outside of it while letting down their defenses in spite of the continued Arab and Muslim denial and rejection of the idea of a Jewish state and of Zionism as the foundational principle of Israel's birth The 20 percent substantial Arab Palestinian minority in Israel declares insistently that it is only concerned with its own people's interest and safety and could not care less about the welfare of Israel They align with the hostile attitudes of the Palestinian people rather than with their state of Israel and still declare that they would have nothing to do with Israelis who pursue the maintenance of a Jewish and Zionist majority of their country They would conversely continue to press for de Judaization and de Zionization of the country while still expecting naive Israelis to link up and share power with them

Misnomers and Cultural Choices Raphael Israeli, 2019-08-06 Misnomers are often used in international politics to describe issues and situations that use common words but carry different meanings For example tolerance suicide bombers women's equality and many other words are commonly used by Muslims to make us believe that these words mean the equivalent of the jargon we know when in fact they cover up dark schemes that depart miles from conventional meanings Tolerance means for us to accept others as they are without value judgment For Muslims it means accepting others often temporarily despite their inherent inferiority until converting or dominating them becomes feasible Suicide bombers for us means terrorists who do not care for human life and are prepared to kill themselves together with other targeted enemies For Muslims these bombers

are holy martyrs who sacrifice themselves for the sake of Allah by killing enemies of Islam and are assured the bliss of Paradise in the proximity of Allah Women are diminished and relegated to a second rate status in Islam Women can be beaten and disciplined while at the same time equality and special concern is claimed for them A wide array of examples and situations of Muslim misnomers are cited and elaborated in the book **Suicidal Democracy** Raphael Israeli,2019-09-11 Suicidal Democracy Israel s Future in the Arab Environment spells out the perils inherent in the practice of democracy at any price even when it takes precedence over national identity and disregards national security and national existence just in order to preserve the ideal of democracy For one the values of existence and survival are considered by author Raphael Israeli as overwhelming while the character of a regime is only auxiliary to ascertain a better existence Therefore to choose any kind of government one first must guarantee one s survivability This volume examines the way Israel has been disregarding these basic life requirements in its frenzied drive to be and to appear as a supreme practitioner of democracy both towards its large Arab population and in its relations with the Arab world while the latter have been abusing democracy and liberal policies to bring Israel to its demise **The Intractable Dispute** Raphael Israeli,2019-02-21 The Middle East conflict which has been raging for a century and seems to have no end in sight is not over territory or other assets but is historically anchored in the Islamic tradition which has become the preponderant faith of the Arabs Being a qualitative factor of an either or import from the Muslim point of view which is today best expressed by Iran the Muslim Brothers Hamas Hezbollah and other radical Muslim movements it is not given to negotiation and compromise as any other political conflict but is governed by absolutes and one sided perspectives Arab nationalism Islam and Zionism are the main political and religious movements taking center stage in this conflict The intractable nature of the conflict has so far defied all negotiations agreements and peace treaties All the proposed peaceful settlements have thus far remained brittle while the fundamental issues of stereotyping suspicion hatred and condescendence have remained in place unshaken This book confronts two contradictory ideologies and attempts to bridge them over Sharia Versus Freedom Andrew G. Bostom,2012-11-06 Author Andrew G Bostom expands upon his two previous groundbreaking compendia The Legacy of Jihad and The Legacy of Islamic Antisemitism with this collection of his own recent essays on Sharia Islamic law The book elucidates unapologetically Sharia s defining Islamic religious principles and the consequences of its application across space and time focusing upon contemporary illustrations A wealth of unambiguous evidence is marshaled distilled and analyzed including objective erudite studies of Sharia by leading scholars of Islam the acknowledgment of Sharia s global resurgence even by contemporary academic apologists for Islam an abundance of recent polling data from Muslim nations and Muslim immigrant communities in the West confirming the ongoing widespread adherence to Sharia s tenets the plaintive warnings and admonitions of contemporary Muslim intellectuals freethinkers and believers alike about the incompatibility of Sharia with modern Western derived conceptions of universal human rights and the overt promulgation by authoritative mainstream

international and North American Islamic religious and political organizations of traditional Sharia based Muslim legal systems as an integrated whole i e extending well beyond mere family law aspects of Sharia Johannes J G Jansen Professor for Contemporary Islamic Thought Emeritus at Utrecht University says this book will prove sobering to even staunch optimists

**Black Upon White** Raphael Israeli,2020-08-17 Inspired by the June 2020 demonstrations and riots in America and in other parts of the world which were triggered by the murder of George Floyd in Minneapolis this volume compares the upheaval of the Arab minority in Israel and its claims of racism and discrimination with the plight of the African Americans in the U S The history of Black Power and the Nation of Islam militant activism in America claims that the present conflict between Blacks and whites which has existed for four centuries cannot be quelled by human rights demonstrations peaceful and violent or legislative measures Since the 1930s leaders of Black Power have floated the idea of Black territoriality and sovereignty self rule and independence from white rule as the only way to restore Black dignity and self confidence It has been suggested following the failure of all other solutions after the end of the Civil War to assign Blacks a section of American soil where they can constitute the largest Black population and be allowed with federal assistance and funding to move freely into and out of this chosen territory until a Black majority state within the Union affords them the opportunity to practice self rule

*Patchwork and Its Pitfalls* Raphael Israeli,2020-02-24 Patchwork and Its Pitfalls The Cost of Half Way Solutions describes decision makers patchwork actions that occur due to hesitation and lack of firmness and determination Under the pretext of humanitarianism saving lives or taking an otherwise wimpy action they end up taking a cowardly action at the cost of human lives and much material damage The costliest action often turns out to be the cheapest but is seldom done while the easiest and apparently cheapest action ends up being the most expensive in the aggregate This book is important because indecisive decision makers can emerge in all nations at all times The author s inspiration for writing this book When I watch politicians who repeatedly take cowardly decisions out of human considerations and concern for lives and material preservations but in fact end up wasting both

*Who Is Right and Who Is Left* Raphael Israeli,2017-11-20 This volume deals with the dilemma of just wars if any war can be justified In fact it is like many other things in life in the eye of the beholder For what is just in the eye of the winner and victor will be wrong and unjustified in the eye of the victim and loser This is the reason history is written by victors while the defeated indulge in lamentations and nostalgia In several historical chapters this volume brings up several cases from antiquity to our days of big powers that took the liberty to conquer small nations and subject them to their whims in the belief that might was right as well as reversals in history where the crushed victims ultimately gained the upper hand Therefore the question of who is right and who is left to tell the story will remain a tale of relative narratives leaving it to subsequent generations and their usually biased historians to rewrite history to their taste
