Mvrdv Mountain Spijkenisse Biography Building:

Book Mountain Spijkenisse Nicoline Baartman, 2013 The Book Mountain is a building with a mission to encourage a town populated by the least enthusiastic readers in the Netherlands to switch off their televisions and start reading books again This biography of the Book Mountain paints a picture of the town of Spijkenisse and the political and social contexts in which such buildings are realized The story also examines the role of the modern library the essence of a Ville Nouvelle and the search for an alternative for identification and whether or not this should be done through historicizing architecture The often contradictory motives of the protagonists and the context of the project are described in a catchy straightforward style befitting Spijkenisse by former Volkskrant newspaper editor Nicoline Baartman The story is illustrated with photographs by Marcel Veldman and informative graphics by MVRDV Book Mountain Spijkenisse Biography of a building is the story of an architect with a vision a revolutionary councillor the widow of a veterinarian an artsy library director and a visionary hero from India who saves the town It is a fascinating portrayal of life and customs in a new polder town OCLC

the many told in *The Women Who Changed Architecture* which sets the record straight on the transformative impact women have made on architecture. With in depth profiles and stunning images this is the most comprehensive look at women in architecture around the world from the nineteenth century to today. Discover contemporary leaders like MacArthur Fellow Jeanne Gang spearheading sustainable design initiatives reimagining cities as equitable spaces and directing architecture schools. An essential read for architecture students, architects and anyone interested in how buildings are created and the history behind them.

András Szántó. *Imagining the Future Museum* András Szántó, 2023-05-15. Following on the widely read *The Future of the Museum* 28 Dialogues which explored how museums are changing through conversations with today's generation of museum directors. New York based author and cultural strategy advisor András Szántó's new compilation turns its attention to architects. The conclusion of *The Future of the Museum* was that the software of art museums has evolved. Museum leaders are working to make institutions more open, inclusive, experiential, culturally polyphonic, technologically savvy, attuned to the needs of their communities and engaged in the defining issues of our time. It follows that the hardware of the art museum must also change. Conversations with a carefully selected group of architects survey current thinking in the field, engaging not only architects who have built some of the world's most iconic institutions but also members of an emerging global generation that is destined to leave its mark on the museum of the future.
