Where Christ Is Present John Warwick Montgomery, Gene Edward Veith, 2015-06-01 Five hundred years ago the church of Jesus Christ underwent a Reformation A lot happened after Martin Luther posted his 95 theses on the castle church door in Wittenberg But the fallout was not simply the start of Protestantism The Roman Catholic Church also recast itself in response to Luther's call for reforms And contrary to common belief Martin

Luther did not set out to start a new church Rather he was trying to reform the church that already existed by reemphasizing its essence namely the good news the gospel that Jesus forgives and saves sinners The unity of the church was broken when the pope rejected this call for reform and excommunicated Luther starting a chain of events that did lead to the institutional fracturing of Christendom and to a plethora of alternative Christian theologies But as many including conservative Catholics now admit the church did in fact need reforming Today the church including its Protestant branches also needs reforming Some of the issues in contemporary Christianity are very similar to those in the late Middle Ages though others are new But if Luther s theology can be blamed however unfairly for fragmenting Christianity perhaps today it can help us recover the wholeness of Christianity The religious climate in the early 21st century is simultaneously highly religious and highly secularized It is a time of extraordinary spiritual and theological diversity In the spirit of the anniversary we are observing this book will propose the kind of Christianity that is best suited for our day The remedies offered here are available by way of the same theology that was the catalyst for reforming the church five hundred years ago **In an Elephant's Rumble**

Sharon Pincott,2004 *Environmentalism After Humanism* Stefanie Fishel,Andrew M. Rose,2025-01-24 This book explores the ways in which one might come to recognize and better theorize the political actor and the political act or event in a post anthropocentric context The challenge to contemporary ideas of citizenship activism and the state stems not only from the realization that the natural world is inseparable from the social but that both are the product of hybridized human and nonhuman agencies As a result one must be skeptical of any notion of an environmental fix that bases itself upon an exclusively human agency What new types of citizenship might emerge from posthuman cultures and artforms What do effective post anthropocentric organizing strategies look like As the relevance of the liberal humanist political subject and the conceptual norms of political realism recede theories of national and international politics are now tasked with rethinking a contemporary environmental politics beyond humanism To better theorize these destabilizations this collection puts forth the value of thinking across disciplines wherein a conversation unfolds between political theory and literary theory that meets at the crossroads of environmental humanities and ecopolitical theory Elephants in the Hourglass Kim

Frank,2025-01-07 A moving and adventure filled tale of one woman s quest for the truth about endangered Asian elephants and their evolving relationship with humans Delving deep into an intricate web of unlikely heroes power struggles and living legends *Elephants in the Hourglass* takes readers on an extraordinary journey of discovery In her non fiction debut Kim Frank blends personal narrative vivid descriptions and meticulous research as she illuminates the ways we seek to survive on our rapidly changing planet Like Jane Goodall or Dian Fossey before her Kim is a female explorer who found her life completely changed as she was drawn deeper and deeper into the plight of the remarkable Asian elephant For Kim once she learned about the intense multi faceted but little known conflict between humans and elephants in North India she was unable to rest until she had learned more and told this story to the outside world This was a place and topic totally unknown

to her Up until that point Kim was an ordinary mom and emerging writer After a fraught divorce she felt a need to recapture her own voice and expand her world and so she set out to the Himalaya with the goal of telling a story worthy of National Geographic What Kim experienced would change her life It is far from a black and white story where the good guys and bad guys are immediately obvious Not in this world of displaced habitats exploding population growth migration and climate change Filled with unforgettable characters and encounters with one of the most sensitive intelligent and awe inspiring creatures on the planet Elephants in the Hourglass will inspire readers to pursue their goals and be a force for change in unexpected places **The Weird Thoughts and Writings of Battling Goozler** Robert Bruce Shampo,2009-11 A captivating compilation of twenty seven short stories that will surprise and delight the reader **Sing to Me, Dreamer** Shonagh Koea,2011-11-01 A quirky much loved novel about a return home a past love affair and an elephant It is many years since I turned the pages of the little book I wrote for the holy man and the ivory covers creak as I open on the story of how I went to India As my voice ascends thin as the song of a lark I see again the black eyes of the holy man irises flecked with gold as he hands me the pen and paper Oh sing to me dreamer he said and I began to write Back home as she sorts out her deceased Mother s estate Margaret Harris reflects on her time in India as mistress to a Maharajah But there are many things that she has to confront in the present her bullying lawyer the aggressive neighbour and the spectre of her failed relationship with her mother
